## Goal of Program Shared on Friday Morning

*Our Students, Our Legacy* consisted of a presentation by 14 current and former Shrewsbury students. During each brief presentation, students or alumni shared their perspectives regarding ways in which their education in the Shrewsbury Public Schools influenced them, while providing insight into how our schools could strengthen student experiences. Their messages were processed by faculty during the meetings that followed.

# Positive feedback

- “Inspirational! Recognizing the learning styles of all is critical to our work as educators.”
- “I just wanted to say that was an amazing opening today! I loved hearing from the graduates and current students. The ... story was especially poignant since I had her in 4th grade.”
- “Thank you for inviting me to the event last Friday at Shrewsbury High School! It was great catching up with some familiar faces and connecting with a few new ones. I wish you a successful upcoming year and offer myself and team as a resource if you or anyone else you know needs assistance planning/achieving different financial goals.”
