Student Handbook

2019-2020

Welcome to Washington School

At Washington School we believe that building relationships is key, and we look forward to getting to know and working with our students and families. This handbook sets standards for parents/guardians, students and teachers to achieve success in a positive environment throughout the school year. We believe that lifelong success depends on learning to make responsible choices. We believe students have rights and responsibilities. The most important right every student has is to learn. In order for learning to be maximized, we believe that students must feel both safe and secure. It should be noted that we do not tolerate violence, aggression, or intimidation at Washington School.

An understanding of school rules designed to protect the learning environment enables students to function at a high level intellectually, socially, and emotionally. We are dedicated to working with parents to provide a positive, nurturing environment for every student.

Washington School strives to be a violence-free zone. A violence free zone is a safe place for children. Bullying will not be tolerated. Bullying is an “imbalance of power” from the aggressor to the other student. Bullying behavior is defined as harassment, intimidation, or physical and/or verbal aggression that places another student or staff member in reasonable fear of harm to his/her personal property or self. Each classroom will have rules to prevent bullying, and counseling intervention might be utilized for those students in need of additional positive behavior supports.

This handbook is intended as a guide. It includes basic school rules including those that protect students in the cafeteria, playground, and on the bus as well as within the school building. They are based on courtesy and common sense. Included are some expectations we hold based on the belief that all students can be successful. You may also refer to Board Policy #5114 which outlines prohibited student conduct for all students in District 81. Serious violations of school rules may result in a report to the Schiller Park police. Furthermore, parents and students must adhere to the rules/policies outlined in the District 81 Handbook.

Read this handbook and the District 81 handbook with your child. Remind them that all of our rules protect their rights and safety. A copy of this document is on your child’s iPad and posted on our school website.

This Discipline Handbook contains rules in addition to those in the District Handbook, specifically Board Policy 7:190. All rules and expectations contained in 7:190 are in effect.

Sincerely,

Washington School Staff

The eggs or nits hatch in 10 to 14 days. The cycle may repeat itself every 3 weeks. Head lice are found in the hair around the ears and base of the neck, but may be present on any area of the scalp. Children often have an itchy scalp. Transmission only occurs by direct contact

or contact with clothing such as hats and hoods, bed linens, or hair accessories. All clothing and sheets need to be washed and carpets vacuumed on the same day of treatment. All household members and siblings should be checked. Siblings will be checked in school. Entire classrooms will be checked for 2 or more cases and a notification letter will be sent home. Remind your child not to share hats, combs, clothing or hair accessories. Head lice is a nuisance but cannot spread disease. Concussion protocol called “Heads- Up” is followed in all Illinois schools.

Returning to School after an Illness or Injury:

Any student returning to school with a cast, crutches, serious injury or illness requiring physical limitations, must see the nurse. A doctor’s note is needed when the student may return to normal school activities such as PE/recess after an injury or serious illness.

Please have the completed form returned to the nurse.

Sports Physical Requirements: Middle school students are required to have a current sports physical on file at school before trying-out or participate in interscholastic sports. Sport physicals are good for 13 months and must be completed by a physician or ANP and include a parent signature. Students entering 6th grade or high school need a new physical and immunization record on an Illinois Child Health Certificate form. (accepted as sports physicals) Sports physicals are not accepted as 6th grade or high school physicals.

Guidelines for flu: Influenza or “flu season” typically runs from October through May.

Influenza is primarily a respiratory virus. We recommend that your child stay home for treatment and observation if he/she has any of these symptoms for 48 hours or 2 days.

Severe cold or stomach-ache symptoms such as;

Fever greater than 100 degrees, chills, headache, sore throat

Feeling tired, pain, weakness or muscle aches

Frequent cough, congested (wet) or a croupy cough

Increase nasal discharge, frequent nose blowing

To help prevent the flu and colds from spreading, teach your children good hygiene habits;

Wash hands frequently

Do not touch eyes, nose or mouth

Cover mouth and nose when sneezing or coughing

Avoid close contact with people who are sick or when you have a cold

Keep your child well hydrated and continue with good nutrition to fight off the virus

Often when a child awakens with vague complaints (the way colds and flu begin) it is wise to observe your child at home for an hour or two before deciding whether to attend school.

