

Dates	Time	Grade in September	Class Name	Class Description	Teachers
June 29-July 2	8:30-11:30	5, 6, 7, 8	American Red Cross Babysitting/Family helper	Learn the skills to safely and responsibly care for young children and infants. Class content includes leadership skills, how to play with children, starting a baby-sitting business, and basic First Aid. Please note that there is an additional \$17.95 cost included in this registration price for the Red Cross handbook. Only students in grades 6,7,8 are eligible to receive the Red Cross Certification.	Deborah Troio
June 29-July 2	8:30-11:30	1, 2, 3	An Author a Day	Get ready to celebrate four beloved authors in one fun-filled class! We'll dive into stories by Eric Carle, Mo Willems, Dr. Seuss, and Maurice Sendak, bringing their unforgettable characters to life. From The Very Hungry Caterpillar and The Very Busy Spider to Elephant & Piggie, The Pigeon, The Cat in the Hat, and Where the Wild Things Are, there's something for everyone to enjoy. Each session includes crafts, games, and hands-on activities inspired by the stories we love. Join us for a week of reading, creativity, and literary fun!	Keri Giles
June 29-July 2	8:30-11:30	2, 3	Art Meets Math	In this engaging and creative class, students will discover how math and art beautifully connect. Using concepts like geometric shapes, symmetry, and repeating patterns, students will create unique works of art while learning how math helps artists plan, design, and bring their ideas to life. It's the perfect blend of creativity and critical thinking!	Cynthia Belanger
June 29-July 2	8:30-11:30	2, 3, 4, 5	Backyard and Park Games	Get ready to move, play, and have a blast! In this high-energy class, we'll teach you classic backyard and park games you can enjoy both indoors and outdoors with friends and family. Participants will play exciting team sports like soccer, volleyball, wiffleball, basketball, badminton, and pickleball, along with favorite yard games such as ladderball, bocce, spikeball, washers, and croquet. Lace up your sneakers and join us for active fun, friendly competition, and games you can take home and play anytime!	Amy Smith and Ally Boone
June 29-July 2	8:30-11:30	1, 2, 3	Beyblade STEM Arena: Let It Rip!	Build like an engineer, battle like a champion! In this action-packed class, students will design and customize their Beyblades, test different builds, and experiment with real scientific concepts like force, motion, balance, and momentum. Students will refine their strategies before competing in an exciting final tournament to see whose design comes out on top. It's the perfect blend of physics, problem-solving, and high-energy fun!	David Munoz Juarez
June 29-July 2	8:30-11:30	3, 4, 5	Biology and the World Around Us	Come learn the basics of biology and see how living organisms interact with our world! Students will get a close up look at different animals and plants and learn how they all work. Students will learn about the impact that plants and animals have on our lives and what we can do to help our environment prosper. Each day includes a nature walk to allow students to get hands on experience with their local ecosystem. This class provides a new opportunity to examine different natural objects such as bird feathers, turtle shells, wasp nests, bee hives, and more!	Evan Flick
June 29-July 2	8:30-11:30	1, 2	Bubble Science	Come join us as we make and explore bubbles of all sizes. We will compare different bubble solutions to see how many bubbles they make and even make touchable bubbles. We will wrap up with making bubble slime and see who can blow the biggest bubble!	Allison O'Neill
June 29-July 2	8:30-11:30	5, 6, 7, 8	Clay Beads and Jewelry making	Join us for a fun and creative summer jewelry-making class! Students will work hands-on with a variety of materials including colorful beads, thread, and clay to design personalized, unique bracelets, rings, necklaces, and more. Basic techniques will be taught step by step, making this class perfect for beginners and experienced makers. Come explore your creativity and create one-of-a-kind wearable art to take home.	Bingjie Ding
June 29-July 2	8:30-11:30	2, 3, 4, 5	Clay Creations	Unleash your imagination in Clay! In this hands-on class, kids will plan, sculpt, and bring their own unique clay creations to life. From whimsical figures and mini sculptures, to custom jewelry and pocket charms, every project is an opportunity for creativity to shine. By the end of the class, they'll have their very own handmade creations to be proud of, and memories of a truly creative experience!	courtney poske & TJ Bell
June 29-July 2	8:30-11:30	2, 3, 4	Craft Your Style	Create, decorate, and shine! In this class, students will design and decorate fun items for every day use such as pens, keychains, notebook cases, bracelets, headbands and more! This hands-on class builds creativity, confidence, and fine motor skills through fun, imaginative projects that kids are happy to take home.	Sueli Machado Gibbs
June 29-July 2	8:30-11:30	1, 2, 3, 4	Crafty Critters	Crafty Critters is an imaginative art class for animal-loving children. Students will create animals using a variety of materials while learning about habitats, textures, and shapes. Each day introduces a new medium, allowing children to explore creativity while strengthening fine motor skills. This class celebrates imagination, individuality, and joyful art-making in a low-pressure environment.	Karen Jose
June 29-July 2	8:30-11:30	1, 2, 3	Creation Station	Get ready to explore, build, and create! In this 4-day program for grades 1-3, kids will dive into a world of beads, clay, recycled materials, and imaginative projects. Through hands-on activities, sensory exploration, and collaborative challenges, participants will design jewelry, sculptures, murals, and more—all while developing creativity, problem-solving skills, and teamwork. Each day is packed with fun, discovery, and a chance to showcase their cool creations!	LeAnn Condon

Dates	Time	Grade in September	Class Name	Class Description	Teachers
June 29-July 2	8:30-11:30	2, 3, 4	Draw and Discover: Diary of a Doodle	Step into a world of imagination where every doodle tells a story! Students will explore fun drawing techniques, create playful characters, and experiment with patterns, colors, and textures. Each page of their "doodle diary" becomes a new adventure—full of creativity, surprises, and personal expression. From whimsical designs to mini doodle stories, students will discover new ways to make art, build confidence, and have a blast while bringing their ideas to life!	Michelle Anderson
June 29-July 2	8:30-11:30	1, 2, 3, 4	For the Love of Cats	Pspsspsps! Do you love cats? Are you curious about the history of cats and how they became one of the most popular animals in the world? In this class, we will explore the fascinating world history of our feline friends and their influence they've contributed to countries such as China, Norway, Japan (did you know they have an island devoted to cats only!!), France and early colonial America. We'll look at all the different cat breeds around the world from the largest to the smallest and rarest of them. We'll look into cats in the media and visit the world of feline celebrities such as Hello Kitty, Morris the cat, Garfield and more and learn how to draw a cat and create it's story. We'll examine the mind of a cat to try to understand why they do what they do and even pretend to be a cat doing fun cat-tivities, and play some purrfectly cat-tastic games (can you catch the elusive red dot?). Come and join the fun and adventures of the wonderful world of cats. Oh, and bring your own box. And parents, this will be a catnip free zone.	Donna Crowley
June 29-July 2	8:30-11:30	2, 3, 4	Games without Screens	Step back into "old-school" fun—no screens required! In this interactive class, students will engage their brains, collaborate with teammates, and challenge themselves in classic games that spark strategy, luck, and friendly competition. We'll play timeless favorites like Bingo, Checkers, Sorry, Jenga, Trouble, and more. This is a chance to connect, think, and play together while having a blast. Bring your brainpower, enthusiasm, and get ready to make some new memories—old-school style!	Annamarie Brackett
June 29-July 2	8:30-11:30	5, 6, 7, 8	Girls Play Sports	Looking for a fun, positive, and safe environment to explore sports? Join us for a week where each day focuses on a different sport! Students will learn basketball, soccer, volleyball, field hockey, softball, and more. We'll cover the rules, practice drills, play games, and even discover the history and key figures behind each sport. This class is perfect for all athletes—beginners and experienced players alike. Get ready to move, learn, and have a blast on and off the field!	Lauren Silbor
June 29-July 2	8:30-11:30	2, 3, 4	Introduction to Robotics and Coding	This course introduces students to robotics and coding in a fun, hands-on way. Using kid-friendly apps on their iPads, students will learn to code through easy drag-and-drop screens. They will use these apps to program two small robots, Dash and Dot. Students will work in pairs and share one robot. Please make sure your child brings their iPad to class fully charged each day.	Polyxane Mertzanis & Rhoda Decatur
June 29-July 2	8:30-11:30	3, 4, 5	iPad Explorers	Get ready to tap, code, create, and explore! In iPad Explorers, students become digital creators while having a blast with iPads, robots, stories, photos, and videos. They'll dive into beginner coding with Blockly, program Dash robots, design and write their own digital books, capture amazing photos and videos, and create mini movies and creative projects. Each day balances screen-based learning with off-screen activities like group challenges, unplugged coding games, planning, and drawing. No prior tech or coding experience is needed—just curiosity and creativity! Students will build teamwork, problem-solving, logic, and planning skills while having tons of fun. Please bring your fully charged Shrewsbury Public Schools iPad, or one will be provided if you're not enrolled in SPS.	Mary Pritchard & Sheryl Lesslie
June 29-July 2	8:30-11:30	1, 2, 3, 4	Junior Explorer	In this fun and hands-on class, young explorers will discover the amazing plants, animals, and natural wonders right in our own neighborhood! Students will use their senses to observe leaves, insects, rocks, and weather while learning how nature works all around us. Through nature walks, games, simple experiments, stories, and creative projects, children will learn to ask questions, make observations, and care for the environment. This class encourages curiosity, respect for living things, and a love for the outdoors.	Maria Rydelek and Jessica Goldsmith
June 29-July 2	8:30-11:30	5, 6, 7, 8	Junior Vet Explorers	Have you ever wanted to learn more about pets and the field of veterinary medicine? Students will have the opportunity to learn about pet anatomy, nutrition, and different veterinary career opportunities. Activities include creating daily pet care checklists, analyzing fictional pet health scenarios, and making pet treats. We may even get a visit from Mr. Cabral's own dog! This program is perfect for animal lovers and those who love to present what they have learned.	Noah Cabral
June 29-July 2	8:30-11:30	1, 2, 3, 4, 5, 6	Legos Club	Design. Construct. Create. Let your imagination soar. Children will be able to build freely with our large collection of Legos, or build with one of the Lego kits that we have in our collection. There will be daily challenges, Lego trivia, and Lego themed games to play. Come make new friends or catch up with old friends! On the last day there will be a Lego movie and a popcorn snack.	Molly Butler and Diane Betti

Dates	Time	Grade in September	Class Name	Class Description	Teachers
June 29-July 2	8:30-11:30	1, 2, 3, 4	Lyrical Landscapes	Discover the beautiful connection between poetry, music, and visual art in this creative, cross-disciplinary class! Each day, students will explore a different classical composer and poet, then use their inspiration to create original artwork that brings the two together. While we'll draw from the richness of classical music and poetry, we'll also explore how these art forms continue to influence today's artists. Through listening, reading, discussion, and hands-on painting, students will create meaningful works of "heart". Join us for a week of creativity, expression, and artistic discovery!	Sarah Perreault
June 29-July 2	8:30-11:30	1, 2, 3	Ocean Explorers	Dive into an ocean adventure! In this engaging camp, students will explore fascinating ocean animals, underwater habitats, and the importance of conservation through games, art projects, and storytelling. Campers will learn basic facts about the ocean, discover amazing sea creatures, and understand how we can help protect marine life. Designed to spark curiosity and inspire care for our planet, this camp makes learning about the ocean both fun and meaningful!	Melissa Bentley
June 29-July 2	8:30-11:30	2, 3, 4, 5	Paper mache magic	Unleash your creativity and let your imagination shine! Create your own 3D animal sculptures, funny faces, or even masks using paper, glue, and balloons. We'll cover everything from making the paste to painting your final masterpiece in this fun, hands-on art adventure!	Christine Morris / Charlene Campbell
June 29-July 2	8:30-11:30	1, 2, 3	Pop Star Camp	Who wants to be a pop star like Taylor Swift or Olivia Rodrigo? Join us for a week of music, movement, and creative fun as we dive into the world of pop stardom! Campers will sing along with karaoke, choreograph dances to popular hits, and play fun pop star games like "Guess That Song" and "Finish the Lyrics." We'll explore the lives of famous pop stars, create themed crafts, and learn how these artists have made a positive impact on the world. The week will culminate in a final in-class performance where students showcase all their pop star skills—singing, dancing, and shining on stage!	Stephanie Fox
June 29-July 2	8:30-11:30	1, 2, 3	Princess For A Week	Immerse yourself in the life of your favorite Disney princess. This enchanting camp invites students to design dazzling ball gowns, build their own kingdoms, embark on an enchanted scavenger hunt, and craft whimsical dreamcatchers. Through creativity, imagination, and playful activities, campers will celebrate the qualities that make every princess unique—strength, independence, and beauty. By the end of the week, each student will leave feeling empowered, inspired, and ready to shine like royalty!	Emma Keeley
June 29-July 2	8:30-11:30	1, 2, 3	Read It. Make It. Eat It.	At Read It. Make It. Eat It., campers enjoy stories, get creative in the kitchen, and have fun making sweet treats inspired by Jory John's Food Group books. Each day, children will listen to a read-aloud, decorate a treat, enjoy a themed snack, and prepare a simple take-home dessert to finish with their family. See Example Below: Read it: Campers listen to The Bad Seed and talk about how everyone can make good choices. Make It: Children decorate watermelon-themed cupcakes using colorful frosting and chocolate chip "seeds." Eat It: Campers create a fun watermelon snack and enjoy it together. Take-Home Dessert: Each child assembles a cookie mix in a jar to take home and bake with their family. Big Idea: Even a bad day can turn sweet!	Ritamarie (Rita) Therrien-Respass & Liz Mitchell
June 29-July 2	8:30-11:30	1, 2	School of rocks	School of rocks invites learners to explore the exciting world beneath our feet through hands-on observation and discovery! Students will examine, compare, and classify crystals, gems, minerals, and more using real specimens and simple scientific tools. Through interactive activities and guided investigations, learners will build observational skills and learn how geologists study the Earth's materials—all while having fun digging into science!	Tracy Breslin
June 29-July 2	8:30-11:30	3, 4, 5, 6, 7, 8	Smart Sparks Coding Camp	Smart Sparks Coding Camp is a fun and engaging introduction to programming where students learn to think logically, solve problems, and create interactive projects through code. Campers build simple games, animations, and stories while learning foundational concepts like sequencing, loops, and conditional thinking. Designed for beginners, this hands-on camp builds confidence, creativity, and critical-thinking skills in a supportive and age-appropriate environment—no prior coding experience needed.	Kavita Bhatia
June 29-July 2	8:30-11:30	2, 3, 4	Spectacular Sports: Soccer, Basketball & Volleyball	In this session, students will explore popular team sports like soccer, basketball, and volleyball. Each sport will be introduced through fundamental skills, followed by exciting gameplay. This class is perfect for kids of all abilities to collaborate, enhance key athletic skills such as agility, coordination, balance, strength, and endurance, and most importantly, have a blast while staying active! Spectacular Sports fosters a safe and inclusive environment where children can build confidence, form friendships, and enjoy themselves. Additionally, it helps lay the foundation for lifelong fitness by encouraging a positive relationship with exercise and outdoor play.	Courtney Delaney, Kelly Delaney
June 29-July 2	8:30-11:30	2, 3, 4	Survivor Camp	Get ready for a week of adventure, teamwork, and friendly competition in our Survivor-Style Challenge Camp! Students will be divided into two teams and compete in daily challenges and fun competitions to earn points for their team. Each activity encourages problem-solving, cooperation, and sportsmanship, culminating in a celebration at the end of the week to recognize teamwork, creativity, and determination. Join us for a fun-filled week of strategy, excitement, and camaraderie!	Kara Pacheco

