

Attention Parents:

If your child is currently receiving special education services, there was a recent change in the law stating that parents now have the right to request to see Related Service Logs regarding their children. Related services may include occupational therapy, physical therapy, social work, speech/language, and nursing services. Related Service Logs will list the type of service being provided, the date and duration of each session, and what was focused on. Parents can request to see these logs annually at your child's Annual Review or upon request. If you would like to request to see your child's Related Service Log(s) please contact Susan Lee, Special Services Coordinator at (847) 207-1006 or slee@gls36.org.