Stomach flu causes vomiting and sometimes diarrhea. It generally does not exceed 24 hours but occasionally can. Children must stay home from school for 24 hours or more from the time they last vomited or had diarrhea. If vomiting lasts longer than 24 hours please check in with your doctor.

Hand washing is your best defense from getting ill with a stomach bug. Some viruses can survive hand sanitizer.

***Interventions may differ for students with IEPs

Absenteeism

Attendance Expectations

We expect all students to arrive on time to school at 8:15. Students who arrive to school after 8:20 am will be tardy. We expect parents to ensure that students arrive on time and are ready to learn. If children are ill and will be absent from school, we expect parents to call the school office at (847)671-1922 before 8:15 am on each day of an absence. Parents should expect us to contact the home when children are not in school. If a child is absent for five (5) consecutive days, a doctor's note is required to return to school.

Tardy

A student is tardy if he/she arrives to school unexcused after 8:20. If the student is tardy he/she must report to the office to receive a pass before going to their locker or class. To help students learn about responsibility, the staff tracks and monitors tardies. To assist students and parents who may experience excessive tardies, a sequence of interventions is followed. These range from calls home, parent letters and conferences at school to create a plan to help get students to school on time.

Truancy

Definition:

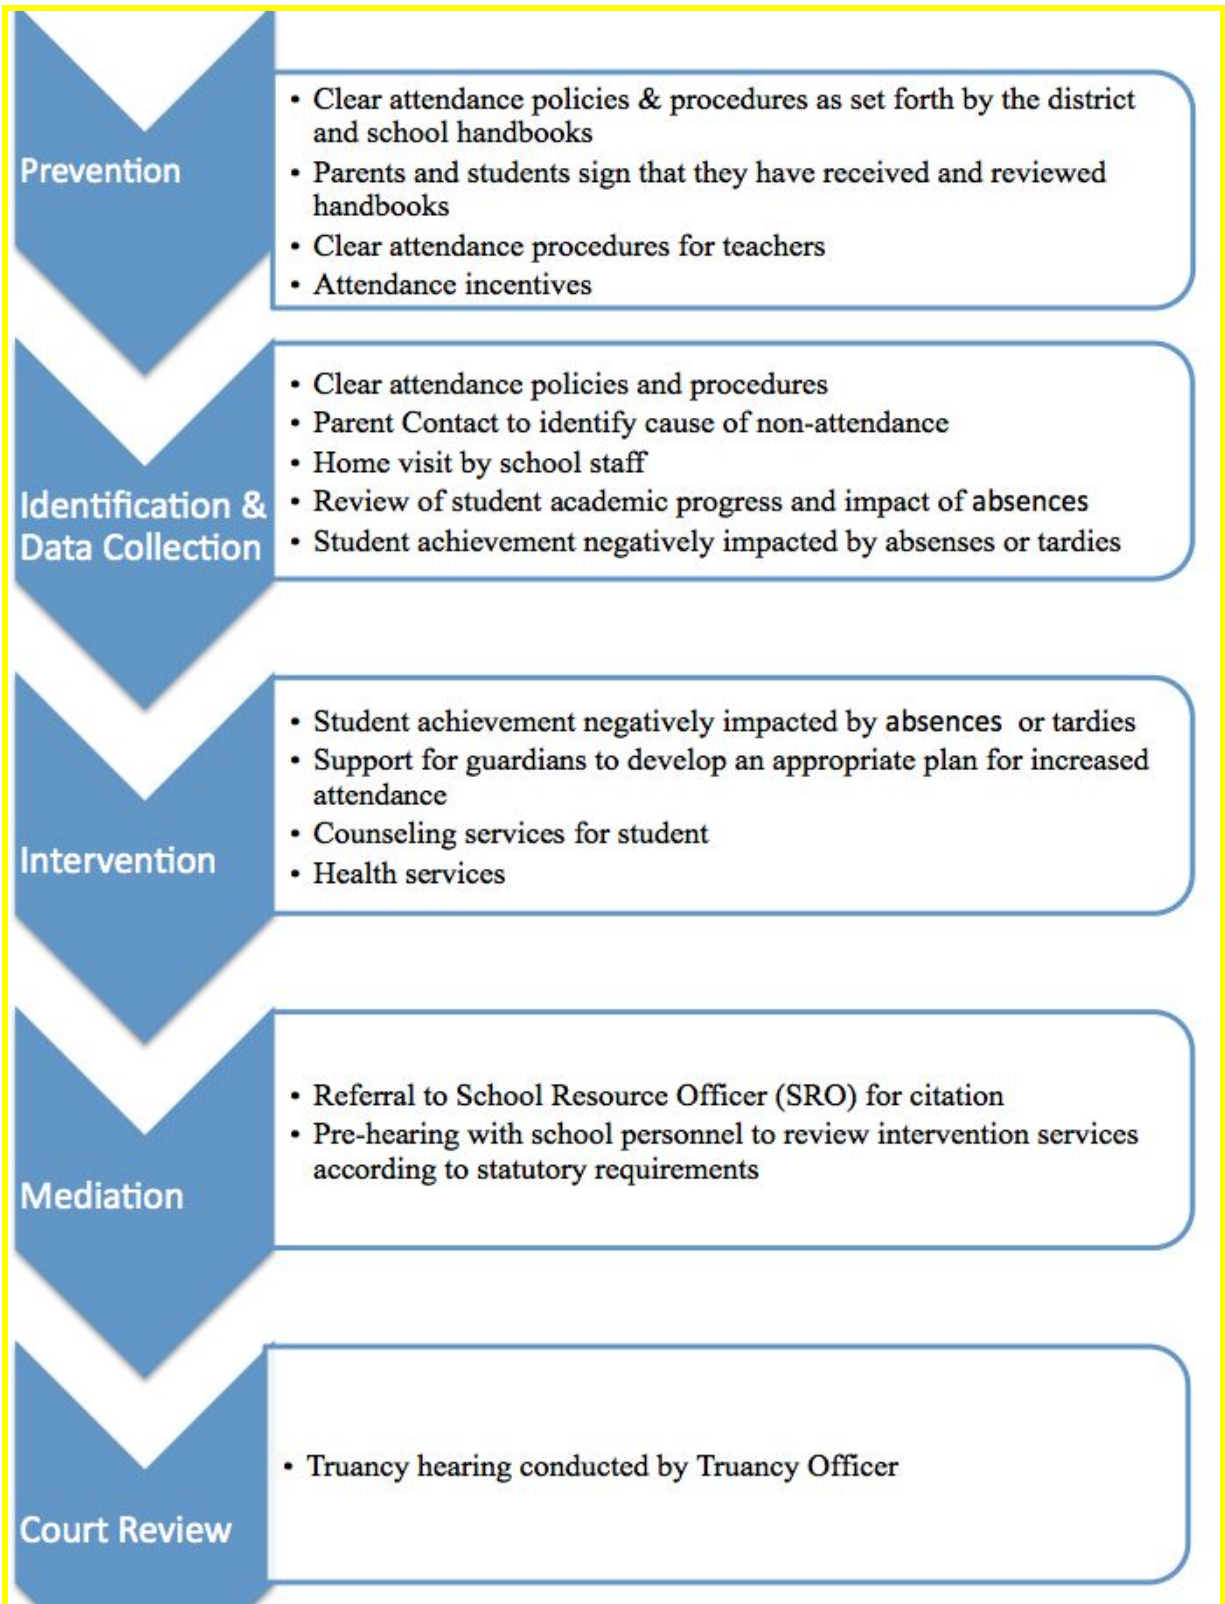

District 81, recognizes the impact of regular school attendance on educational performance. It is also important that the students have a good start to the school day by arriving on time. To that end, the district has a truancy officer to monitor student attendance. The truancy process is begun when a student has been absent or tardy for more than 5% of school days. School staff will work with families to help students and families with these issues. However, if these efforts are not successful, the truancy officer may involve the police who may issue fines, or the matter may be referred to truancy court. For more information regarding truancy, contact the Building Principal.

