

Hello Steel Valley School District Families!

We recognize the 2020-2021 school year is going to look different than any other school year. Preparations for a safe and clean school environment have taken place all summer. It is important that we all work together to make this school year a successful learning experience for your child. You have chosen either the Hybrid or Remote Learning Option for your child and the District is requesting that you stick to your initial choice for the 1st grading period. The 1st nine weeks ends on November 3,2020.

Both Hybrid and Remote Learning Options require Internet usage in the home. If you DO NOT have Internet and need assistance in securing Internet in your home, please contact Counselor Fisher 412-464-3600 ext 5521 afisher@steelvalleysd.org (Elementary Families) or Ryan Dunmire-Kuftic at rdunmirekuftic@steelvalleysd.org (Secondary Families). We have community partners that are assisting with this service. Please reach out ASAP and help us help you! We are looking forward to a great school year!