Dates	Time	Grade in September	Class Name	Class Description	Teachers
June 29-July 2	8:30-11:30	1, 2, 3, 4	Time for baking	Turn summer "boredom" into a hands-on learning adventure with our Summer Baking Class! In this engaging program, kids will explore the perfect blend of science, art, and life skills—all while having fun in a professional kitchen setting. Younger students will focus on simple recipe steps, while older kids will tackle more advanced techniques. Through baking, campers will build literacy skills by reading and following recipes, develop hand-eye coordination and patience through tasks like cracking eggs, kneading dough, and piping frosting, and strengthen cognitive discipline by following step-by-step instructions. This class is a delicious way to learn, create, and enjoy the magic of baking!	Nuha Habib
June 29-July 2	8:30-11:30	3, 4, 5, 6, 7, 8	Video Games Come to Life	Imagine this: you're playing your favorite video game when suddenly the screen cracks—and you're pulled inside the game! Now, you have to play it in real life to make it back to the real world. In this exciting class, students will bring video games to life by exploring the skills behind technology, designing and playing real-world versions of games, and enjoying active sports challenges. We're offering part 2 of the class in July, with totally different games and challenges. Students can join this session alone or sign up for both for double the fun!	Zachary Duval, Zach Baldino
June 29-July 2	12:00-3:00	4, 5, 6, 7, 8	Adventures in Role Playing Games	Do you have a love of stories, adventure, and creating your own heroes? Then the Summer Enrichment Role-Playing Group is the activity for you. Each day your game masters will present a fantastic adventure that only your hero can solve using both your character skills, your own thinking skills, and a little bit of luck. Participants will learn the basics of how to play a role-playing game as well as important social skills for interacting with others such as taking turns, compromising, and dealing with setbacks. All players will receive character sheets and dice to use during the game. Players MUST bring their own imaginations.	Robert Parry-Cruwys, Matthew Carter
June 29-July 2	12:00-3:00	5, 6, 7, 8	American Red Cross Babysitting/Family helper	Learn the skills to safely and responsibly care for young children and infants. Class content includes leadership skills, how to play with children, starting a baby-sitting business, and basic First Aid. Please note that there is an additional \$17.95 cost included in this registration price for the Red Cross handbook. Only students in grades 6,7,8 are eligible to receive the Red Cross Certification.	Deborah Troio
June 29-July 2	12:00-3:00	4, 5, 6	Art Meets Math	In this engaging and creative class, students will discover how math and art beautifully connect. Using concepts like geometric shapes, symmetry, and repeating patterns, students will create unique works of art while learning how math helps artists plan, design, and bring their ideas to life. It's the perfect blend of creativity and critical thinking!	Cynthia Belanger
June 29-July 2	12:00-3:00	3, 4, 5	Astronomy and Beyond!	Travel beyond our planet and explore the wonders of space! In this exciting class, students will learn about interstellar objects and the incredible discoveries humans have made while studying the stars. We'll discover the scientists and spacecraft that have helped us journey beyond Earth and uncover the mysteries of the universe. Students will create models of rockets and solar systems, investigate what truly makes up a planet, and explore what happens when a star reaches the end of its life. Curious minds and future astronomers are all welcome for this out-of-this-world adventure!	Evan Flick
June 29-July 2	12:00-3:00	2, 3, 4, 5	Backyard and Park Games	Get ready to move, play, and have a blast! In this high-energy class, we'll teach you classic backyard and park games you can enjoy both indoors and outdoors with friends and family. Participants will play exciting team sports like soccer, volleyball, wiffleball, basketball, badminton, and pickleball, along with favorite yard games such as ladderball, bocce, spikeball, washers, and croquet. Lace up your sneakers and join us for active fun, friendly competition, and games you can take home and play anytime!	Amy Smith and Ally Boone
June 29-July 2	12:00-3:00	4, 5, 6	Beyblade STEM Arena: Let It Rip!	Build like an engineer, battle like a champion! In this action-packed class, students will design and customize their Beyblades, test different builds, and experiment with real scientific concepts like force, motion, balance, and momentum. Students will refine their strategies before competing in an exciting final tournament to see whose design comes out on top. It's the perfect blend of physics, problem-solving, and high-energy fun!	David Munoz Juarez
June 29-July 2	12:00-3:00	1, 2	Bubble Science	Come join us as we make and explore bubbles of all sizes. We will compare different bubble solutions to see how many bubbles they make and even make touchable bubbles. We will wrap up with making bubble slime and see who can blow the biggest bubble!	Allison O'Neill
June 29-July 2	12:00-3:00	5, 6, 7, 8	Clay Beads and Jewelry making	Join us for a fun and creative summer jewelry-making class! Students will work hands-on with a variety of materials including colorful beads, thread, and clay to design personalized, unique bracelets, rings, necklaces, and more. Basic techniques will be taught step by step, making this class perfect for beginners and experienced makers. Come explore your creativity and create one-of-a-kind wearable art to take home.	Bingjie Ding
June 29-July 2	12:00-3:00	2, 3, 4, 5	Claymation for Beginners	In this hands-on introduction to animation, students dive into the exciting world of claymation! They will plan their own mini movies, design and create unique clay characters, and use simple filming techniques to bring their stories to life. Along the way, students build patience, teamwork, creativity, and storytelling skills while watching their ideas transform into animated films.	Courtney Poske & Tj Bell

Dates	Time	Grade in September	Class Name	Class Description	Teachers
June 29-July 2	12:00-3:00	4, 5, 6	Craft Your Style	Create, decorate, and shine! In this class, students will design and decorate fun items for every day use such as pens, keychains, notebook cases, bracelets, headbands and more! This hands-on class builds creativity, confidence, and fine motor skills through fun, imaginative projects that kids are happy to take home.	Sueli Machado Gibbs
June 29-July 2	12:00-3:00	1, 2, 3, 4	Crafty Critters	Crafty Critters is an imaginative art class for animal-loving children. Students will create animals using a variety of materials while learning about habitats, textures, and shapes. Each day introduces a new medium, allowing children to explore creativity while strengthening fine motor skills. This class celebrates imagination, individuality, and joyful art-making in a low-pressure environment.	Karen Jose
June 29-July 2	12:00-3:00	1, 2, 3	Creation Station	Get ready to explore, build, and create! In this 4-day program for grades 1-3, kids will dive into a world of beads, clay, recycled materials, and imaginative projects. Through hands-on activities, sensory exploration, and collaborative challenges, participants will design jewelry, sculptures, murals, and more—all while developing creativity, problem-solving skills, and teamwork. Each day is packed with fun, discovery, and a chance to showcase their cool creations!	LeAnn Condon
June 29-July 2	12:00-3:00	3, 4, 5	Detective Academy	Step into the role of a detective and become a master problem solver! In this exciting class, students will investigate a brand-new mystery each day using evidence, clues, trails, and coded riddles. With official badges and real detective tools like magnifying glasses, invisible ink, and "classified" files, participants will work together to crack the case. Get ready to sharpen your observation skills, think critically, and solve the mystery!	Emma Keeley
June 29-July 2	12:00-3:00	2, 3, 4	Draw and Discover: The Sketchbook Chronicles	Step into a world of imagination and creativity with The Sketchbook Chronicles! Students will explore drawing techniques, storytelling, and creative expression as they fill their own sketchbooks with characters, scenes, and whimsical designs. Each day introduces a new theme or technique—turning ideas into illustrations, doodle stories, and imaginative creations. From playful characters to epic mini-scenes, students will discover new ways to express themselves, build confidence, and have a blast while creating a one-of-a-kind sketchbook to take home!	Michelle Anderson
June 29-July 2	12:00-3:00	3, 4, 5	For the Love of Cats	Pspspsp! Do you love cats? Are you curious about the history of cats and how they became one of the most popular animals in the world? In this class, we will explore the fascinating world history of our feline friends and their influence they've contributed to countries such as China, Norway, Japan (did you know they have an island devoted to cats only!), France and early colonial America. We'll look at all the different cat breeds around the world from the largest to the smallest and rarest of them. We'll look into cats in the media and visit the world of feline celebrities such as Hello Kitty, Morris the cat, Garfield and more and learn how to draw a cat and create its story. We'll examine the mind of a cat to try to understand why they do what they do and even pretend to be a cat doing fun cat-tivities, and play some purrfectly cat-tastic games (can you catch the elusive red dot?). Come and join the fun and adventures of the wonderful world of cats. Oh, and bring your own box. And parents, this will be a catnip free zone.	Donna Crowley
June 29-July 2	12:00-3:00	1, 2, 3	From Page to Plate	From Page to Plate invites students to turn stories into food! Each day, campers explore a book from Jory John's "Food Group" series and connect its message to real-life middle school experiences like confidence, teamwork, handling emotions, and personal growth. After reading and discussion, students jump into hands-on kitchen activities—decorating cupcakes, creating themed snacks, and assembling take-and-bake desserts to enjoy at home.	Ritamarie (Rita) Therrien-Respass & Liz Mitchell
June 29-July 2	12:00-3:00	2, 3, 4	Games without Screens	Step back into "old-school" fun—no screens required! In this interactive class, students will engage their brains, collaborate with teammates, and challenge themselves in classic games that spark strategy, luck, and friendly competition. We'll play timeless favorites like Bingo, Checkers, Sorry, Jenga, Trouble, and more. This is a chance to connect, think, and play together while having a blast. Bring your brainpower, enthusiasm, and get ready to make some new memories—old-school style!	Annamarie Brackett
June 29-July 2	12:00-3:00	2, 3, 4	Introduction to Robotics and Coding	This course introduces students to robotics and coding in a fun, hands-on way. Using kid-friendly apps on their iPads, students will learn to code through easy drag-and-drop screens. They will use these apps to program two small robots, Dash and Dot. Students will work in pairs and share one robot. Please make sure your child brings their iPad to class fully charged each day.	Polyxane Mertzanis & Rhoda Decatur
June 29-July 2	12:00-3:00	4, 5, 6	Jr. Toastmasters (beginner level))	The objective of Jr. Toastmasters is to help you build the confidence you need to give presentations and speak in public so that you can become a better leader and communicator. By participating in Jr. Toastmasters, you will be able to practice these skills with others and get the feedback you need to improve. (Beginner level)	Robert Koenig
June 29-July 2	12:00-3:00	1, 2, 3, 4, 5, 6	Lego Club	Design. Construct. Create. Let your imagination soar. Children will be able to build freely with our large collection of Legos, or build with one of the Lego kits that we have in our collection. There will be daily challenges, Lego trivia, and Lego themed games to play. Come make new friends or catch up with old friends! On the last day there will be a Lego movie and a popcorn snack.	Molly Butler and Diane Betti

Dates	Time	Grade in September	Class Name	Class Description	Teachers
June 29-July 2	12:00-3:00	1, 2, 3, 4	Mini Movers Yoga	In Mini Movers Yoga, children will discover fun and engaging ways to move their bodies, build strength, and practice calming techniques through yoga. Each session introduces age-appropriate poses, breathing exercises, and simple mindfulness strategies to help children learn how to relax, focus, and manage big feelings. We'll also reinforce mindfulness through creative arts and crafts activities that encourage self-expression and reflection. This class creates a positive, supportive environment where kids can grow in confidence while having fun. We can't wait to stretch, breathe, and move with you!	Lauren Silbor
June 29-July 2	12:00-3:00	1, 2, 3	Ocean explorers	Dive into an ocean adventure! In this engaging camp, students will explore fascinating ocean animals, underwater habitats, and the importance of conservation through games, art projects, and storytelling. Campers will learn basic facts about the ocean, discover amazing sea creatures, and understand how we can help protect marine life. Designed to spark curiosity and inspire care for our planet, this camp makes learning about the ocean both fun and meaningful!	Melissa Bentley
June 29-July 2	12:00-3:00	2, 3, 4, 5	Paper mache magic	Unleash your creativity and let your imagination shine! Create your own 3D animal sculptures, funny faces, or even masks using paper, glue, and balloons. We'll cover everything from making the paste to painting your final masterpiece in this fun, hands-on art adventure!	Christine Morris / Charlene Campbell
June 29-July 2	12:00-3:00	2, 3, 4	Planes, Trains and Automobiles	All aboard for an exciting hands-on adventure! In this class, discover how planes fly, trains travel and automobiles move. Use your imagination and a wide range of materials (paper, pencils, markers, blocks, toy vehicles, recycled items) to build, play and explore your own transportation world from land, air and sea.	Maria Rydelek and Jessica Goldsmith
June 29-July 2	12:00-3:00	1, 2, 3	Pop Star Camp	Who wants to be a pop star like Taylor Swift or Olivia Rodrigo? Join us for a week of music, movement, and creative fun as we dive into the world of pop stardom! Campers will sing along with karaoke, choreograph dances to popular hits, and play fun pop star games like "Guess That Song" and "Finish the Lyrics." We'll explore the lives of famous pop stars, create themed crafts, and learn how these artists have made a positive impact on the world. The week will culminate in a final in-class performance where students showcase all their pop star skills—singing, dancing, and shining on stage!	Stephanie Fox
June 29-July 2	12:00-3:00	1, 2	School of rocks	School of rocks invites learners to explore the exciting world beneath our feet through hands-on observation and discovery! Students will examine, compare, and classify crystals, gems, minerals, and more using real specimens and simple scientific tools. Through interactive activities and guided investigations, learners will build observational skills and learn how geologists study the Earth's materials—all while having fun digging into science!	Tracy Breslin
June 29-July 2	12:00-3:00	5, 6	Spectacular Sports - Basketball, Volleyball, Soccer	In this session, students will explore popular team sports like soccer, basketball, and volleyball. Each sport will be introduced through fundamental skills, followed by exciting gameplay. This class is perfect for kids of all abilities to collaborate, enhance key athletic skills such as agility, coordination, balance, strength, and endurance, and most importantly, have a blast while staying active! Spectacular Sports fosters a safe and inclusive environment where children can build confidence, form friendships, and enjoy themselves. Additionally, it helps lay the foundation for lifelong fitness by encouraging a positive relationship with exercise and outdoor play.	Courtney Delaney, Carly Williams
June 29-July 2	12:00-3:00	3, 4, 5, 6, 7, 8	Stem Spark Lab	STEM Spark Lab is a hands-on, discovery-based camp where students explore science, technology, engineering, and math through fun experiments and creative challenges. Campers design, build, test, and problem-solve using age-appropriate projects that encourage curiosity, teamwork, and critical thinking. With a focus on exploration and learning by doing, this camp sparks creativity and confidence while making STEM exciting and accessible for all students—no prior experience needed.	Kavita Bhatia
June 29-July 2	12:00-3:00	1, 2, 3	Survivor Camp	Get ready for a week of adventure, teamwork, and friendly competition in our Survivor-Style Challenge Camp! Students will be divided into two teams and compete in daily challenges and fun competitions to earn points for their team. Each activity encourages problem-solving, cooperation, and sportsmanship, culminating in a celebration at the end of the week to recognize teamwork, creativity, and determination. Join us for a fun-filled week of strategy, excitement, and camaraderie!	Kara Pacheco
June 29-July 2	12:00-3:00	5, 6, 7, 8	Time for baking	Turn summer "boredom" into a hands-on learning adventure with our Summer Baking Class! In this engaging program, kids will explore the perfect blend of science, art, and life skills—all while having fun in a professional kitchen setting. Younger students will focus on simple recipe steps, while older kids will tackle more advanced techniques. Through baking, campers will build literacy skills by reading and following recipes, develop hand-eye coordination and patience through tasks like cracking eggs, kneading dough, and piping frosting, and strengthen cognitive discipline by following step-by-step instructions. This class is a delicious way to learn, create, and enjoy the magic of baking!	Nuha Habib

