Hamilton Central School District Priorities
2026-2027

Curriculum and Instruction

The Hamilton Central School District holds learning and well-being for all students at the center of every decision. The learning environment should be academically challenging, supportive, and engaging. District administration, faculty, and staff hold themselves individually and collectively accountable through continual professional growth to improve classroom practices and student achievement.

Health, Safety, and Support Services

The Hamilton Central School District is committed to providing a safe learning environment. The students' relationships with the school fosters growth and trust, and increases their potential to succeed. Physical, emotional, academic, and social skills deserve equal support to ensure a holistic education.

Diversity, Equity, Inclusion, and Belonging

The Hamilton Central School District is committed to creating and maintaining a positive and inclusive learning and working environment where all students, staff, and community members feel safe, included, welcomed, and accepted. The district seeks to eliminate barriers to ensure equal access to opportunities and resources.

Culture and Community Engagement

The Hamilton Central School District values collaboration by seeking out constructive criticism, feedback, and new ideas from the entire school community. The district seeks to establish a culture of shared decision making, which is essential because our students' education is a shared responsibility of the students, families, school, and community. The school is a public resource that should be inviting and provide equitable access to the community.

Fiscal Responsibility and Facilities

The Hamilton Central School District creates a fiscally responsible budget and exercises efficient stewardship over its facilities to fulfill the mission and goals of the district.
