KEC HOME LEARNING AGREEMENT

The Kahnawà:ke Education Center states all children are provided equal opportunity to succeed. In order to meet the various concerns expressed by parents during the COVID-19 pandemic, we have developed a KEC Home Learning Covid-19 Program that will support parents and students who have chosen to not partake in on-site learning for their child(ren) due to health and safety concerns.

Taking this into consideration, the Kahnawà:ke Education Center will enter into an agreement with:

_____, parent/guardian of _____

School: _____ Grade _____ to ensure that his/her education is adequately provided for in accordance with the KEC Home Learning Program. By entering into this agreement, the parent/guardian agrees to the following:

- To undertake responsibility with the support of the classroom teacher, subject teacher, distance-learning teacher, and other identified school personnel for the education of _____ as per the guidelines noted in the *KEC Home Learning Program Guide*
- To collaborate with the above-mentioned Educational Services personnel in the establishment of a timeline for monitoring and assessment of my child's progress and report any issues of concern to the teacher or Distance Learning Teacher.
- Maintain communication processes identified by respective school(s) in order to establish collaborative supports for the student and home. If for any reason, the parent/guardian decide that it would be in their child's best interest to return back to school for on-site learning, they must refer to "Opt-in, Opt-out" processes noted in the KEC Home Learning Program Guidelines.
- Normal school policies and procedures related to the students overall well-being will remain primary and apply to this program and services delivered.