Dates	Time	Grade in September	Class Name	Class Description	Teachers
June 29-July 2	12:00-3:00	3, 4, 5, 6, 7, 8	Video Games Come to Life Again!	BOOM! The video game shattered my screen, and once again, I'm inside a real-life version of the game! In Part Two of our Video Games class, students will tackle new games, fresh challenges, and exciting tasks. We'll dive deeper into creative game design, building our own experiences, and exploring real-world connections—from buildings and weather to growing food. This session is completely different from the June class, so students are welcome to join both for double the fun and adventure!	Zach Duval, Zach Baldino
July 6-9	8:30-11:30	2, 3, 4, 5	Play It Again Sports and Games	This class is perfect for young athletes who love to stay active and play a variety of sports and games! Students will practice skills, drills, and learn the rules for multiple sports while emphasizing sportsmanship, teamwork, and fair play. We'll play everything from soccer, basketball, and volleyball to field hockey, flag football, floor hockey, kickball, Ultimate Frisbee, wiffleball, Capture the Flag, and Gaga Ball. Join us for a week full of movement, fun, and friendly competition!	Amy Smith
July 6-9	8:30-11:30	2, 3, 4	Beginner Cartoon and Line Drawing Class	Have you ever struggled with drawing for school projects, games, or greeting cards? This summer class makes drawing fun and easy. Students will learn to use simple lines, shapes, and colors to draw everyday objects they see around them. No experience needed—just bring your creativity and enjoy drawing with confidence!	Bingjie Ding
July 6-9	8:30-11:30	4, 5, 6, 7, 8	Walking on Sunshine	Get ready to move, smile, and feel great! In this class, students will walk, jog, and run their way to stronger bodies and happier minds. Through fun, structured activities, kids will build healthy habits, learn how to take care of themselves, and enjoy being active with friends. We'll celebrate effort, personal goals, and trying your best—no racing required! The focus is on having fun, staying safe, and discovering the joy of moving your body.	Carly Williams and Jen Bolt
July 6-9	8:30-11:30	4, 5, 6, 7, 8	Crochet Accessories	Learn the art of crochet and create your own stylish accessories! In this hands-on class, students will master basic stitches and techniques while making fun, wearable pieces like headbands, bracelets, flower barrettes, and more. Perfect for beginners and budding makers alike, this class builds creativity, patience, and confidence—one stitch at a time!	Chris Besaw
July 6-9	8:30-11:30	1, 2, 3, 4	K-Pop Demon Hunters	K-Pop Summer Camp is a high-energy experience for kids who love singing, dancing, art, and storytelling. Campers will train like K-Pop idols while exploring the colorful world of K-Pop through group singing, character creation, themed art projects, and creative activities. Each day blends music, movement, and hands-on fun in an age-appropriate environment, helping campers build confidence, creativity, teamwork, and new friendships.	Christine Morris / Charlene Campbell
July 6-9	8:30-11:30	2, 3, 4	Spectacular Sports - Basketball, Volleyball, Soccer	In this session, students will explore popular team sports like soccer, basketball, and volleyball. Each sport will be introduced through fundamental skills, followed by exciting gameplay. This class is perfect for kids of all abilities to collaborate, enhance key athletic skills such as agility, coordination, balance, strength, and endurance, and most importantly, have a blast while staying active! Spectacular Sports fosters a safe and inclusive environment where children can build confidence, form friendships, and enjoy themselves. Additionally, it helps lay the foundation for lifelong fitness by encouraging a positive relationship with exercise and outdoor play.	Courtney Delaney, Kelly Delaney
July 6-9	8:30-11:30	2, 3, 4, 5	Claymation for Beginners	In this hands-on introduction to animation, students dive into the exciting world of claymation! They will plan their own mini movies, design and create unique clay characters, and use simple filming techniques to bring their stories to life. Along the way, students build patience, teamwork, creativity, and storytelling skills while watching their ideas transform into animated films.	Courtney Poske & TJ Bell
July 6-9	8:30-11:30	1, 2, 3	Tool School	What does a hammer do? When do you use a screwdriver? In this hands-on class, students will explore different tools, learn what they're called, and discover how they help us build and create. We will use kid-safe tools to make simple projects while learning teamwork and safety.	Cynthia Belanger
July 6-9	8:30-11:30	1, 2, 3	Roblox Comes to Life	Join us for a hands-on experience without screens! Through collaborative world-building inspired by games like Roblox and Minecraft, students learn creative planning, design thinking, teamwork, problem solving, and iteration. Each group develops a playable experience that then all students can enjoy! (please note, no video games will be played in this class)	David Munoz Juarez
July 6-9	8:30-11:30	1, 2, 3	Artist Within	Do you love art but not sure which medium fits you best? This exploratory class is the perfect place to discover your artistic style! Students will experiment with a variety of materials, including: pencil, charcoal and pastels; watercolor, tempera, acrylic, and natural paints; clay and mixed-media crafting. Whether you enjoy sketching, painting, sculpting, or building with unique materials, you'll have the chance to try it all. Come explore, create, and uncover the artist within you!	Donna Crowley
July 6-9	8:30-11:30	1, 2, 3	Princess For A Week	Immerse yourself in the life of your favorite Disney princess. This enchanting camp invites students to design dazzling ball gowns, build their own kingdoms, embark on an enchanted scavenger hunt, and craft whimsical dreamcatchers. Through creativity, imagination, and playful activities, campers will celebrate the qualities that make every princess unique—strength, independence, and beauty. By the end of the week, each student will leave feeling empowered, inspired, and ready to shine like royalty!	Emma keeley

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 6-9	8:30-11:30	3, 4, 5	Crazy Cool Chemistry	How can we melt something without heat? Why does mixing baking soda and vinegar together make bubbles appear? What happens when a mentos mixes with Diet Coke? Learn about different elemental and chemical reactions in this crazy cool class! Students will get to take part in different experiments each day to see exactly how various objects and elements interact in our world and will get a chance to have hands on experience with different chemistry concepts (all kid friendly and safe).	Evan Flick
July 6-9	8:30-11:30	5, 6, 7, 8	Full STEAM Ahead	Full STEAM Ahead is a hands-on adventure where creativity meets science! Students will make infinity cubes, launch paper helicopters, experiment with catapults and paddle boats, create bubble snakes, and build Rube Goldberg machines. Each activity encourages problem-solving, engineering, and imagination, all while having a blast. By the end of the week, kids will have designed, built, and tested their own unique creations—and discovered the fun of STEAM in action!	Gillian Hohne and Lucinda Orne
July 6-9	8:30-11:30	2, 3, 4	Bright Minds Art Lab	Bright Minds Art Lab is a creative and joyful learning place where students explore art through numbers, letters, and imagination while building confidence as young artists. Students will create their own beautiful bookmarks filled with positive thoughts and kind words. They will experiment using everyday tools such as thread, forks, combs, straws, cotton, and more. On the last day of class, each student will paint on canvas board something they can proudly gift to someone. Along with painting, there will be riddles, fun games, and quizzes to keep students engaged throughout the week.	Jayalakshmi Pichai, Kanniyakumari Panneer Selvam
July 6-9	8:30-11:30	2, 3, 4	Fairy Tale S.T.E.M.	Let's go on a Fairy Tale adventure! We will explore various fairy tales through stories and science. Can you build a structure that can withstand the huff and the puff of the big bad wolf? Help Jack escape from the Giant without falling down the beanstalk! Baby Bear needs a new bed; will you be able to design a bed that is just right? Each day we will read 2 different fairy tales and then work on a STEM challenge to help a character in the story!	Jenny White & Melissa Bentley
July 6-9	8:30-11:30	5, 6, 7, 8	Take to the Skies with Air Rockets and Drones	This hands-on class introduces students to the foundational principles of flight through two dynamic activities. Students will learn the engineering design process by creating, modifying, and launching paper air rockets. They will also learn the science of flight as they safely pilot pro DJI mini drones. Give your student a high-flying advantage this summer by transforming their curiosity into concrete technical skills!	Jeremy Mularella
July 6-9	8:30-11:30	1, 2, 3	Royal Sparkle Jewelry	Step into a world of sparkle and creativity! In this royal-themed class, students will design and craft two dazzling princess accessories each day, from tiaras and bracelets to necklaces and more. On the final day, our young princesses will get to dress up and parade around the school, showing off their beautiful, handcrafted creations. It's a week of imagination, creativity, and royal fun!	Kara Pacheco
July 6-9	8:30-11:30	1, 2, 3, 4, 5	DIY Toy Makers	DIY Toy Makers invites children to become inventors, engineers, and designers as they build toys from everyday materials. Students will explore how toys move, spin, bounce, and fly while learning basic physics concepts such as force, balance, and motion. Each day introduces a new type of toy and design challenge, encouraging creativity, problem-solving, and perseverance. Children leave the class with multiple toys they created themselves and a deeper appreciation for how things work.	Karen Jose
July 6-9	8:30-11:30	3, 4, 5, 6, 7, 8	Strategic Minds Chess Camp	Strategic Minds Chess Camp is a fun and engaging chess program designed to build critical thinking, focus, and problem-solving skills through the game of chess. Students learn and practice core concepts such as piece movement, opening ideas, tactics, and simple strategies through interactive lessons, guided play, and friendly games. The camp is welcoming for both beginners and experienced players, with activities tailored to skill levels to help every child grow in confidence, patience, and strategic thinking in a supportive environment.	Kavita Bhatia
July 6-9	8:30-11:30	1, 2, 3	Summer Fun!	It's Summer....that means it is time for some FUN! Legos, play dough, crafts and games galore! There will be drawing, bubbles, music, movement and stories for pure enjoyment. Each day will feature a variety of activities, outdoor play, and time for students to explore, be active and get creative. Join in the Summer Fun!	Keri Giles
July 6-9	8:30-11:30	5, 6, 7, 8	Girls Play Sports	Looking for a fun, positive, and safe environment to explore sports? Join us for a week where each day focuses on a different sport! Students will learn basketball, soccer, volleyball, field hockey, softball, and more. We'll cover the rules, practice drills, play games, and even discover the history and key figures behind each sport. This class is perfect for all athletes—beginners and experienced players alike. Get ready to move, learn, and have a blast on and off the field!	Lauren Silbor
July 6-9	8:30-11:30	1, 2, 3	Dino Detectives: Unearth, Invent & Explore	Step into the shoes of a Dino Detective! Students will explore prehistoric life in exciting new ways: investigating mysterious fossils, inventing new dinosaurs, and designing prehistoric habitats. Through hands-on science, engineering challenges, and creative storytelling, kids will build critical thinking skills while having a roaring good time.	LeAnn Condon

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 6-9	8:30-11:30	2, 3, 4	Arts and Improvisation on Stage with Performance	Step into the spotlight in this dynamic and creative theatre class! Participants will engage in fun improvisation activities, develop original scenes, and bring their ideas to life through performance. Along the way, they'll explore visual arts to enhance their scenes and collaborate on creative choreography for a short showcase on Thursday. Join us for a week of imagination and play!	Liz Ushinski
July 6-9	8:30-11:30	1, 2, 3, 4	Junior Explorer	In this fun and hands-on class, young explorers will discover the amazing plants, animals, and natural wonders right in our own neighborhood! Students will use their senses to observe leaves, insects, rocks, and weather while learning how nature works all around us. Through nature walks, games, simple experiments, stories, and creative projects, children will learn to ask questions, make observations, and care for the environment. This class encourages curiosity, respect for living things, and a love for the outdoors.	Maria Rydelek and Jessica Goldsmith
July 6-9	8:30-11:30	5, 6, 7, 8	Chopped Jr: Edible Creations	Chopped Jr: Edible Creations brings the excitement of a real cooking competition to enrichment class! Students work in teams to create imaginative dishes using mystery ingredients, present their creations to judges, and find out which team's creation wins that round. With surprise challenges, friendly competition, and lots of creativity, this class keeps students engaged while building confidence, teamwork, and problem-solving skills. It's fast-paced, fun, and a deliciously memorable experience!	Michelle Anderson and Rita Therrien
July 6-9	8:30-11:30	3, 4, 5	Calm Crew	The Calm Crew is a fun and relaxing summer enrichment program designed to help kids learn to slow down, manage big feelings, and build inner calm. Through activities, students will explore mindfulness in ways that are engaging, creative, and age appropriate. Each day will offer a mix of breathing exercises, gentle movement, guided relaxation, storytelling, games, and art activities. The Calm Crew creates a safe and supportive space where kids can feel confident, connected, and relaxed while having tools they can use at school, at home, or during everyday challenges. This class is perfect for helping kids recharge, build emotional awareness, and enjoy a peaceful start to their summer days.	Molly Bates and Kasey Cooney
July 6-9	8:30-11:30	1, 2, 3, 4, 5, 6	Lego Club	Design. Construct. Create. Let your imagination soar. Children will be able to build freely with our large collection of Legos, or build with one of the Lego kits that we have in our collection. There will be daily challenges, Lego trivia, and Lego themed games to play. Come make new friends or catch up with old friends! On the last day there will be a Lego movie and a popcorn snack.	Molly Butler and Diane Betti
July 6-9	8:30-11:30	2, 3, 4, 5	Arts and Crafts Galore	Get ready for four mornings filled with creativity, imagination, and hands-on fun! In this open studio-style class, students will explore a wide variety of art materials and techniques while creating their own daily masterpieces. From painting and drawing to collage, friendship bracelets, clay creations, and more, there's something for every young artist to enjoy. With guided inspiration and plenty of room for choice, the possibilities are endless—what will you create?	Nicole Nye
July 6-9	8:30-11:30	1, 2	¡Hola Amigos!	Join us for ¡Hola Amigos!, a fun and engaging summer Spanish enrichment experience designed especially for Grades 1–2! Students will learn beginner Spanish through songs, storytelling, movement, art projects, and delicious cultural food experiences. Children will practice greetings, numbers, colors, animals, and simple conversational phrases while building confidence speaking a new language. The program ends with a mini Fiesta celebration where students showcase what they've learned!	Nikki Shooshan
July 6-9	8:30-11:30	5, 6, 7, 8	Junior Vet Explorers	Have you ever wanted to learn more about pets and the field of veterinary medicine? Students will have the opportunity to learn about pet anatomy, nutrition, and different veterinary career opportunities. Activities include creating daily pet care checklists, analyzing fictional pet health scenarios, and making pet treats. We may even get a visit from Mr. Cabral's own dog! This program is perfect for animal lovers and those who love to present what they have learned.	Noah Cabral
July 6-9	8:30-11:30	5, 6	Art of Math	The Art of Math is a hands-on course where 5th and 6th graders explore the math behind art. Over four days, students create fractals, symmetry and Op-Art designs, coordinate grid string art, and Fibonacci spirals, learning how patterns, shapes, and sequences appear in nature and design. Each day combines visual demos and hands-on projects to make math creative, engaging, and fun.	Olivia Dean and Abigail Walsh
July 6-9	8:30-11:30	5, 6, 7, 8	Movie Magic	Welcome to Movie Magic, the class where we explore all things movie related. We will come up with concepts for movies and then write, cast and film them. At the end of the week we will even have a showcase to watch all of the finished films!	Robert Martin
July 6-9	8:30-11:30	4, 5, 6	Games, Games, Games	Get ready for a week packed with fun, active games! In this camp, students will enjoy a mix of individual and team challenges—both indoors and outdoors—including relay races, classic playground games, creative group activities, and exciting team competitions. Every activity is designed to build confidence, encourage teamwork, spark problem-solving skills, and help campers make new friends. As a special finale, each camper will design their very own game to take home and share with family and friends.	Robin Arena