1. The School Code of Illinois (105ILCS5, Illinois Revised Statute), Section 26-1 provides that any child between the ages of seven (7) years and sixteen (16) years shall attend school in the district where the child resides, with the exception of those attending a private or parochial school.
2. A "truant" is defined in Section 26-2a as a child subject to compulsory school attendance, who is absent without a valid cause from attendance for a school day or portion thereof.
3. A "chronic truant" is defined in Section 26-2a as a child subject to compulsory school attendance who is absent without a valid cause from attendance for 5% (9 days) or more of the previous 180 regular attendance days.
4. Note: The determination of excused vs. unexcused absences is the responsibility of the school. The school may decide, based upon a Parent/Guardian's calls to school, whether the absence is excused or unexcused. After numerous call-ins from specific Parents/Guardian's, the school may decide to require a doctor's note to excuse future absences.

A child absent from compulsory school attendance without valid cause will be considered truant. Habitual truants are subject to legal action consistent with state law.

In the event that your child will have an unexpected, prolonged absence, please notify the building administrator.

Instruction

Administrative Procedure - Acceptable Use of Electronic Networks

All use of electronic networks shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. **The failure of any user to follow these procedures will result in the loss of privileges, disciplinary action, and/or legal action.**

Terms and Conditions

Acceptable Use - Access to the District's electronic network must be: (a) for the purpose of education or research, and be consistent with the District's educational objectives, or (b) for legitimate business use.

Privileges - The use of the District's electronic network is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The system administrator or Building Principal will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

Unacceptable Use - The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:

- a. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any State or federal law;
- b. Unauthorized downloading of software, regardless of whether it is copyrighted or de-virused;
- c. Downloading of copyrighted material for other than personal use;
- d. Using the network for private financial or commercial gain;
- e. Wastefully using resources, such as file space;
- f. Hacking or gaining unauthorized access to files, resources, or entities;
- g. Invading the privacy of individuals, that includes the unauthorized disclosure, dissemination, and use of information about anyone that is of a personal nature including a photograph;
- h. Using another user's account or password;
- i. Posting material authored or created by another without his/her consent;
- j. Posting anonymous messages;
- k. Using the network for commercial or private advertising;
- l. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, harassing, or illegal material; and
- m. Using the network while access privileges are suspended or revoked.

Network Etiquette - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- a. Be polite. Do not become abusive in messages to others.
- b. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
- c. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
- d. Recognize that email is not private. People who operate the system have access to all email.

Messages relating to or in support of illegal activities may be reported to the authorities.

- e. Do not use the network in any way that would disrupt its use by other users.
- f. Consider all communications and information accessible via the network to be private property.

No Warranties - The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification - The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Security - Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

Telephone Charges - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Copyright Web Publishing Rules - Copyright law and District policy prohibit the re-publishing of text or graphics found on the web or on District websites or file servers without explicit written permission.

- a. For each re-publication (on a website or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the web address of the original source.
- b. Students and staff engaged in producing web pages must provide library media specialists with email or hard copy permissions before the web pages are published. Printed evidence of the status of "public domain" documents must be provided.
- c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material may not be considered a source of permission.
- d. The *fair use* rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
- e. Student work may only be published if there is written permission from both the parent/guardian and student.

Use of Email - The District's email system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides email to aid students and staff members in fulfilling their duties and responsibilities, and as an education tool.

- a. The District reserves the right to access and disclose the contents of any account on its

system, without prior notice or permission from the account's user. Unauthorized access by any student or staff member to an email account is strictly prohibited.

- b. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the School District's Internet gateway carry with them an identification of the user's Internet *domain*. This domain is a registered name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the School District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.
- d. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
- e. Use of the School District's email system constitutes consent to these regulations.

