

Kindergarten
Make Your Brain Bigger Activities

Hi boys and girls! Here are some things you can work on while you're off that will help your brains grow. This should be fun! Try to do everything on the list each day. Enjoy your time off, and we'll see you soon!

~ Mr. Walsh and Dr. Shaughnessy

Reading

Read with someone for at least 30 minutes. You can divide it up into three 10-minute chunks!

Writing

Write a story. Try your best with spelling and include a pretty picture. You can write about anything – your dog, what you want to be when you grow up, your favorite animal, your nice teacher, what you did today – anything!

Math

Count to 100; practice adding and subtracting; play a game that has numbers, like a card game or a game with dice.

Music

Sing a song. Dance!

Art

Draw a nice picture. Of what? Of a flying lion, your friends from school, a spaceship – anything!

Gym

Get out and run around!!!

~ Mr. Walsh and Dr. Shaughnessy

Reading

Read for at least 45 minutes. You can divide it up into three 15-minute chunks! Tell an adult about what you read. What was it about? Who were the characters? What was your favorite part?

Writing

Write a story. Try your best with spelling and include a pretty picture. You can write about anything – your dog, what you want to be when you grow up, your favorite animal, your nice teacher, what you did today – anything!

Math

Practice adding and subtracting for 10 minutes, play a game that has numbers, like a card game or a game with dice. Make up three math problems. Give them to someone to solve and see if they're right!

Music

Sing a song. Dance!

Art

Draw a nice picture. Of what? Of a flying lion, your friends from school, a spaceship – anything!

Gym

Get out and run around!!!

~ Mr. Walsh and Dr. Shaughnessy

Reading

Read for at least an hour. You can divide it up into three 20-minute chunks! Tell an adult about what you read. What was it about? Who were the characters? What was your favorite part?

Writing

Write a story. Try your best with spelling and include a pretty picture. You can write about anything – a talking donkey, what you want to be when you grow up, your favorite animal, your nice teacher, what you did today – anything!

Math

Practice adding and subtracting for 10 minutes; play a game that has numbers, like a card game or a game with dice.

Music

Sing a song. Dance!

Art

Draw a nice picture. Of what? Of a flying lion, your friends from school, a spaceship – anything!

Gym

Get out and run around!!!

For science and social studies, you have a few big things you can work on:

Science

During the time you're off, invent something useful.

Social Studies

Do each of these things once while you're off: Make a map of your neighborhood; talk to someone older about what it was like when they were little; talk to an adult about what they do for their job; write about what you want to be when you grow up, and why.

~ Mr. Walsh and Dr. Shaughnessy

Reading

Spend at least an hour-and-a-half reading a good book. You can divide it up into three 30-minute chunks! Tell an adult about what you read. What was it about? Who were the characters? What was your favorite part?

Writing

Write a story. You can include a pretty picture! You can write about anything – a talking donkey, what you want to be when you grow up, your favorite animal, your nice teacher, what you did today – anything!

Math

Practice adding, subtracting, multiplying, and dividing for 10 minutes. Make up five tricky math problems. Give them to someone to solve and see if they're right!

Music

Sing a song. Dance!

Art

Draw a nice picture. Of what? Of a flying lion, your friends from school, a spaceship – anything!

Gym