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 6-9	8:30-11:30	2, 3, 4	Fabric Art Lab	Touch create, and imagine! Students will use a variety of techniques to transform simple fabric into beautiful works of art. We'll then turn our fabric into playful creations such as characters, animals, books and more.	Sueli Machado Gibbs
July 6-9	8:30-11:30	1, 2	Creepy Crawlers	Creepy Crawlers: Discover the Cool Side of Nature's "Creeps." Get ready to explore the fascinating world of creatures that often get a bad rap—snakes, spiders, scorpions, and more! In this hands-on summer class, students will uncover the truth behind these "creepy crawlers" and learn that they're not so scary after all. Through fun activities, interactive lessons, and cool facts, learners will gain a deeper understanding of these misunderstood creatures and discover just how amazing and important they really are. Join us for a summer of learning, exploration, and, of course, creepy-crawly fun!	Tracy Breslin
July 6-9	8:30-11:30	3, 4, 5, 6	Brain Builders: Games, Puzzles & Challenges	Does your child love logic, teamwork, and creative problem-solving? Then this is the perfect class! Designed for kids who enjoy games, friendly competition, and thinking outside the box, this class blends puzzles, engineering challenges, and collaborative activities in every session. Students will work together to design, build, and solve—pushing their creativity and critical thinking skills to the next level. Come discover what you can create!	Zach Duval, Heather Fontana
July 6-9	12:00-3:00	2, 3, 4, 5	Play It Again Sports and Games	This class is perfect for young athletes who love to stay active and play a variety of sports and games! Students will practice skills, drills, and learn the rules for multiple sports while emphasizing sportsmanship, teamwork, and fair play. We'll play everything from soccer, basketball, and volleyball to field hockey, flag football, floor hockey, kickball, Ultimate Frisbee, wiffleball, Capture the Flag, and Gaga Ball. Join us for a week full of movement, fun, and friendly competition!	Amy Smith
July 6-9	12:00-3:00	2, 3, 4	Beginner Cartoon and Line Drawing Class	Have you ever struggled with drawing for school projects, games, or greeting cards? This summer class makes drawing fun and easy. Students will learn to use simple lines, shapes, and colors to draw everyday objects they see around them. No experience needed—just bring your creativity and enjoy drawing with confidence!	Bingjie Ding
July 6-9	12:00-3:00	5, 6, 7, 8	Crochet your own Summer Hat	A stylish bucket hat is a must-have for sunny beach days and outdoor adventures! In this hands-on class, students will learn how to sew and assemble their very own bucket hat from start to finish. They'll gain basic sewing skills while creating a fun, wearable accessory they can proudly show off all summer long.	Chris Besaw
July 6-9	12:00-3:00	1, 2, 3, 4	K-Pop Demon Hunters	K-Pop Summer Camp is a high-energy experience for kids who love singing, dancing, art, and storytelling. Campers will train like K-Pop idols while exploring the colorful world of K-Pop through group singing, character creation, themed art projects, and creative activities. Each day blends music, movement, and hands-on fun in an age-appropriate environment, helping campers build confidence, creativity, teamwork, and new friendships.	Christine Morris/ Charlene Campbell
July 6-9	12:00-3:00	5, 6	Spectacular Sports - Basketball, Volleyball, Soccer	In this session, students will explore popular team sports like soccer, basketball, and volleyball. Each sport will be introduced through fundamental skills, followed by exciting gameplay. This class is perfect for kids of all abilities to collaborate, enhance key athletic skills such as agility, coordination, balance, strength, and endurance, and most importantly, have a blast while staying active! Spectacular Sports fosters a safe and inclusive environment where children can build confidence, form friendships, and enjoy themselves. Additionally, it helps lay the foundation for lifelong fitness by encouraging a positive relationship with exercise and outdoor play.	Courtney Delaney, Carly Williams
July 6-9	12:00-3:00	2, 3, 4, 5	Road Trip Across the USA	Students will travel across the United States without ever leaving camp! Each day, children will explore a different region of the country through hands-on games, creative art projects, fun geography activities, and opportunities to learn about unique traditions and cultures. This class encourages curiosity, teamwork, and a love of learning while having lots of fun along the way.	Courtney poske & TJ Bell
July 6-9	12:00-3:00	1, 2, 3	Tool School	What does a hammer do? When do you use a screwdriver? In this hands-on class, students will explore different tools, learn what they're called, and discover how they help us build and create. We will use kid-safe tools to make simple projects while learning teamwork and safety.	Cynthia Belanger
July 6-9	12:00-3:00	4, 5, 6	Roblox Comes to Life	Join us for a hands-on experience without screens! Through collaborative world-building inspired by games like Roblox and Minecraft, students learn creative planning, design thinking, teamwork, problem solving, and iteration. Each group develops a playable experience that then all students can enjoy! (please note, no video games will be played in this class)	David Munoz Juarez
July 6-9	12:00-3:00	4, 5, 6	Artist Within	Do you love art but not sure which medium fits you best? This exploratory class is the perfect place to discover your artistic style! Students will experiment with a variety of materials, including: pencil, charcoal and pastels; watercolor, tempera, acrylic, and natural paints; clay and mixed-media crafting. Whether you enjoy sketching, painting, sculpting, or building with unique materials, you'll have the chance to try it all. Come explore, create, and uncover the artist within you!	Donna Crowley

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 6-9	12:00-3:00	3, 4, 5	Detective Academy	Step into the role of a detective and become a master problem solver! In this exciting class, students will investigate a brand-new mystery each day using evidence, clues, trails, and coded riddles. With official badges and real detective tools like magnifying glasses, invisible ink, and "classified" files, participants will work together to crack the case. Get ready to sharpen your observation skills, think critically, and solve the mystery!	Emma Keeley
July 6-9	12:00-3:00	3, 4, 5	Physics is Fun!	Become a physicist in this fun and hands on science class! Students will be conducting different physics based experiments and challenges to interact with the forces of our world. Learn about how scientists in our world today apply these physics into things such as construction, mechanical design, and even sports! Students will get a chance to take part in different design challenges using the knowledge they gain each day in class. Can you master gravity, magnetism, and more in this physics class!?	Evan Flick
July 6-9	12:00-3:00	5, 6, 7, 8	Fuse Bead Fun	Are you familiar with "fuse beads" and the 2D creations you can make with them? Well, it's time to think BIGGER and move beyond the pegboard in our class focused on creating 3D projects with your favorite meltable beads. Each day we will create unique crafts with a fresh take on fuse beads, including a rainbow spinner, a wall hanging, keychains, cute bugs and your very own fishing game. We can't wait to create with you!	Gillian Hohne and Lucinda Orne
July 6-9	12:00-3:00	2, 3, 4	Bright Minds Art Lab	Bright Minds Art Lab is a creative and joyful learning place where students explore art through numbers, letters, and imagination while building confidence as young artists. Students will create their own beautiful bookmarks filled with positive thoughts and kind words. They will experiment using everyday tools such as thread, forks, combs, straws, cotton, and more. On the last day of class, each student will paint on canvas board something they can proudly gift to someone. Along with painting, there will be riddles, fun games, and quizzes to keep students engaged throughout the week.	Jayalakshmi Pichai, Kanniyakumari Panneer Selvam
July 6-9	12:00-3:00	2, 3, 4	Fairy Tale S.T.E.M.	Let's go on a Fairy Tale adventure! We will explore various fairy tales through stories and science. Can you build a structure that can withstand the huff and the puff of the big bad wolf? Help Jack escape from the Giant without falling down the beanstalk! Baby Bear needs a new bed; will you be able to design a bed that is just right? Each day we will read 2 different fairy tales and then work on a STEM challenge to help a character in the story!	Jenny White/Melissa Bentley
July 6-9	12:00-3:00	2, 3, 4	Royal Sparkle Jewelry	Step into a world of sparkle and creativity! In this royal-themed class, students will design and craft two dazzling princess accessories each day, from tiaras and bracelets to necklaces and more. On the final day, our young princesses will get to dress up and parade around the school, showing off their beautiful, handcrafted creations. It's a week of imagination, creativity, and royal fun!	Kara Pacheco
July 6-9	12:00-3:00	1, 2, 3, 4, 5	DIY Toy Makers	DIY Toy Makers invites children to become inventors, engineers, and designers as they build toys from everyday materials. Students will explore how toys move, spin, bounce, and fly while learning basic physics concepts such as force, balance, and motion. Each day introduces a new type of toy and design challenge, encouraging creativity, problem-solving, and perseverance. Children leave the class with multiple toys they created themselves and a deeper appreciation for how things work.	Karen Jose
July 6-9	12:00-3:00	3, 4, 5, 6, 7, 8	Smart Sparks Coding Camp	Smart Sparks Coding Camp is a fun and engaging introduction to programming where students learn to think logically, solve problems, and create interactive projects through code. Campers build simple games, animations, and stories while learning foundational concepts like sequencing, loops, and conditional thinking. Designed for beginners, this hands-on camp builds confidence, creativity, and critical-thinking skills in a supportive and age-appropriate environment—no prior coding experience needed.	Kavita Bhatia
July 6-9	12:00-3:00	1, 2, 3, 4	Mini Movers Yoga	In Mini Movers Yoga, children will discover fun and engaging ways to move their bodies, build strength, and practice calming techniques through yoga. Each session introduces age-appropriate poses, breathing exercises, and simple mindfulness strategies to help children learn how to relax, focus, and manage big feelings. We'll also reinforce mindfulness through creative arts and crafts activities that encourage self-expression and reflection. This class creates a positive, supportive environment where kids can grow in confidence while having fun. We can't wait to stretch, breathe, and move with you!	Lauren Silbor
July 6-9	12:00-3:00	1, 2, 3	Dino Detectives: Unearth, Invent & Explore	Step into the shoes of a Dino Detective! Students will explore prehistoric life in exciting new ways: investigating mysterious fossils, inventing new dinosaurs, and designing prehistoric habitats. Through hands-on science, engineering challenges, and creative storytelling, kids will build critical thinking skills while having a roaring good time.	LeAnn Condon
July 6-9	12:00-3:00	2, 3, 4	Planes, Trains and Automobiles	All aboard for an exciting hands-on adventure! In this class, discover how planes fly, trains travel and automobiles move. Use your imagination and a wide range of materials (paper, pencils, markers, blocks, toy vehicles, recycled items) to build, play and explore your own transportation world from land, air and sea.	Maria Rydelek and Jessica Goldsmith

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 6-9	12:00-3:00	5, 6, 7, 8	Chopped Jr: The Wild Card	Get ready for surprises, creativity, and hands-on culinary fun! In Chopped Junior: The Wild Card, students become junior chefs facing unexpected challenges with mystery ingredients. Each day is full of exciting twists, teamwork, and friendly competition as students whip up imaginative dishes and present them to judges. Perfect for young food lovers, this class sparks creativity, builds confidence, and makes every day a delicious adventure!	Michelle Anderson and Rita Therrien
July 6-9	12:00-3:00	3, 4, 5	Calm Crew	The Calm Crew is a fun and relaxing summer enrichment program designed to help kids learn to slow down, manage big feelings, and build inner calm. Through activities, students will explore mindfulness in ways that are engaging, creative, and age appropriate. Each day will offer a mix of breathing exercises, gentle movement, guided relaxation, storytelling, games, and art activities. The Calm Crew creates a safe and supportive space where kids can feel confident, connected, and relaxed while having tools they can use at school, at home, or during everyday challenges. This class is perfect for helping kids recharge, build emotional awareness, and enjoy a peaceful start to their summer days.	Molly Bates and Kasey Cooney
July 6-9	12:00-3:00	1, 2, 3, 4, 5, 6	Lego Club	Design. Construct. Create. Let your imagination soar. Children will be able to build freely with our large collection of Legos, or build with one of the Lego kits that we have in our collection. There will be daily challenges, Lego trivia, and Lego themed games to play. Come make new friends or catch up with old friends! On the last day there will be a Lego movie and a popcorn snack.	Molly Butler and Diane Betti
July 6-9	12:00-3:00	1, 2	Cheer Motion and Movement	Get ready to move and cheer! This enrichment course introduces students to cheerleading through high-energy motions, chants, dance, and team-building activities. Students will work on coordination, confidence, and performance skills while learning what it means to be part of a team. This course does not include stunting or tumbling.	Nicole Baez
July 6-9	12:00-3:00	1, 2	If You Give a Mouse a Cookie + Donut Club	Get ready for four days of laughter, learning, and LOTS of imagination! In this fun and interactive literacy class inspired by the beloved books If You Give a Mouse a Cookie, If You Give a Dog a Donut, and many others by Laura Numeroff, students will dive into silly story chains, creative writing adventures, hands-on math games, and even a STEM challenge!	Nikki Shooshan
July 6-9	12:00-3:00	6, 7, 8	LeadHERship	Welcome to LeadHERship Camp, one of Shrewsbury Youth and Family Services' most popular programs. This full-day program focuses on the concerns, hopes, dreams and goals of middle school girls by discussing the important changes they are experiencing during this critical time in their lives. They will learn how to strengthen their self-confidence, manage emotions, and communicate better with friends and family members. There will be plenty of practice in decision-making and problem-solving too! They will learn how being healthy will help them become the person they are meant to be. We have included ways to stay drug-free and help others stay drug-free. Finally, they will practice setting goals and thinking about ways to make the most of themselves!	Rebekah Rano
July 6-9	12:00-3:00	4, 5, 6	Jr. Toastmasters (Beginner level)	The objective of Jr. Toastmasters is to help you build the confidence you need to give presentations and speak in public so that you can become a better leader and communicator. By participating in Jr. Toastmasters, you will be able to practice these skills with others and get the feedback you need to improve. (Beginner level)	Robert Koenig
July 6-9	12:00-3:00	5, 6, 7, 8	Movie Magic	Welcome to Movie Magic, the class where we explore all things movie related. We will come up with concepts for movies and then write, cast and film them. At the end of the week we will even have a showcase to watch all of the finished films!	Robert Martin
July 6-9	12:00-3:00	4, 5, 6	Games, Games, Games	Get ready for a week packed with fun, active games! In this camp, students will enjoy a mix of individual and team challenges—both indoors and outdoors—including relay races, classic playground games, creative group activities, and exciting team competitions. Every activity is designed to build confidence, encourage teamwork, spark problem-solving skills, and help campers make new friends. As a special finale, each camper will design their very own game to take home and share with family and friends.	Robin Arena
July 6-9	12:00-3:00	4, 5, 6	Fabric Art Lab	Touch create, and imagine! Students will use a variety of techniques to transform simple fabric into beautiful works of art. We'll then turn our fabric into playful creations such as characters, animals, books and more.	Sueli Machado Gibbs
July 6-9	12:00-3:00	1, 2	Creepy Crawlers	Creepy Crawlers: Discover the Cool Side of Nature's "Creeps." Get ready to explore the fascinating world of creatures that often get a bad rap—snakes, spiders, scorpions, and more! In this hands-on summer class, students will uncover the truth behind these "creepy crawlers" and learn that they're not so scary after all. Through fun activities, interactive lessons, and cool facts, learners will gain a deeper understanding of these misunderstood creatures and discover just how amazing and important they really are. Join us for a summer of learning, exploration, and, of course, creepy-crawly fun!	Tracy Breslin