Internet Safety

Internet access is limited to only those *acceptable uses* as detailed in these procedures. Internet safety is almost assured if users will not engage in *unacceptable uses*, as detailed in these procedures, and otherwise follow these procedures.

Staff members shall supervise students while students are using District Internet access to ensure that the students abide by the *Terms and Conditions* for Internet access contained in these procedures.

Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children's Internet Protection Act and as determined by the Superintendent or designee.

The system administrator and Building Principals shall monitor student Internet access.

- Only use your username and password
- Computers, printers, and other technology is only for school approved work/projects **not** to play games on the Internet
- Students must have permission to use the technology after school.

At Washington Elementary School, teachers and students work together to support our school values of safety, respect, and learning. In some situations more formal interventions are required to help students assume accountability for their actions. The following level system describes those interventions as they relate to computer and technology use.

Exhibit - Keeping Yourself and Your Kids Safe On Social Networks

For students:

- Put everything behind password protected walls, where only friends can see.
- Protect your password and make sure you really know who someone is before you allow them onto your friend's list.
- Blur or morph your photos a bit so they won't be abused by cyberbullies or predators.
- Don't post anything your parents, principal or a predator couldn't see.
- What you post online stays online - forever!!!! So ThinkB4UClick!
- Don't do or say anything online you wouldn't say offline.
- Protect your privacy and your friends' privacy too...get their okay before posting something about them or their pics online.
- Check what your friends are posting/saying about you. Even if you are careful, they may not be and may be putting you at risk.
- That cute 14-year old boy may not be cute, may not be 14 and may not be a boy! You never know!
- And, unless you're prepared to attach your blog to your college/job/internship/scholarship or sports team application...don't post it publicly!
- Stop, Block and Tell! (don't respond to any cyberbullying message, block the person sending it to you and tell a trusted adult).
- R-E-S-P-E-C-T! (use good netiquette and respect the feelings and bandwidth of others).
- Keep personal information private (the more information someone has about you, the more easily they can bully you).
- Google yourself! (conduct frequent searches for your own personal information online and set alerts ... to spot cyberbullying early).
- Take 5! (walk away from the computer for 5 minutes when something upsets you, so you don't do something you will later regret).

And for parents:

- Talk to your kids - ask questions (and then confirm to make sure they are telling you the truth!)
- Ask to see their profile page (for the first time)...tomorrow! (It gives them a chance to remove everything that isn't appropriate or safe...and it becomes a way to teach them what not to post instead of being a gotcha moment! Think of it as the loud announcement before walking downstairs to a teen party you're hosting.)
- Don't panic...there are ways of keeping your kids safe online. It's easier than you think!
- Be involved and work with others in your community. (Think about joining WiredSafety.org and help create a local cyber-neighborhood watch program in your community.)
- Remember what you did that your parents would have killed you had they known, when you were fifteen.
- This too will pass! Most kids really do use social networks just to communicate with their friends. Take a breath, gather your thoughts and get help when you need it. (You can reach out to WiredSafety.org.)
- It's not an invasion of their privacy if strangers can see it. There is a difference between reading their paper diary that is tucked away in their sock drawer...and reading their blog. One is between them and the paper it's written on; the other between them and 700 million people online!
- Don't believe everything you read online - especially if your teen posts it on her blog!

RE: Children's Online Privacy Protection Act

Dear Parent(s)/Guardian(s):

This letter is being sent as part of the District's continuing effort to educate parents and students about privacy protection and Internet use.

The Children's Online Privacy Protection Act gives parents control over what information websites can collect from their children. Many companies, however, are not providing information about what data a mobile app collects, who will have access to that data, and how it will be used. Allowing your child access to games and other seemingly harmless applications on a smartphone or computer risks his or her exposure to intrusive marketing and access to personal information.

A recent survey of apps for children by the Federal Trade Commission found that 10 percent of apps with social networking services did not disclose their presence; 17 percent of the apps allowed children to make purchases without parent/guardian consent; and 58 percent contained constant advertising, while less than 20 percent disclosed that advertising would appear.

