Parents,

As the year winds down and we start to think about summer plans I wanted to make sure to let you know that we will not be having summer school this year at Grass Lake School District #36. This is primarily because we will have contractors replacing major sections of the roof including the roof over the gym, and we will have other contractors in the building performing Health Life Safety repairs including replacement of doorways, creation of a new exit in the multipurpose room, as well as other repairs. These repairs and replacements make it impossible to safely use this building and therefore we will not have summer school. We apologize for any inconvenience this may cause and look forward to the completion of this work so our students can return to a building that is safe and inviting. If you have any questions please feel free to contact me at wnewby@gl36.org.