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 6-9	12:00-3:00	3, 4, 5, 6	Brain Builders: Games, Puzzles & Challenges PM	Does your child love logic, teamwork, and creative problem-solving? Then this is the perfect class! Designed for kids who enjoy games, friendly competition, and thinking outside the box, this class blends puzzles, engineering challenges, and collaborative activities in every session. Students will work together to design, build, and solve—pushing their creativity and critical thinking skills to the next level. Come discover what you can create!	Zach Duval, Heather Fontana
July 13-16	8:30-11:30	5, 6, 7, 8	Let's Bake Together	Do you love to bake? Join me as I share new recipes with you over summer break! Following a recipe and measuring various ingredients, students will learn how to navigate a kitchen safely and channel their energy into a creative outlet that results in a tangible and tasty reward the whole family can enjoy. Students will gain a sense of grown-up responsibility and the confidence to help in the kitchen at home, all in a cool, structured and safe environment. Baking projects will include unique cakes, cookies and puff pastries!	Nuha Habib
July 13-16	8:30-11:30	1, 2, 3, 4	All Princess and Glitter	Step into a world of creativity and imagination in our Magical Princess Craft Class! Young artists will create enchanting, fairy tale-inspired masterpieces, including sparkling wands, dazzling tiaras, royal jewels, decorative mirrors, and beautiful jewelry boxes. Each class also features princess stories, cheerful sing-alongs, engaging games, and a special "show and tell" time where students can proudly present their creations. It's a whimsical experience full of creativity, confidence-building, and royal fun!	Christine Morris/ Charlene Campbell
July 13-16	8:30-11:30	1, 2, 3, 4, 5, 6	Art Lab	Get ready to create, build, and explore! This hands-on summer camp is perfect for kids who love making things with their hands and letting their imagination run wild. Each day, campers will dive into fun craft projects, painting, building, designing, and inventing! Campers will experiment with different art techniques, create take-home projects they'll be proud of, and enjoy games, movement breaks, and time to share their creations with friends. No experience needed—just curiosity and creativity! This camp encourages confidence, problem-solving, and self-expression in a relaxed, supportive environment where it's okay to get a little messy and try something new.	Kylian Kelly
July 13-16	8:30-11:30	3, 4, 5	Artful Adventures	Artful Adventures is an exciting arts and craft class where creativity has no limits! Young artists will explore a world of colors, textures, and imagination through hands-on projects like painting, sculpting, collage-making, and more. Each session is a new adventure, encouraging kids to experiment, express themselves, and discover their unique artistic voice. This is a perfect class for curious minds, inspiring confidence, problem-solving, and a lifelong love of creativity- all while HAVING FUN!	Molly Bates and Kasey Cooney
July 13-16	8:30-11:30	2, 3, 4	Backyard Games & Beyond: Disc Golf, Wiffleball & Kickball	This session highlights creative and exciting games like disc golf, wiffleball, and kickball—perfect for kids who love variety and playful competition. Students will develop foundational skills for each activity and put them into practice through fun, modified games that highlight teamwork and participation. Designed for all ability levels, the class builds agility, coordination, balance, strength, and endurance while prioritizing enjoyment and active engagement. In a welcoming and inclusive environment, students will build confidence, strengthen friendships, and develop a lasting appreciation for movement and physical activity.	Courtney Delaney, Kelly Delaney
July 13-16	8:30-11:30	1, 2, 3	Beads & Bling Jewelry	Get ready to design and create dazzling jewelry pieces all week long! Students will craft at least two unique pieces each day using a variety of materials, including pony beads, sparkling crystal beads, looms, and clay beads. From bracelets and necklaces to fun, one-of-a-kind designs, this class is perfect for creative makers who love to accessorize and express their personal style!	Kara Pacheco
July 13-16	8:30-11:30	3, 4, 5	Biology and the World Around Us	Come learn the basics of biology and see how living organisms interact with our world! Students will get a close up look at different animals and plants and learn how they all work. Students will learn about the impact that plants and animals have on our lives and what we can do to help our environment prosper. Each day includes a nature walk to allow students to get hands on experience with their local ecosystem. This class provides a new opportunity to examine different natural objects such as bird feathers, turtle shells, wasp nests, bee hives, and more!	Evan Flick
July 13-16	8:30-11:30	2, 3, 4	Board Game Designers!	Get ready to become a game designer! In this creative, hands-on class, students will brainstorm original ideas, design game boards and rules, build prototypes, and test their creations through play. Along the way, they'll refine their strategies and make improvements to ensure their game is as fun as possible. By the end of the week, each student will take home a fully playable board game to share with friends and family!	Emma keeley
July 13-16	8:30-11:30	3, 4, 5, 6, 7, 8	Buzz In and win!	Buzz In & Win Camp is a high-energy trivia and game-show camp inspired by Jeopardy, Family Feud, and classic buzzer games! Students work in teams to answer questions, solve clues, and race to buzz in across fun categories such as culture, math, logic, geography, and general knowledge. This camp builds quick thinking, teamwork, confidence, and communication skills—all while enjoying fun prizes, friendly competition, and lots of laughs in a supportive environment.	Kavita Bhatia
July 13-16	8:30-11:30	5, 6, 7, 8	Crochet your own fidget toy	Who doesn't like to have something to play with to keep their hand's busy? In this class students will be able to create their own crocheted fidget toy.	Chris Besaw

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 13-16	8:30-11:30	3, 4, 5	Electricity Explorers	Flip the switch on fun! Students will discover how electricity works by building simple circuits with batteries, wires, and lights. Kids will experiment, solve problems, and watch their projects light up as they learn the basics of electrical power.	Cynthia Belanger
July 13-16	8:30-11:30	5, 6, 7, 8	Escape Room Adventure	HELP! I'm trapped and I can't get out. What would you do if you were locked in a room and there was only one way out? Through a locked door! Solve clues, puzzles, and other problems to escape the room before you run out of time! Escape from 2 different rooms and then learn how to build your own puzzle room to stump your peers!	Jenny White/Melissa Bentley
July 13-16	8:30-11:30	1, 2, 3	Etsy Workshop	Calling all crafters! This is a hands-on workshop where students design, create, and package their own handmade products to be able to "sell" their creations to other students. Each student will be able to put their creativity into their art while also learning about branding and marketing.	David Munoz Juarez
July 13-16	8:30-11:30	2, 3, 4	Fidget Factory: DIY Fidget	Fidget Factory is a hands-on, creative enrichment program where students design and build their own fidgets over four exciting days. Children will explore a variety of textures and movements—squishy, twisty, clicky, rollable, and pop-style fidgets—while developing fine motor skills, creativity, problem-solving, and sensory awareness. Activities include balloon squishies, bead and chain fidgets, marble tracks, and a special Tabasquishy-style squishy lab. Students finish the week by creating a personalized fidget kit to take home, celebrating their creativity in a fun, supportive environment.	LeAnn Condon
July 13-16	8:30-11:30	5, 6, 7, 8	Field Hockey Fun!!	Are you interested in playing field hockey? Well we want you to come join us for some field hockey fun! We will be spending time learning new stick skills, exercises, drills, how to read the field and creating the most awesome corner plays. Please join me for the best week ever playing field hockey!	Lauren Silbor
July 13-16	8:30-11:30	1, 2	Flower Power	Flower Power is a hands-on summer enrichment class all about exploring the amazing world of flowers! Students will learn how to identify different flowers, discover which flowers are carnivorous, herbivorous, or edible, and explore the many things we can make from flowers. Through planting, nature walks, and creative projects, students will dig deep into flower science and ecology while learning by doing. This class is perfect for curious learners who love nature, exploring outdoors, and getting their hands dirty!	Tracy Breslin
July 13-16	8:30-11:30	2, 3, 4	Fun and Games for Girls	Do you love to have fun and stay active? We're two energetic leaders who can't wait to spend the week playing, creating, and laughing with you! Together, we'll enjoy a mix of sports games, tag games, thinking games, and just-for-fun silly challenges—both indoors and outdoors. Get ready to move with activities like soccer, basketball, field hockey, hula hoops, skip-its, jump rope, and even showing off your best dance moves! Our goal is simple: learn new games, make new friends, build confidence, and have an amazing time. Bring your positive energy and lace up your sneakers—it's going to be a blast!	Anmarie Brackett & Ally Boone
July 13-16	8:30-11:30	2, 3, 4	Happy hands scrapbooking	Capture and celebrate your favorite memories in this hands-on scrapbooking class! Students will design and decorate custom pages using colorful papers, stickers, and creative layouts. Bring photos, keepsakes, tags, or any mementos you love, and turn them into a beautiful scrapbook crafted entirely by you. Can't print your photos? No problem—you can email digital images, and we'll print them for you.	Sueli Machado Gibbs
July 13-16	8:30-11:30	2, 3, 4	If You Give a Kid a Cookie They will Love Camp!	Join us for a deliciously fun four-day adventure inspired by Laura Numeroff's beloved "If You Give..." series! Each day features a read-aloud, hands-on cooking activity, a themed snack to enjoy, and a special take-home treat. From cookies to pancakes, muffins to donuts, campers explore cause-and-effect storytelling while they mix, create, taste, and imagine. It's the perfect blend of reading, laughing, and snacking—because if you give a kid a cookie... they will definitely love camp!	Ritamarie (Rita) Therrien-Respass & Liz Mitchell
July 13-16	8:30-11:30	5, 6, 7, 8	Lawn Games: Strategy, Sportsmanship, and Summer Fun	In this hands-on summer enrichment class, middle school students will learn and play classic lawn games—including Cornhole (Bean Bag Toss) Kubb, a traditional Scandinavian strategy game and Can Jam (a fun frisbee game). Students will explore game rules, scoring systems, teamwork, and tactics, then apply what they learn through practice matches and friendly competition. The class emphasizes strategy, communication, sportsmanship, and perseverance. Students will work collaboratively, analyze gameplay, reflect on improvements, and build confidence.. The week culminates in a fun, low-stakes tournament that celebrates effort, growth, and teamwork. No prior experience with lawn games or music is required—just a willingness to try, play, and have fun!	Stuart Grimes
July 13-16	8:30-11:30	1, 2	Little Eisteins	Calling all Little Einsteins! Are you ready to explore science through hands-on experiments and exciting discoveries? Each day, campers will become "little scientists" as they mix colors, investigate different types of weather, and observe fascinating chemical reactions. This camp sparks curiosity, encourages teamwork, and builds problem-solving skills in a fun and engaging way. Students will learn that asking questions, testing ideas, and trying again are all part of every great scientific adventure—making science imaginative, exciting, and full of wonder!	Robin Arena

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 13-16	8:30-11:30	1, 2	Little Explorers	Pack your imagination and get ready to travel the world! Little Explorers introduces young learners to geography through stories, games, crafts, and hands-on adventures. Campers will discover maps and globes, practice basic map skills, explore continents and oceans, and learn about famous landmarks, landforms, climates, cultures, and animals from around the world. Through interactive activities like map-making, creative art projects, puzzles, and movement games, children will learn where places are and what makes each part of our planet unique. This camp nurtures curiosity, teamwork, and a love of learning in a fun and supportive environment—perfect for young explorers who love to ask questions, create, and discover new places!	Breana Hogan
July 13-16	8:30-11:30	1, 2, 3	Little Green Thumbs	Dig into a week full of gardening fun! In this hands-on, plant-themed class, students will enjoy a variety of engaging activities each day, including playful gross motor games, creative crafts, and real planting experiences. Along the way, they'll learn about the parts of a plant, how plants grow, and what they need to thrive. By the end of the week, students will have the knowledge and confidence to care for and grow their very own plants!	Keri Giles
July 13-16	8:30-11:30	2, 3, 4	Meet the Artist	Break out your paint brushes and get ready to create your own masterpieces! Students will have a chance to discover their inner artist by exploring different painting techniques and mediums. Each artist will be given guidance and suggestions while they work to create unique paintings using watercolor and acrylic paints. At the end of the week, students will get to show off their talents in a gallery-style display.	Gillian Hohne and Lucinda Orne
July 13-16	8:30-11:30	1, 2, 3, 4	Music and Movement	Music & Movement is a lively, high-energy class where children explore rhythm, sound, and dance in a joyful and creative way. Students will sing, move, make simple instruments, and express their emotions through music and motion. Through playful activities, children will strengthen coordination, listening skills, creativity, and confidence—all while having fun. The session concludes with a special group performance where students can shine and celebrate all they've learned!	Karen Jose
July 13-16	8:30-11:30	3, 4, 5, 6	Mystery Masters: Codes, Clues & Detective Skills AM	Put on your detective hat and sharpen your thinking—Mystery Masters turns kids into top-secret investigators on a mission to crack cases and solve puzzles! Over four action-packed days, students will learn how real detectives observe closely, think logically, and work as a team to uncover the truth. Young Detectives will decode secret messages, analyze mysterious clues, break ciphers, and eliminate suspects using evidence and reasoning. From hidden messages to full-room mysteries, every day brings a new challenge that keeps kids moving, thinking, and collaborating.	Zach Duval, Heather Fontana
July 13-16	8:30-11:30	5, 6, 7	Myths, Monsters & Mayhem	Myths, Monsters & Mayhem is a creative summer enrichment class where students in grades 5–7 dive into the exciting world of Greek mythology through reading, storytelling, and performance. Students will explore famous myths and legendary monsters such as Medusa, the Minotaur, and the Hydra, while learning how stories are structured and why myths were told. Using short texts, graphic organizers, and collaborative activities, students will create their own original myths, design mythological creatures, and bring their stories to life through reader's theater and dramatic read-alouds. Throughout the course, students will build reading fluency, expressive speaking, creative writing skills, and confidence—all in a fun, imaginative, and supportive environment.	Shannan Rowell
July 13-16	8:30-11:30	1, 2, 3	National Geographic Kids Researchers	What would it be like to explore the world's most incredible animals like a true National Geographic explorer? In this exciting camp, students will become wildlife researchers as they investigate amazing animals and discover how they adapt to survive in their environments. Each day, we'll focus on three animals from a different region of the world—Asia, Africa, North America, and South America—learning what they eat, where they live, who their predators are, and how they survive day to day. Through engaging videos, nonfiction reading, crafts, and themed games, campers will gather information to create their very own wildlife magazine inspired by National Geographic.	Stephanie Fox
July 13-16	8:30-11:30	1, 2, 3	Painting Journey	Do you love to paint and want to grow your skills? Have a favorite artist whose style you've always wanted to try? In this creative and exploratory class, students will experiment with a variety of painting styles—action painting, still life, abstract, realism, and more. You can choose the approach that inspires you most: paint from your own drawing, try preprinted designs, copy a favorite image, or jump right in with freehand painting. We'll explore different types of paints, brushes, and techniques while "stepping into the shoes" of well-known artists and creating art inspired by their unique styles.	Donna Crowley
July 13-16	8:30-11:30	3, 4, 5	Paper Crafting	Creating 3D paper art! Designing, folding, cutting, curling, quilling, building, creating your works of art with paper! We will use different types of paper such as plain, textured, printed and decorative, along with embellishment supplies, as students will bring their visions to life with their choice of techniques, color, and supplies. Sample creations, step-by-step instructions, and ideas will be provided as well as the flexibility to embrace the spark of your own ideas to let your individual creativity take over and see what masterpieces you create!	Mary Pritchard & Diane Betti