The following suggestions may help keep children from being bombarded by unwanted advertising, from making unwanted purchases and from disclosing personal information and location:

- Be choosy about the applications that you let your child use. Try the app yourself to check for advertising messages and/or social networking and purchase options before allowing your child access.
- Select activities that do not require access to the Internet or an application, such as looking at family pictures or listening to preselected music, screened and approved by you.
- Make certain that the ability to make purchases is password protected.
- Set up family rules and consequences explaining that all purchases made via a smartphone or computer must have parent/guardian consent.
- Caution children about the use of social networking and other sites and/or apps that can pinpoint locations.
- Monitor computer and smartphone use whenever and wherever possible.

Letter to Parents/Guardians Regarding the Right to Privacy in the School Setting Act

Re: Access to Student Social Networking Passwords and Websites for Violations of School Rules or Procedures

Dear Parent(s)/Guardian(s):

If your child has an account on a *social networking website*, e.g., Facebook, Instagram, Twitter, ask.fm, etc., please be aware that State law requires school authorities to notify you that your child may be asked to provide his or her password for these accounts to school officials in certain circumstances. *Social networking website* means an Internet-based service that allows students to: (1) construct a public or semi-public profile within a bounded system created by the service; (2) create a list of other users with whom they share a connection within the system; and (3) view and navigate their list of connections and those made by others within the system.

School authorities may require a student or his or her parent/guardian to provide a password or other related account information in order to gain access to his/her account or profile on a social networking website if school authorities have reasonable cause to believe that a student's account on a social networking website contains evidence that a student has violated a school disciplinary rule or procedure.

Please contact the school if you have any questions.

Sincerely,

Building Principal

Dear Parents/Guardians:

At our school, bullying of any kind, by any person, is unacceptable. All students should be free from worries about being bullied. Students who bully others must be taught other, appropriate ways of interacting with peers. The purpose of this letter is to provide you with information concerning the School District's anti-bullying program and to encourage you to help us identify students who are being bullied.

The School Board policy on bullying begins with this goals statement:

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors is an important District goal.

Bullying is defined as follows:

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student in reasonable fear of harm to the student's person or property.
2. Causing a substantially detrimental effect on the student's physical or mental health.
3. Substantially interfering with the student's academic performance.
4. Substantially interfering with the student's ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying, intimidation, and/or harassment may take various forms, including without limitation: threats, stalking, physical violence, sexual harassment, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying.

I asked our school staff members to respond immediately and with compassion to a student who reports bullying or school violence. After evaluating the situation to determine if an immediate referral to my office is needed, a staff member will give the student our form for reporting bullying, 7:180-AP1, E5, *Report Form for Bullying and School Violence*. I will inform you whenever your child is involved in a bullying report.

I also asked our staff members for their feedback and concerns specifically regarding locations that may be bullying *hot spots* needing additional supervision or monitoring or if there are any known bullies or targets of bullying in our building. I want to ask you to do the same thing. Please inform me if you know of any bullying *hot spots* in or around our school, or if you are aware of a known bully or target of bullying.

Finally, I requested our staff members to intervene immediately to stop a bullying incident. They will immediately contact building security and or law enforcement if the incident involves a weapon or other illegal activity.

Below are some of the signs that a young person is being bullied:

- Does not want to go to school and refuses to explain the reason
- Talks about not having any friends
- Has unexplained bruises, cuts, scratches, or abrasions
- Has unexplained damage to clothing, possessions, books, etc.
- Frequently loses money or possessions
- Loses interest in school and/or has declining grades
- Becomes withdrawn and/or has stress or depression symptoms

These signs do not necessarily mean your child is being bullied, but if present, ask your child whether he or she is being bullied.

Please let me know if you have any questions or concerns.

