NOTICE TO PARENTS OF OUR SCHOOLS

The KEC would like your input to plan for our upcoming school year, 2020-2021. We will be reaching out to you by phone. Your child's teacher will be contacting you during the week of June 8, 2020 to ask you a few questions regarding the technical capabilities, workspace and support system at home. These findings will enable us to adequately prepare for a shift to distance learning, should the need arise.

Therefore, please answer our calls, it should only take a few minutes and this information is very important to us.

Niá:wen/Thank you for your time.