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 13-16	8:30-11:30	1, 2, 3, 4	Pokemon Trainer Camp	Welcome to the Pokemon Trainer Camp, the best place for learning about all things Pokemon. Campers will participate in activities such as Pokemon quiz shows, Pokemon-themed art activities and learning more about the immense world of Pokemon. (*there will be no trading, please leave your cards at home*)	Robert Martin
July 13-16	8:30-11:30	2, 3, 4	Reader's Theatre on Stage with Performance	Everyone loves the stage! This program offers students the chance to choose different reading selections and bring them to life through expression of voice and body. Reader's Theatre promotes cooperative partnerships, strengthens comprehension, and increases fluency. Furthermore... IT'S FUN! Participants will share their performance on Thursday.	Liz Ushinski
July 13-16	8:30-11:30	5, 6, 7, 8	Sewing Studio	This class is designed for students who are new to sewing and want to learn both hand stitching and machine techniques. Students will become familiar with basic sewing tools and materials while practicing essential stitches and methods. Through guided projects, students will build confidence and develop problem-solving skills. By the end of the class, each student will complete a couple of daily-use projects to take home.	Bingjie Ding
July 13-16	8:30-11:30	4, 5, 6, 7, 8	Walking on Sunshine	Get ready to move, smile, and feel great! In this class, students will walk, jog, and run their way to stronger bodies and happier minds. Through fun, structured activities, kids will build healthy habits, learn how to take care of themselves, and enjoy being active with friends. We'll celebrate effort, personal goals, and trying your best—no racing required! The focus is on having fun, staying safe, and discovering the joy of moving your body.	Carly Williams
July 13-16	8:30-11:30	4, 5, 6, 7, 8	Watercolor 101: Flower Power	Ignite your student's creativity in Watercolor 101: Flower Power! This beginner-friendly class teaches students essential watercolor techniques—like color mixing, layering, and brushwork—while bringing vibrant flowers to life on paper. Each day introduces a new skill paired with a fun painting project, so students can experiment, explore, and express themselves in a hands-on, supportive environment. By the end of the week, students will have built confidence in their skills and a colorful collection of unique floral artwork to take home!	Michelle Anderson
July 13-16	8:30-11:30	1, 2, 3	Woodworking Basics	Calling all woodworkers! Come and learn the basics of woodworking. With this hands-on-class, you will learn how to sand, glue, and hammer to create daily wood inspired projects. Each day will focus on one skill to create a project that can be brought home. Please note these projects will vary from the projects offered last summer, so students are welcome to repeat the class. There is an additional \$15 materials fee added to the price of the class to cover the cost of wood.	Jillian Falvo
July 13-16	12:00-3:00	1, 2, 3, 4	Let's Bake Together	Do you love to bake? Join me as I share new recipes with you over summer break! Following simple baking steps, students will learn how to navigate a kitchen safely and channel their energy into a creative outlet that results in a tangible and tasty reward the whole family can enjoy. Students will gain a sense of grown-up responsibility and the confidence to help in the kitchen at home, all in a cool, structured and safe environment. Baking projects will include unique cakes, cookies and puff pastries!	Nuha Habib
July 13-16	12:00-3:00	1, 2, 3, 4	All Princess and Glitter	Step into a world of creativity and imagination in our Magical Princess Craft Class! Young artists will create enchanting, fairy tale-inspired masterpieces, including sparkling wands, dazzling tiaras, royal jewels, decorative mirrors, and beautiful jewelry boxes. Each class also features princess stories, cheerful sing-alongs, engaging games, and a special "show and tell" time where students can proudly present their creations. It's a whimsical experience full of creativity, confidence-building, and royal fun!	Christine Morris/ Charlene Campbell
July 13-16	12:00-3:00	3, 4, 5	Artful Adventures	Artful Adventures is an exciting arts and craft class where creativity has no limits! Young artists will explore a world of colors, textures, and imagination through hands-on projects like painting, sculpting, collage-making, and more. Each session is a new adventure, encouraging kids to experiment, express themselves, and discover their unique artistic voice. This is a perfect class for curious minds, inspiring confidence, problem-solving, and a lifelong love of creativity- all while HAVING FUN!	Molly Bates and Kasey Cooney
July 13-16	12:00-3:00	3, 4, 5	Astronomy and Beyond!	Travel beyond our planet and explore the wonders of space! In this exciting class, students will learn about interstellar objects and the incredible discoveries humans have made while studying the stars. We'll discover the scientists and spacecraft that have helped us journey beyond Earth and uncover the mysteries of the universe. Students will create models of rockets and solar systems, investigate what truly makes up a planet, and explore what happens when a star reaches the end of its life. Curious minds and future astronomers are all welcome for this out-of-this-world adventure!	Evan Flick
July 13-16	12:00-3:00	5, 6	Backyard Games & Beyond: Disc Golf, Wiffleball & Kickball	This session highlights creative and exciting games like disc golf, wiffleball, and kickball—perfect for kids who love variety and playful competition. Students will develop foundational skills for each activity and put them into practice through fun, modified games that highlight teamwork and participation. Designed for all ability levels, the class builds agility, coordination, balance, strength, and endurance while prioritizing enjoyment and active engagement. In a welcoming and inclusive environment, students will build confidence, strengthen friendships, and develop a lasting appreciation for movement and physical activity.	Courtney Delaney, Carly Williams

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 13-16	12:00-3:00	2, 3, 4	Beads & Bling Jewelry	Get ready to design and create dazzling jewelry pieces all week long! Students will craft at least two unique pieces each day using a variety of materials, including pony beads, sparkling crystal beads, looms, and clay beads. From bracelets and necklaces to fun, one-of-a-kind designs, this class is perfect for creative makers who love to accessorize and express their personal style!	Kara Pacheco
July 13-16	12:00-3:00	5, 6, 7, 8	Chocolate Touch Culinary Lab	Inspired by The Chocolate Touch by Patrick Skene Catling, this hands-on food camp blends reading, discussion, and simple culinary labs. Campers explore how choices lead to consequences while experimenting with chocolate-based treats, flavor combinations, and no-bake recipes. Each day includes shared reading, a creative food activity, a snack to enjoy, and a take-home treat—perfect for older kids who love stories, food, and a little kitchen science.	Ritamarie (Rita) Therrien-Respass and Liz Mitchell
July 13-16	12:00-3:00	4, 5, 6, 7, 8	Crochet your own Emotional Support Animal/Object	In this class students will create their own emotional support pocket sized animal or object such as a Positive Potato, Positive Flamingo, or an Emotional Support Frog. These are the perfect size to fit into a pocket or bag!	Chris Besaw
July 13-16	12:00-3:00	2, 3, 4	Draw and Discover: Epic Tales	Students will bring their own stories to life through sketches! Each day, they'll develop characters, create action-filled scenes, and build exciting narratives, all while learning new drawing techniques. Every sketch becomes part of their personal storybook, giving students the chance to experiment, explore ideas, and express their creativity in bold, imaginative ways. By the end of the class, they'll have a sketchbook full of original stories and dynamic artwork they'll be proud to share!	Michelle Anderson
July 13-16	12:00-3:00	3, 4, 5	Electricity Explorers	Flip the switch on fun! Students will discover how electricity works by building simple circuits with batteries, wires, and lights. Kids will experiment, solve problems, and watch their projects light up as they learn the basics of electrical power.	Cynthia Belanger
July 13-16	12:00-3:00	4, 5, 6	Etsy Workshop	Calling all crafters! This is a hands-on workshop where students design, create, and package their own handmade products to be able to "sell" their creations to other students. Each student will be able to put their creativity into their art while also learning about branding and marketing.	David Munoz Juarez
July 13-16	12:00-3:00	5, 6, 7	Express Yourself	In this group, rising 5th, 6th, and 7th graders will embark on a journey of self-reflection, expression, and emotional growth through a blend of art forms and therapeutic practices. Participants will explore their thoughts, feelings, and experiences using visual arts, performing arts, and creative writing, while learning healthy, effective ways to process and express challenging emotions. At the end of the week, group members will have the opportunity to share their creations with one another, offering a chance to learn from each other and create a supportive space for both personal growth and connection with each other.	Rebekah Rano
July 13-16	12:00-3:00	2, 3, 4, 5	Fashion Designers	Get ready to design, create, and shine! We'll kick off the week by dreaming up our most elaborate outfits and accessories, sketching bold ideas and planning every detail. Throughout the week, students will bring their designs to life—cutting, crafting, building, and embellishing their unique creations. On the final day, we'll add the finishing touches and celebrate with a fabulous runway show where everyone gets to showcase their one-of-a-kind look!	Emma Keeley
July 13-16	12:00-3:00	2, 3, 4	Fidget Factory: DIY Fidget	Fidget Factory is a hands-on, creative enrichment program where students design and build their own fidgets over four exciting days. Children will explore a variety of textures and movements—squishy, twisty, clicky, rollable, and pop-style fidgets—while developing fine motor skills, creativity, problem-solving, and sensory awareness. Activities include balloon squishies, bead and chain fidgets, marble tracks, and a special Tabasquishy-style squishy lab. Students finish the week by creating a personalized fidget kit to take home, celebrating their creativity in a fun, supportive environment.	LeAnn Condon
July 13-16	12:00-3:00	1, 2	Flower power	Flower Power is a hands-on summer enrichment class all about exploring the amazing world of flowers! Students will learn how to identify different flowers, discover which flowers are carnivorous, herbivorous, or edible, and explore the many things we can make from flowers. Through planting, nature walks, and creative projects, students will dig deep into flower science and ecology while learning by doing. This class is perfect for curious learners who love nature, exploring outdoors, and getting their hands dirty!	Tracy Breslin
July 13-16	12:00-3:00	2, 3, 4	Fun and Games for Girls	Do you love to have fun and stay active? We're two energetic leaders who can't wait to spend the week playing, creating, and laughing with you! Together, we'll enjoy a mix of sports games, tag games, thinking games, and just-for-fun silly challenges—both indoors and outdoors. Get ready to move with activities like soccer, basketball, field hockey, hula hoops, skip-its, jump rope, and even showing off your best dance moves! Our goal is simple: learn new games, make new friends, build confidence, and have an amazing time. Bring your positive energy and lace up your sneakers—it's going to be a blast!	Annamarie Brackett & Ally Boone
July 13-16	12:00-3:00	4, 5, 6	Happy hands scrapbooking	Capture and celebrate your favorite memories in this hands-on scrapbooking class! Students will design and decorate custom pages using colorful papers, stickers, and creative layouts. Bring photos, keepsakes, tags, or any mementos you love, and turn them into a beautiful scrapbook crafted entirely by you. Can't print your photos? No problem—you can email digital images, and we'll print them for you.	Sueli Machado Gibbs

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 13-16	12:00-3:00	5, 6, 7, 8	Jr. Toastmasters - Advanced level	The objective of Jr. Toastmasters is to help you build the confidence you need to give presentations and speak in public so that you can become a better leader and communicator. By participating in Jr. Toastmasters, you will be able to practice these skills with others and get the feedback you need to improve. (Advanced) learning will be included. Speech writing, introductions and conclusions.	Robert Koenig
July 13-16	12:00-3:00	1, 2	Little Einsteins	Calling all Little Einsteins! Are you ready to explore science through hands-on experiments and exciting discoveries? Each day, campers will become "little scientists" as they mix colors, investigate different types of weather, and observe fascinating chemical reactions. This camp sparks curiosity, encourages teamwork, and builds problem-solving skills in a fun and engaging way. Students will learn that asking questions, testing ideas, and trying again are all part of every great scientific adventure—making science imaginative, exciting, and full of wonder!	Robin Arena
July 13-16	12:00-3:00	1, 2	Little Explorers	Pack your imagination and get ready to travel the world! Little Explorers introduces young learners to geography through stories, games, crafts, and hands-on adventures. Campers will discover maps and globes, practice basic map skills, explore continents and oceans, and learn about famous landmarks, landforms, climates, cultures, and animals from around the world. Through interactive activities like map-making, creative art projects, puzzles, and movement games, children will learn where places are and what makes each part of our planet unique. This camp nurtures curiosity, teamwork, and a love of learning in a fun and supportive environment—perfect for young explorers who love to ask questions, create, and discover new places!	Breana Hogan
July 13-16	12:00-3:00	3, 4, 5, 6, 7, 8	Mission Impossible	Get ready for a week of action, strategy, and teamwork! In Mission Impossible Camp, campers become part of an elite team completing daily missions that challenge their minds and bodies. Through problem-solving games, logic puzzles, physical challenges, and cooperative tasks, campers will learn how to communicate, think critically, and work together under pressure. Each day introduces a new mission theme—from cracking secret codes to surviving wilderness scenarios and completing a final multi-stage operation. Campers earn points as a team, build leadership skills, and gain confidence while having fun in an energetic, supportive environment.	Kylian Kelly
July 13-16	12:00-3:00	1, 2, 3, 4	Music and Movement	Music & Movement is a lively, high-energy class where children explore rhythm, sound, and dance in a joyful and creative way. Students will sing, move, make simple instruments, and express their emotions through music and motion. Through playful activities, children will strengthen coordination, listening skills, creativity, and confidence—all while having fun. The session concludes with a special group performance where students can shine and celebrate all they've learned!	Karen Jose
July 13-16	12:00-3:00	3, 4, 5, 6	Mystery Masters: Codes, Clues & Detective Skills PM	Put on your detective hat and sharpen your thinking—Mystery Masters turns kids into top-secret investigators on a mission to crack cases and solve puzzles! Over four action-packed days, students will learn how real detectives observe closely, think logically, and work as a team to uncover the truth. Young Detectives will decode secret messages, analyze mysterious clues, break ciphers, and eliminate suspects using evidence and reasoning. From hidden messages to full-room mysteries, every day brings a new challenge that keeps kids moving, thinking, and collaborating.	Zach Duval, Heather Fontana
July 13-16	12:00-3:00	1, 2, 3	National Geographic Kids Researchers	What would it be like to explore the world's most incredible animals like a true National Geographic explorer? In this exciting camp, students will become wildlife researchers as they investigate amazing animals and discover how they adapt to survive in their environments. Each day, we'll focus on three animals from a different region of the world—Asia, Africa, North America, and South America—learning what they eat, where they live, who their predators are, and how they survive day to day. Through engaging videos, nonfiction reading, crafts, and themed games, campers will gather information to create their very own wildlife magazine inspired by National Geographic.	Stephanie Fox
July 13-16	12:00-3:00	4, 5, 6	Painting Journey	Do you love to paint and want to grow your skills? Have a favorite artist whose style you've always wanted to try? In this creative and exploratory class, students will experiment with a variety of painting styles—action painting, still life, abstract, realism, and more. You can choose the approach that inspires you most: paint from your own drawing, try preprinted designs, copy a favorite image, or jump right in with freehand painting. We'll explore different types of paints, brushes, and techniques while "stepping into the shoes" of well-known artists and creating art inspired by their unique styles.	Donna Crowley
July 13-16	12:00-3:00	1, 2, 3, 4	Pokemon Trainer Camp	Welcome to the Pokemon Trainer Camp, the best place for learning about all things Pokemon. Campers will participate in activities such as Pokemon quiz shows, Pokemon-themed art activities and learning more about the immense world of Pokemon. (*there will be no trading, please leave your cards at home*)	Robert Martin

