

## WHAT TO DO IF STUDENT HAD CONTACT WITH A CONFIRMED COVID-19 CASE?

No Close Contact and the student is asymptomatic.

No further action is needed.

Close Contact/Exposure

- Student is sent to school nurse immediately.
- Parents are notified to pick up student ASAP.
- Student is isolated.
- Nurse must follow up with family twice during quarantine period.

If the student is quarantined for 10 days *and* remains symptom-free, he/she may return to school after 10 days.

If the student develops symptoms, he/she should seek medical attention and isolate for an additional 10 days.

### School Must:

- Follow established communications plan to notify staff, students and families.
- Notify the Allegheny County Health Department.
- Investigate, contact trace, and establish what other staff members and/or students were in close contact with sick person.
- Clean and disinfect the area(s) where the student was present.
- Identify corrective actions, if any, that can be taken for the future.

### Student Must:

- Stay home and self-isolate.
- Seek medical attention.
- Remain out of school until:
  - at least 10 days have passed since symptoms first appeared,
  - student is symptom-free for at least 24 hours (defined as resolution of fever without the use of fever-reducing medications),
  - and all other symptoms have improved.
- SVSD may require clearance from a healthcare provider to return to school.

## WHAT TO DO IF A STUDENT IS SICK?

Student is exhibiting symptoms consistent with COVID-19.

Student is sick, but symptoms exhibited are not consistent with COVID-19.

- School nurse notifies Principal.
- Principal notifies Superintendent.

- Student is sent to school nurse immediately.
- Parents are notified to pick up student ASAP.
- Student is isolated.
- Parents are advised to seek medical attention.
- Nurse must follow up with family every 24 hours until a diagnosis or test results are received.

Student follows protocols consistent with attendance policy.

The Student TESTS POSITIVE with COVID-19.

The Student TESTS NEGATIVE with Covid-19.

### Student Must:

- Stay home and self-isolate.
- Seek medical attention.
- Remain home until:
  - at least 10 days have passed since symptoms first appeared,
  - student is symptom-free for at least 24 hours (defined as resolution of fever without the use of fever-reducing medications),
  - and all other symptoms have improved.
- SVSD may require clearance from a healthcare provider to return to school.

### School Must:

- Follow established communications plan to notify staff, students and families.
- Notify the Allegheny County Health Department.
- Investigate, contact trace, and establish what other students and/or staff members were in close contact with sick person.
- Clean and disinfect the area(s) where the student was present.
- Identify corrective actions, if any, that can be taken for the future.

### Student Must:

- Stay home and self-isolate.
- Seek medical attention.
- Remain out of school until:
  - student is symptom-free for at least 24 hours (defined as resolution of fever without the use of fever-reducing medications),
  - and all other symptoms have improved.

### School Must:

- Clean and disinfect the area(s) where the student was present.
- Identify corrective actions, if any, that can be taken for the future.

# WHAT TO DO IF A STAFF MEMBER HAD CONTACT WITH A CONFIRMED COVID-19 CASE?

No Close Contact and the staff member is asymptomatic.

No further action is needed.

Close Contact/Exposure

- Staff member is sent home.
- Immediate Supervisor is notified.
- Supervisor informs Central Administration.

If the staff member is quarantined for 10 days *and* remains symptom-free, he/she may return to work after 10 days.

If the staff member develops symptoms, he/she should seek medical attention and isolate for an additional 10 days.

- School Must:**

  - Remain out of work until:
    - at least 10 days have passed since symptoms first appeared,
    - employee is symptom-free for at least 24 hours (defined as resolution of fever without the use of fever-reducing medications),
    - and all other symptoms have improved.
  - SVSD may require clearance from a healthcare provider to return to work.

## WHAT TO DO IF A STAFF MEMBER IS SICK?

Staff member is exhibiting symptoms consistent with COVID-19.

Staff member is sick, but symptoms exhibited are not consistent with COVID-19.

Staff member follows protocols consistent with SVSD policy.

- School nurse notifies Principal.
- Principal notifies Superintendent.

- Staff member reports to school nurse.
- Staff member is sent home.
- He/she seeks medical attention.
- Staff Member should make Principal aware of diagnosis and follow direction of health care provider.

The staff member TESTS POSITIVE with COVID-19.

The staff member TESTS NEGATIVE for COVID-19.

### Staff Member Must:

- Stay home and self-isolate.
- Seek medical attention.
- Remain out of work until:
  - at least 10 days have passed since symptoms first appeared,
  - employee is symptom-free for at least 24 hours (defined as resolution of fever without the use of fever-reducing medications),
  - and all other symptoms have improved.
- SVSD may require clearance from a healthcare provider to return to work.

### School Must:

- Follow established communications plan to notify staff, students and families.
- Notify the Allegheny County Health Department.
- Investigate, contact trace, and establish what other staff members and/or students were in close contact with sick person.
- Clean and disinfect the area(s) where the person was present.
- Identify corrective actions, if any, that can be taken for the future.

### The Staff Member Must

- Stay home and self-isolate.
- Seek medical attention.
- Remain out of work until:
  - employee is symptom-free for at least 24 hours (defined as resolution of fever without the use of fever-reducing medications),
  - and all other symptoms have improved.

### School Must:

- Clean and disinfect the area(s) where the staff member was present.
- Identify corrective actions, if any, that can be taken for the future.

## EXAMPLES OF ISOLATION/QUARANTINE TIMELINES FOR FAMILIES

This assumes a family of three: two parents/guardians and a child and two potential scenarios of isolation and quarantine. This is not definitive and is for example purposes only as each situation will be different.

### Scenario 1

### Scenario 2