Sincerely,

Building Principal

Notice to Parents/Guardians Regarding Section 504 Rights

Dear Parent/Guardian:

Re: Section 504 Rights

The Rehabilitation Act of 1973, commonly referred to as *Section 504*, is a nondiscrimination statute enacted by the U.S. Congress. The Act's purpose is to: (1) protect the rights of individuals with disabilities in programs and activities that receive federal financial assistance from the U.S. Dept. of Education (ED), and (2) assure that disabled students have educational opportunities and benefits equal to those provided to non-disabled students.

An eligible student under Section 504 is a student who: has a record of having, or is regarded as having, a *physical or mental impairment* which substantially limits a *major life activity* as defined by 34 C.F.R. §104.3.

This notice describes the rights assured by Section 504 to those disabled students who do not qualify under IDEA. The intent of this notice is to keep you fully informed concerning decisions about your student and to inform you of your rights if you disagree with any decisions in reference to Section 504.

Please keep this explanation for future reference.

Parents/Guardians and/or students have the right to:

1. Be informed by the School District of your rights and procedural safeguards under Section 504 in an understandable language. 34 C.F.R. Parts 104 and 300. The purpose of this notice is to advise parents/guardians and/or students of these rights. 23 Ill.Admin.Code §§226.500, 510 and 610.
2. An appropriate education designed to meet a student's individual educational needs as adequately as the needs of non-disabled students are met. 34 C.F.R. §104.33.
3. Free educational services except for those fees that are imposed on non-disabled students or their parents/guardians. Insurers and similar third parties are not relieved from an otherwise valid obligation to provide or pay for services provided to a disabled student. 34 C.F.R. §§104.33 and 300.14; 23 Ill. Admin Code §22.240.
4. A placement in the least restrictive environment. 34 C.F.R. §104.34.
5. Facilities, services, and activities that are comparable to those provided for non-disabled students. 34 C.F.R. §104.34.
6. An evaluation prior to an initial Section 504 placement and any subsequent significant change in placement. 34 C.F.R. §104.34.
7. Testing and other evaluation procedures conforming to the requirements of 34 C.F.R. §104.35 as to validation, administration, areas of evaluation, etc. The District shall consider information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical conditions, social and cultural background, adaptive behavior, physical or medical reports, student grades, progress reports, parent/guardian observations, anecdotal reports and standardized test scores. 34 C.F.R. §104.35; 23 Ill. Admin. Code §226.110.
8. Placement decisions made by a group of persons, i.e., a Section 504 committee, including the parent(s)/guardian(s) persons knowledgeable about the student, the meaning of the evaluation data, the placement options and the legal requirements for the least restrictive environment and comparable

facilities. 34 C.F.R. §§ 104.34 and 104.35.

9. Periodic reevaluations. 34 C.F.R. §104.35.
10. A notice prior to any action by the District in regard to the identification, evaluation, or placement of the student. 34 C.F.R. §104.36.
11. Examine relevant records. 34 C.F.R. §104.36.
12. An impartial due process hearing regarding the student's identification, evaluation or educational placement including an opportunity for parental participation in the hearing and representation by an attorney. 34 C.F.R. §104.36.

You must file a written *Parental Request for an Impartial Due Process Hearing* with the District Section 504 compliance coordinator or designee, if you disagree with the decision of the Section 504 committee. The request must be submitted to the District Section 504 compliance coordinator within 10 calendar days from the time you received the written notice of the District's Section 504 committee decision. The *Parental Request for an Impartial Due Process Hearing Officer*, is designed to assist parents in requesting an impartial due process hearing and is available online at:

12. Verified reports or information from non-educational persons, agencies, or organizations of clear relevance to the student's education.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois School Student Records Act afford parents/guardians and students 18 years of age and older (“eligible students”) certain rights with respect to the student’s school records. They are:

1. The right to inspect and copy the student’s education records upon request.

Requests will be granted within 15 school days (but no later than 45 calendar days) after the District receives the request. The degree of access a student has to his or her records depends on the student’s age. Students younger than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have rights to access and copy both permanent and temporary records. Parents/guardians or students should submit to the Building Principal (or appropriate school official) a written request that identifies the records they wish to inspect. The Principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. The District charges \$0.35 per page for copying but no one will be denied their right to copies of their records due to inability to pay this cost.

