Guys, great practice today. I liked the work ethic each of you put in. Let's keep coming to practice ready to work and to push each other to the max. Remember, each day is a chance to get better. Let's keep on grinding and working hard. See you guys all this Thursday (4/11). I leave you with the words of Julian Edelman: "I only know one way to achieve success, you have to earn it."

Great words Chris! Hope everyone is ready for our next practice, rest up, and stay motivated that you can always take something out of each practice and meet every day!