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 13-16	12:00-3:00	5, 6, 7, 8	Sewing Studio	This class is designed for students who are new to sewing and want to learn both hand stitching and machine techniques. Students will become familiar with basic sewing tools and materials while practicing essential stitches and methods. Through guided projects, students will build confidence and develop problem-solving skills. By the end of the class, each student will complete a couple of daily-use projects to take home.	Bingjie Ding
July 13-16	12:00-3:00	3, 4, 5, 6, 7, 8	Stem Spark Lab	STEM Spark Lab is a hands-on, discovery-based camp where students explore science, technology, engineering, and math through fun experiments and creative challenges. Campers design, build, test, and problem-solve using age-appropriate projects that encourage curiosity, teamwork, and critical thinking. With a focus on exploration and learning by doing, this camp sparks creativity and confidence while making STEM exciting and accessible for all students—no prior experience needed.	Kavita Bhatia
July 13-16	12:00-3:00	1, 2, 3, 4	Summer Time Stress Relief	Welcome to Summer Time Stress Relief, a fun and relaxing camp where students will discover healthy ways to manage stress while enjoying exciting activities! Each day will include nature walks, exercise, arts and crafts, board and card games, and more. Campers will learn practical strategies and healthy habits for stress relief that they can use every day—all while having fun, making friends, and staying active. Join us for a week of relaxation, creativity, and summer fun!	Lauren Silbor
July 13-16	12:00-3:00	2, 3, 4	Water World	In Water World, students will spend the week making water-inspired crafts and trying hands-on activities like ocean slime, jellyfish sensory bottles, and colorful water art. They will also head outside to enjoy fun water games such as Sponge Relays, Water Balloon challenges and Squir Tag. This class is a playful way for kids to get creative, be active, and cool off in the summer sun. By the end of the week, they'll have had a mix of crafts, games, and unforgettable water-filled fun. Please note that students should bring a change of clothes, a towel and water shoes (if they have them, though these are not a necessity for the class).	Gillian Hohne and Lucinda Orne
July 13-16	12:00-3:00	1, 2, 3	Woodworking Basics	Calling all woodworkers! Come and learn the basics of woodworking. With this hands-on-class, you will learn how to sand, glue, and hammer to create daily wood inspired projects. Each day will focus on one skill to create a project that can be brought home. Please note these projects will vary from the projects offered last summer, so students are welcome to repeat the class. There is an additional \$15 materials fee added to the price of the class to cover the cost of wood.	Jillian Falvo
July 20-23	8:30-11:30	1, 2, 3	All about Space	Blast off into a week of space exploration! Students will learn about stars, moon phases, and the planets, explore Earth's atmosphere using Google Earth, and discover what astronauts and astronomers do. We'll keep space logs to record our learning, create fun space-themed crafts, and enjoy movement breaks throughout the week. Students will also watch Wall-E and determine which parts are scientifically accurate based on what we've learned.	Stephanie Fox
July 20-23	8:30-11:30	2, 3, 4, 5	Arts and Crafts Galore	Get ready for four mornings filled with creativity, imagination, and hands-on fun! In this open studio-style class, students will explore a wide variety of art materials and techniques while creating their own daily masterpieces. From painting and drawing to collage, friendship bracelets, clay creations, and more, there's something for every young artist to enjoy. With guided inspiration and plenty of room for choice, the possibilities are endless—what will you create?	Nicole Nye
July 20-23	8:30-11:30	5, 6, 7, 8	Beginner Cartoon and Line Drawing Class	Have you ever struggled with drawing for school projects, games, or greeting cards? This summer class makes drawing fun and easy. Students will learn to use simple lines, shapes, and colors to draw everyday objects they see around them. No experience needed—just bring your creativity and enjoy drawing with confidence!	Bingjie Ding
July 20-23	8:30-11:30	2, 3, 4	Build-it Bonanza	Let your imagination go wild! Build-it Bonanza offers a wide variety of building materials such as Lincoln Logs, Keva Planks, Knex, Magna tiles and more for creative designs and construction. We will have daily build challenges including a maze, the tallest structure, a marble run, a log cabin, and so much more! There will also be creative time for individual and team builds. Join us as we build, snack, run outside and build some more!	Maria Rydelek and Jessica Goldsmith
July 20-23	8:30-11:30	1, 2, 3	Crafting with nature	Come explore the wonders of nature in this hands-on class! Students will enjoy a nature scavenger hunt, create beautiful crafts using natural materials, and plant and decorate their very own flower pot to take home. We'll also learn about the fascinating life cycle of a butterfly and complete a fun, themed craft to bring the lesson to life. It's the perfect blend of creativity, exploration, and discovery!	Melissa Bentley
July 20-23	8:30-11:30	3, 4, 5	Crazy Cool Chemistry	How can we melt something without heat? Why does mixing baking soda and vinegar together make bubbles appear? What happens when a mentos mixes with Diet Coke? Learn about different elemental and chemical reactions in this crazy cool class! Students will get to take part in different experiments each day to see exactly how various objects and elements interact in our world and will get a chance to have hands on experience with different chemistry concepts (all kid friendly and safe).	Evan Flick

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 20-23	8:30-11:30	4, 5, 6, 7	Creative Construction Lab: Building with Plus-Plus	In this hands-on summer enrichment class, middle school students will explore design, engineering, and creativity using Plus-Plus building blocks. Students will begin by following step-by-step instructions and video tutorials to learn foundational building techniques and structural concepts. As the week progresses, they will gain increasing freedom to experiment, problem-solve, and design original creations. Through guided builds and open-ended challenges, students will practice spatial reasoning, perseverance, planning, and iteration. The class emphasizes creativity, collaboration, and learning from trial and error. The week concludes with a design showcase, where students present their creations and reflect on their building process. No prior building experience is required—just curiosity and creativity.	Stuart Grimes
July 20-23	8:30-11:30	1, 2, 3	Disney connections	Discover the real-world cultures behind your favorite Disney princesses and heroes! In this engaging class, students will explore the countries, traditions, and history that inspired beloved characters like Merida from Brave, Elsa and Anna, Hercules, and more. Through fun activities and cultural exploration, we'll connect storytelling to real places and people around the world—bringing a deeper understanding to the magic on screen.	Laura O'Donnell
July 20-23	8:30-11:30	2, 3, 4	Draw and Discover: Enchanted Realm	Step into a world full of adventure and imagination! Students will create amazing characters, fantastic creatures, and incredible scenes, bringing their own stories to life on the page. Each day is packed with fun challenges, playful ideas, and exciting projects that let students explore, invent, and fill their sketchbooks with bold, unforgettable creations. By the end of the class, they'll have a collection of original, eye-catching artwork that they'll be proud to show off!	Michelle Anderson
July 20-23	8:30-11:30	3, 4, 5, 6	Fairy Tale Theater	Fairy Tale Theater blends storytelling, drama, and art as children bring beloved fairy tales to life. Students explore characters, settings, and emotions through acting, costume creation, and performance. The class builds confidence, communication skills, and collaboration while encouraging imagination and expressive play. No prior performance experience is needed.	Karen Jose
July 20-23	8:30-11:30	2, 3, 4, 5	Fashion Designers	Get ready to design, create, and shine! We'll kick off the week by dreaming up our most elaborate outfits and accessories, sketching bold ideas and planning every detail. Throughout the week, students will bring their designs to life—cutting, crafting, building, and embellishing their unique creations. On the final day, we'll add the finishing touches and celebrate with a fabulous runway show where everyone gets to showcase their one-of-a-kind look!	Emma Keeley
July 20-23	8:30-11:30	5, 6, 7, 8	Field Hockey Fun	Are you interested in playing field hockey? Well we want you to come join us for some field hockey fun! We will be spending time learning new stick skills, exercises, drills, how to read the field and creating the most awesome corner plays. Please join me for the best week ever playing field hockey!	Lauren Silbor
July 20-23	8:30-11:30	1, 2	Gills and Thrills	In Gills and Thrills, students will dive deep into the fascinating world of ocean creatures! From the mighty blue whale to the tiniest seahorse, learners will explore the diets, habitats, behaviors, and adaptations of marine life. Through interactive hands-on activities, students will have the chance to craft their favorite ocean creatures, conduct exciting experiments, and uncover the mysteries of the deep blue sea. Whether it's learning about coral reefs, ocean ecosystems, or unique species, this class is packed with thrilling adventures for curious minds. Perfect for ocean lovers and those eager to discover the wonders beneath the waves!	Tracy Breslin
July 20-23	8:30-11:30	1, 2	Happy Campers 101	Join us for a week full of imaginative play and hands-on camping adventures! Students will learn essential camping skills, including pitching a two-person tent, building different types of shelters, and choosing the best spots to set up camp. Some projects will be small models to take home, while others will be practiced in the classroom. Campers will also explore knot tying, basic orienteering, and other fun outdoor skills—combining creativity, problem-solving, and teamwork in a playful learning environment.	Kara Pacheco
July 20-23	8:30-11:30	5, 6, 7, 8	Introduction to Anime	Dive into the exciting world of anime in this engaging class! Students will explore this popular art form by watching a variety of anime films and shows. After each viewing, we'll discuss the themes, unique art styles, and any other elements that captured their interest. This class is perfect for budding anime fans who want to deepen their appreciation and understanding of the genre.	Robert Martin
July 20-23	8:30-11:30	2, 3, 4	Jewelry Makers Studio	Jewelry Makers Studio invites students to design, create, and wear their own handmade jewelry using fun materials like glitter, buttons, magazines, shells, felt balls, and even zippers! Each day, children explore new techniques while rotating through hands-on stations. This creativity-packed enrichment builds fine motor skills, confidence, and imagination—plus students go home with a full collection of wearable art.	LeAnn Condon
July 20-23	8:30-11:30	1, 2, 3	Jungle Journey	Students will engage in a variety of activities throughout this rainforest themed week. Our daily schedule will include playful gross motor games, crafts, and mindful yoga practices. Students will listen to jungle animal stories, sing jungle animal songs, and explore the layers of the rainforest. Join in the fun to learn about the creatures of the tropical rainforest and their habitats.	Keri Giles

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 20-23	8:30-11:30	2, 3, 4, 5	Junkyard Crafts	Turn recycling into art! Join us for a super fun session where we'll use clean junk (egg cartons, paper rolls, boxes) to make incredible sculptures, wearable art, or musical instruments. Great for all ages, this class is perfect for sparking creativity and learning to see beauty in the unexpected!	Christine Morris/ Charlene Campbell
July 20-23	8:30-11:30	2, 3, 4	Little Hands, Big Creations - AM	Stitch, create, and build confidence in this hands-on sewing class! Students will work with felt, plastic canvas, fabric, plastic needles, thread, and buttons to complete fun, colorful projects. Along the way, they'll learn basic stitches, strengthen fine motor skills, and practice following step-by-step instructions. This class encourages creativity, patience, and pride in creating handmade projects from start to finish.	Sueli Machado Gibbs
July 20-23	8:30-11:30	5, 6, 7, 8	Meet the Artist	Break out your paint brushes and get ready to create your own masterpieces! Students will have a chance to discover their inner artist by exploring different painting techniques and mediums. Each artist will be given guidance and suggestions while they work to create unique paintings using watercolor and acrylic paints. At the end of the week, students will get to show off their talents in a gallery-style display.	Gillian Hohne and Lucinda Orne
July 20-23	8:30-11:30	3, 4, 5	Owl House Construction	Come learn how to build the perfect home for an owl! In this hands-on woodworking class, students will use basic building skills and tools to design and construct a safe, welcoming owl house. Along the way, we'll explore different types of nocturnal birds in our area, learn about their habitats and behaviors, and discover the best ways to attract owls to a backyard nesting space. This class blends nature study with practical skills, giving students the chance to create something meaningful while deepening their understanding of local wildlife.	Jillian Falvo
July 20-23	8:30-11:30	1, 2, 3	Paint Party	Calling all young artists! In this fun, hands-on class, students will start with the basics, then advance to canvas painting—either following preprinted designs or creating their very own masterpieces. Perfect for beginners and budding creatives, this class is all about exploring color, technique, and imagination while having a blast!	Cynthia Belanger
July 20-23	8:30-11:30	1, 2, 3	Peppa Pig's Party	Do you love Peppa Pig? Join us for a week of fun inspired by everyone's favorite pig! Campers will enjoy movement games, creative arts and crafts, simple science experiments, and imaginative activities themed around the beloved TV show. This class is filled with laughter, hands-on fun, and plenty of opportunities for kids to move, create, and explore—just like Peppa and her friends!	Skyler Acconcio and Tahnee Fallis Baril
July 20-23	8:30-11:30	3, 4, 5	Pokémon Adventure Camp	Calling all Pokémon Trainers! Get ready for a summer camp full of adventure, teamwork, and fun. Train and play to become the very best. Each day we will enjoy activities inspired by Pokémon, including: Pokémon Scavenger Hunt – Search for hidden Pokémon to fill your Pokédex. Pokémon Crafts– Design, color, and create your own Pokémon cards, puppets, bookmarks, and more! Game station – Learn how to play the card game using ready made decks or play a fun board game with new friends! No experience needed. Just bring your energy, kindness, and sense of adventure! At Pokémon Camp, everyone is a winner! (*there will be no trading, please leave your cards at home*)	Ruth Arroyo
July 20-23	8:30-11:30	2, 3, 4	Recess Games for Everyone	Get ready for a week full of classic elementary recess fun! Students will play favorite playground games like wall ball, four square, nitroball, switch, tag, jackpot, single and long jump rope, Chinese jump rope, hula hoops, kickball, and hopscotch. This active and energetic class is perfect for making new friends, staying active, and reliving the best games from recess—fun, laughter, and movement are guaranteed!	Amy Smith and Ally Boone
July 20-23	8:30-11:30	1, 2, 3	Roblox Comes to Life	Join us for a hands-on experience without screens! Through collaborative world-building inspired by games like Roblox and Minecraft, students learn creative planning, design thinking, teamwork, problem solving, and iteration. Each group develops a playable experience that then all students can enjoy! (please note, no video games will be played in this class)	David Munoz Juarez
July 20-23	8:30-11:30	1, 2, 3	Sculpting 101	Come and explore the fascinating world of sculpting. Students of all skill levels are welcome to experiment with various materials such as different types of clay, wire, paper and other objects, while making fun and exciting creations. Learn how these materials can be used to create anything you can imagine. As another form of creative expression, sculpting is a more hands-on art form, so dress accordingly as it can get messy. Come join us and prepare to get your hands dirty.	Donna Crowley
July 20-23	8:30-11:30	1, 2, 3, 4	Snacks Galore	Come spend your day mixing, measuring, and creating delicious treats while learning basic kitchen skills and teamwork. Each session is filled with hands-on fun as we try new recipes, explore flavors, and practice safe food preparation in a supportive, energetic environment. From sweet to savory snacks, everyone gets a chance to be creative, build confidence, and enjoy the satisfaction of making something tasty to share with friends. This class has an additional \$10 materials fee to cover the cost of food.	Robin Arena
July 20-23	8:30-11:30	3, 4, 5, 6	STEAM Explorers: Science You Can Touch	Does your child love hands-on, messy, and exciting science experiments? This class is perfect for curious kids who enjoy exploring, discovering, and experimenting! Students will create fun and fascinating experiments while practicing the skills real scientists use—observation, problem-solving, and critical thinking. Get ready for a week full of curiosity, creativity, and scientific adventure!	Zach Duval, Heather Fontana