These rights are not available to any person against whom an order of protection has been entered concerning a student, in accordance with 105 ILCS 5/10-22.3c and 10/5a, and 750 ILCS 60/214(b)(15).

2. The right to request the amendment of the student’s education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper.

Parents/guardians or eligible students may ask the District to amend a record that they believe is inaccurate, irrelevant, or improper. They should write the Building Principal, clearly identify the record they want changed, and specify the reason.

When a challenge is made at the time the student’s records are being forwarded to another school to which the student is transferring, there is no right to challenge: (1) academic grades, or (2) references to expulsions or out-of-school suspensions.

If the District decides not to amend the record as requested by the parent/guardian or eligible student, the District will notify the parent/guardian or eligible student of the decision and advise him or her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA or the Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is:

- a person employed by the District as an administrator, supervisor, teacher, instructor, or support staff member (including health or medical staff and law enforcement unit personnel);
- a person serving on the School Board;
- a contractor or volunteer to whom the District has outsourced institutional services or functions that would otherwise be performed by school district employees, including a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, nurse, medical consultant, or therapist); or
- any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

Individual board members do not have a right to see student records merely by virtue of their office unless they have a current demonstrable educational or administrative interest in the student and seeing his or her records

would be in furtherance of the interest.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

When a challenge is made at the time the student's records are being forwarded to another school to which the student is transferring, there is no right to challenge: (1) academic grades, or (2) references to expulsions or out-of-school suspensions.

Disclosure is also permitted without consent:

- To an employee or official of the State Board with current demonstrable educational or administrative interest in the student, in furtherance of such interest.
- To any person for the purpose of research, statistical reporting, or planning, provided that no student or parent/guardian can be identified.
- Pursuant to a court order.
- To juvenile authorities, when necessary for the discharge of their official duties, who request information prior to adjudication of the student and who certify in writing that the information will not be disclosed to any other party except as provided under law or order of court.
- Subject to regulations of the State Board, in connection with an emergency, to appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons.
- To a governmental agency, or social service agency contracted by a governmental agency, in furtherance of an investigation of a student's school attendance pursuant to the compulsory student attendance laws.
- To SHOCAP committee members who fall within the meaning of "state and local officials and authorities."
- To the Department of Healthcare and Family Services in furtherance of the requirements of Section 2-3.131, 3-14.29, 10-28, or 34-18.26 of the School Code or Section 10 of the School Breakfast and Lunch Program Act.
- To the State Board or another State government agency or between or among State government agencies in order to evaluate or audit federal and State programs or perform research and planning, consistent with FERPA.

In addition, disclosure is permitted to any person with the prior specific dated written consent of the parent designating the person to whom the records may be released. At the time any such consent is requested or obtained, the parent has the right to inspect and copy such records, to challenge their contents in accordance with Section 7 of the Illinois School Student Records Act, and to limit any such consent to designated records or designated portions of the information contained therein.

4. The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or

permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

5. The right to prohibit the release of directory information concerning the parent's/guardian's child.

Throughout the school year, the District may release directory information regarding students, limited to:

- Name;
- Address;
- Gender;
- Grade level;
- Birth date and place;
- Parent(s)/guardian(s)' names, addresses, electronic mail addresses, and telephone numbers;

- Academic awards, degrees, and honors;
- Information in relation to school-sponsored activities, organizations, and athletics;
- Major field of study;
- Period of attendance in school.

Any parent/guardian or eligible student may prohibit the release of any or all of the above directory information by delivering a written objection to the Building Principal within 30 days of the date of this notice. No directory information will be released within this time period, unless the parent/guardian or eligible student is specifically informed otherwise.

No photograph highlighting individual faces is allowed for commercial purposes, including solicitation, advertising, promotion or fundraising without the prior, specific, dated and written consent of the parent or student, as applicable; and no image on a school security video recording shall be designated as directory information.

- 6. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under the Illinois School Student Records Act.**
