

This is a message from Steel Valley HS. The expectation for students on Wednesday, September 9 is to successfully log into all of their Google Classrooms. If issues arise, classroom teachers and technology support will be available to assist. This process will ensure that all students will be able to access their Google Classroom sessions prior to the first day of synchronous remote learning. Students will also participate in a Digital Citizenship program review to ensure effective and safe utilization of technology. We hope that everyone has a great 2020-2021 school year.
