

15 for Our Future

**Attention Community Members:
We need 15 minutes of your time!**

ROYALS Alternative Education has a program that is designed to enhance student readiness for post-secondary life through the investment of 15 minutes of time from community members like you.

ROYALS serves junior high and high school students who are at risk: dropouts, chronic truants, pregnant teen/teen parents, suspended/expelled, and students who are disaffected by school.

ROYALS has been serving students in our community for over 25 years. Over the last three years we have had 133 high school graduates! Now **ROYALS** needs your help in assisting students in finding a career path.

Could you spend 15 minutes with us describing your career path? We want to hear about the perfect transitions from school to career, but we need to hear about the indirect paths that are so often taken!

Career awareness is a vital piece to finding post-secondary success.

We are asking you, and others you know, to come visit with us at our **ROYALS Macomb**, **ROYALS Canton** or **ROYALS Carthage** sites.

During your 15 minutes with us, describe your:

- Career
- Training or schooling---Is it the same path today as it was when you started?
- Career path—How did you get where you are? Did you intend to do what you are now doing? Would you change anything?
- Earnings potential
- Advice for students going into this career
- General career advice

Please contact Principal Lori Bilbrey at (309) 575-3241 or lbilbrey@roe26.net to schedule your opportunity to give "15 for our Future."
