Let Them Do It

LET THEM SING
“HOPPER THE BUNNY”
The nose of a bunny
Is twitchy and funny (wrinkle nose several times)
His furry ears flippety-flop (put hand on top of head and wiggles back and forth)
His tail you can see (make a circle with hands)
Is as small as can be (put one hand behind back and wiggle it)
But my how his hind legs can HOP! (hop around room)

KIDS IN THE KITCHEN

Easy Easter Egg Treats
To prepare the mixture microwave one-quarter cup of butter and ten ounces of marshmallows for two minutes. Quickly mix in three ounces of any flavor of Jell-O. Then stir in six cups of rice cereal. Apply non-stick cooking spray to your child’s clean hands. Give your child a large spoonful of the warm mixture to form into an egg shape. Cover each egg with colorful plastic wrap and then tie with a ribbon. New improved treats for eating and sharing!

************************************************************************************

CRAFT CORNER
Earth Friendly Easter Basket
Teach your little ones the importance of recycling by using plastic milk jugs to create beautiful baskets. To make a basket, adults should use a craft knife to cut out the handle, spout, and front section of a jug to 4” from the bottom as shown. (This will leave two 2” wide handle sections.) To form the basket’s handle, punch two holes at the end of each section, overlap the holes, and then tie them together with yarn. Have your child decorate the basket by gluing on Spring-shaped construction paper cut-outs or tissue Paper pieces. Place Easter grass inside the basket and you are ready for an Easter Egg Hunt!!

************************************************************************************

WORDS OF WISDOM:
This is “Keep America Beautiful Month” and is a good time to teach your child about recycling. Let them help sort recyclable materials on trash day. Another family activity is to clean up the trash and litter in your neighborhood. Remember that children learn from the good examples set by their parents.