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 20-23	8:30-11:30	3, 4, 5, 6, 7, 8	Strategic Minds Chess Camp	Strategic Minds Chess Camp is a fun and engaging chess program designed to build critical thinking, focus, and problem-solving skills through the game of chess. Students learn and practice core concepts such as piece movement, opening ideas, tactics, and simple strategies through interactive lessons, guided play, and friendly games. The camp is welcoming for both beginners and experienced players, with activities tailored to skill levels to help every child grow in confidence, patience, and strategic thinking in a supportive environment.	kavita bhatia
July 20-23	8:30-11:30	1, 2	Summer Olympics	Go for the gold in this fun, active, and engaging session! Your athletes will run, jump, and throw as they practice cooperation, teamwork, and have lots of fun! We'll learn about the history of the Olympic Games and play both classic Olympic sports and newer additions as we prepare for our own Summer Enrichment Olympics! Students should wear sneakers and sunscreen and should be sure to bring water.	Erin Burtnyk
July 20-23	8:30-11:30	1, 2	Summer Stories & Crafts	Welcome to Summer Stories & Crafts, a fun and creative camp for young learners! Each day, students will dive into exciting stories full of adventure, imagination, and friendship, then bring those tales to life with hands-on arts and crafts. Campers will enjoy interactive read-alouds and group discussions, creative craft projects, and activities that build fine motor skills, imagination, and confidence. This camp encourages listening, creativity, and teamwork, all while having fun and making new friends. Every day brings a new story and a new craft to take home!	Breana Hogan
July 20-23	8:30-11:30	2, 3, 4	Summer Time Games	Looking for a summer full of fun, friendship, and activity? This is the place to be! In this energetic class, students will enjoy a variety of hands-on activities including flying kites, shadow art, scavenger hunts, obstacle courses, water games, and more. We'll even design and play our very own fitness game! Come ready with your positive energy, big smiles, and sneakers	Annamarie Brackett
July 20-23	8:30-11:30	4, 5, 6	This is why	Do you ever wonder how things work, why things happen, or how everyday objects are made? In this hands-on class, students will explore the science behind the world around them, from everyday items to natural phenomena. Through interactive activities and fun experiments, campers will uncover the "why" behind how things work, sparking curiosity and a deeper understanding of science in daily life.	Jayalakshmi Pichai
July 20-23	8:30-11:30	4, 5, 6, 7, 8	Yarn-tastic Creations!	In this hands-on summer class, young crafters will explore the colorful and creative world of yarn! Using simple techniques like wrapping, weaving, finger knitting, tying, and looping, students will transform colorful yarn into fun and imaginative projects such as yarn snakes, pom-poms, woven bowls, yarn mandalas, and more!	Jennifer Bolt
July 20-23	12:00-3:00	1, 2, 3	All about Space	Blast off into a week of space exploration! Students will learn about stars, moon phases, and the planets, explore Earth's atmosphere using Google Earth, and discover what astronauts and astronomers do. We'll keep space logs to record our learning, create fun space-themed crafts, and enjoy movement breaks throughout the week. Students will also watch Wall-E and determine which parts are scientifically accurate based on what we've learned.	Stephanie Fox
July 20-23	12:00-3:00	5, 6, 7, 8	Beginner Cartoon and Line Drawing Class	Have you ever struggled with drawing for school projects, games, or greeting cards? This summer class makes drawing fun and easy. Students will learn to use simple lines, shapes, and colors to draw everyday objects they see around them. No experience needed—just bring your creativity and enjoy drawing with confidence!	Bingjie Ding
July 20-23	12:00-3:00	1, 2, 3	Bluey Bonanza	Love the show Bluey? Join us for a week of fun inspired by everyone's favorite playful pup! Students will enjoy movement games, creative arts and crafts, hands-on science experiments, and imaginative activities all themed around the world of Bluey. It's a week full of laughter, creativity, and playful learning—just like the show!	Skyler Acconcio and Tahnee Fallis Baril
July 20-23	12:00-3:00	3, 4	Cheer Motion and Movement	Get ready to move and cheer! This enrichment course introduces students to cheerleading through high-energy motions, chants, dance, and team-building activities. Students will work on coordination, confidence, and performance skills while learning what it means to be part of a team. This course does not include stunting or tumbling.	Nicole Baez
July 20-23	12:00-3:00	1, 2, 3	Crafting with nature	Come explore the wonders of nature in this hands-on class! Students will enjoy a nature scavenger hunt, create beautiful crafts using natural materials, and plant and decorate their very own flower pot to take home. We'll also learn about the fascinating life cycle of a butterfly and complete a fun, themed craft to bring the lesson to life. It's the perfect blend of creativity, exploration, and discovery!	Melissa Bentley
July 20-23	12:00-3:00	4, 5, 6	Crafts for All Seasons	Who doesn't love all the changes in the seasons? From the changes in weather, activities, nature, traditions, and more. The students will be crafting a different season daily, using a variety of materials. We will be using paint, canvas, clay, and some natural and recycled objects.	Gretchen Cotton
July 20-23	12:00-3:00	2, 3, 4	Creative Writing: Let The Page Rip	This is no ordinary writing class! Get ready to move, imagine, and unlock your creative voice. Students will find inspiration in everyday moments, explore powerful vocabulary, practice planning their ideas, and take bold risks in their writing. Through interactive activities, character role-play, and both indoor and outdoor experiences, creativity will come to life. This is an active, engaging class where writers don't just sit in chairs—they think, move, create, and share!	Liz Ushinski

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 20-23	12:00-3:00	1, 2, 3	Disney Connections	Discover the real-world cultures behind your favorite Disney princesses and heroes! In this engaging class, students will explore the countries, traditions, and history that inspired beloved characters like Merida from Brave, Elsa and Anna, Hercules, and more. Through fun activities and cultural exploration, we'll connect storytelling to real places and people around the world—bringing a deeper understanding to the magic on screen.	Laura Odonnell
July 20-23	12:00-3:00	3, 4, 5, 6	Fairy Tale Theater	Fairy Tale Theater blends storytelling, drama, and art as children bring beloved fairy tales to life. Students explore characters, settings, and emotions through acting, costume creation, and performance. The class builds confidence, communication skills, and collaboration while encouraging imagination and expressive play. No prior performance experience is needed.	Karen Jose
July 20-23	12:00-3:00	3, 4	Fort Building	In this hands-on, creativity-filled class, kids will work together to design and build their own forts using safe, kid-friendly materials like cardboard, blankets, cushions, and connectors. Students explore basic engineering and problem-solving skills as they plan structures that can stand, stretch, and shelter. Each session ends with time to enjoy the completed forts—reading, storytelling, or imaginative play inside their creations. No prior experience is needed—just curiosity, creativity, and a willingness to build!	Maria Rydelek and Jessica Goldsmith
July 20-23	12:00-3:00	3, 4, 5, 6, 7, 8	Game On! Brain & Board Games	Game On! Brain & Board Games is an engaging camp where students strengthen strategy, logic, and social skills through a curated mix of classic board games, modern strategy games, and brain challenges. Campers play games such as chess, Blokus, Sequence, Rush Hour, Clue, Catan, Ticket to Ride, Codenames, UNO and many more along with Sudoku, maze challenges, logic grids, and brain teasers. Through friendly competition, cooperative play, and individual challenges, students practice critical thinking, planning ahead, perseverance, and teamwork in a fun, interactive environment that makes learning through play both challenging and enjoyable.	Kavita Bhatia
July 20-23	12:00-3:00	1, 2	Gills and Thrills	In Gills and Thrills, students will dive deep into the fascinating world of ocean creatures! From the mighty blue whale to the tiniest seahorse, learners will explore the diets, habitats, behaviors, and adaptations of marine life. Through interactive hands-on activities, students will have the chance to craft their favorite ocean creatures, conduct exciting experiments, and uncover the mysteries of the deep blue sea. Whether it's learning about coral reefs, ocean ecosystems, or unique species, this class is packed with thrilling adventures for curious minds. Perfect for ocean lovers and those eager to discover the wonders beneath the waves!	Tracy Breslin
July 20-23	12:00-3:00	3, 4	Happy Campers 101	Join us for a week full of imaginative play and hands-on camping adventures! Students will learn essential camping skills, including pitching a two-person tent, building different types of shelters, and choosing the best spots to set up camp. Some projects will be small models to take home, while others will be practiced in the classroom. Campers will also explore knot tying, basic orienteering, and other fun outdoor skills—combining creativity, problem-solving, and teamwork in a playful learning environment.	Kara Pacheco
July 20-23	12:00-3:00	5, 6, 7, 8	Introduction to Anime	Dive into the exciting world of anime in this engaging class! Students will explore this popular art form by watching a variety of anime films and shows. After each viewing, we'll discuss the themes, unique art styles, and any other elements that captured their interest. This class is perfect for budding anime fans who want to deepen their appreciation and understanding of the genre.	Robert Martin
July 20-23	12:00-3:00	2, 3, 4	Jewelry Makers Studio	Jewelry Makers Studio invites students to design, create, and wear their own handmade jewelry using fun materials like glitter, buttons, magazines, shells, felt balls, and even zippers! Each day, children explore new techniques while rotating through hands-on stations. This creativity-packed enrichment builds fine motor skills, confidence, and imagination—plus students go home with a full collection of wearable art.	LeAnn Condon
July 20-23	12:00-3:00	5, 6, 7, 8	Jr. Toastmasters - Advanced level.	The objective of Jr. Toastmasters is to help you build the confidence you need to give presentations and speak in public so that you can become a better leader and communicator. By participating in Jr. Toastmasters, you will be able to practice these skills with others and get the feedback you need to improve. (Advanced) learning will include. Speech writing, introductions and conclusions.	Robert Koenig
July 20-23	12:00-3:00	2, 3, 4, 5	Junkyard Crafts	Turn recycling into art! Join us for a super fun session where we'll use clean junk (egg cartons, paper rolls, boxes) to make incredible sculptures, wearable art, or musical instruments. Great for all ages, this class is perfect for sparking creativity and learning to see beauty in the unexpected!	Christine Morris/ Charlene Campbell

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 20-23	12:00-3:00	6, 7, 8	LeadHERship	Welcome to LeadHERship Camp, one of Shrewsbury Youth and Family Services' most popular programs. This full-day program focuses on the concerns, hopes, dreams and goals of middle school girls by discussing the important changes they are experiencing during this critical time in their lives. They will learn how to strengthen their self-confidence, manage emotions, and communicate better with friends and family members. There will be plenty of practice in decision-making and problem-solving too! They will learn how being healthy will help them become the person they are meant to be. We have included ways to stay drug-free and help others stay drug-free. Finally, they will practice setting goals and thinking about ways to make the most of themselves!	Rebekah Rano
July 20-23	12:00-3:00	2, 3, 4	Little Hands, Big Creations - AM	Stitch, create, and build confidence in this hands-on sewing class! Students will work with felt, plastic canvas, fabric, plastic needles, thread, and buttons to complete fun, colorful projects. Along the way, they'll learn basic stitches, strengthen fine motor skills, and practice following step-by-step instructions. This class encourages creativity, patience, and pride in creating handmade projects from start to finish.	Sueli Machado Gibbs
July 20-23	12:00-3:00	3, 4, 5, 6	Mindful Makers Camp! Yoga and crafts	Taking care of our bodies and minds is the key to feeling our best! In this calming and creative class, students will explore simple, healthy habits through hands-on crafts, gentle yoga, and peaceful nature walks. Each day will feature relaxing and mindful activities such as creating a mini "zen garden," designing peacefulness jars, making dream catchers, and coloring intricate mandalas. Through movement, creativity, and time outdoors, students will build self-awareness, reduce stress, and learn fun strategies to support their overall well-being.	Emma Keeley
July 20-23	12:00-3:00	3, 4, 5	Owl House Construction	Come learn how to build the perfect home for an owl! In this hands-on woodworking class, students will use basic building skills and tools to design and construct a safe, welcoming owl house. Along the way, we'll explore different types of nocturnal birds in our area, learn about their habitats and behaviors, and discover the best ways to attract owls to a backyard nesting space. This class blends nature study with practical skills, giving students the chance to create something meaningful while deepening their understanding of local wildlife.	Jillian Falvo
July 20-23	12:00-3:00	1, 2, 3	Paint Party	Calling all young artists! In this fun, hands-on class, students will start with the basics, then advance to canvas painting—either following preprinted designs or creating their very own masterpieces. Perfect for beginners and budding creatives, this class is all about exploring color, technique, and imagination while having a blast!	Cynthia Belanger
July 20-23	12:00-3:00	3, 4, 5	Physics is Fun!	Become a physicist in this fun and hands on science class! Students will be conducting different physics based experiments and challenges to interact with the forces of our world. Learn about how scientists in our world today apply these physics into things such as construction, mechanical design, and even sports! Students will get a chance to take part in different design challenges using the knowledge they gain each day in class. Can you master gravity, magnetism, and more in this physics class!?	Evan Flick
July 20-23	12:00-3:00	3, 4, 5	Pokemon Adventure Camp	Calling all Pokémon Trainers! Get ready for a summer camp full of adventure, teamwork, and fun. Train and play to become the very best. Each day we will enjoy activities inspired by Pokémon, including: Pokémon Scavenger Hunt – Search for hidden Pokémon to fill your Pokédex. Pokémon Crafts– Design, color, and create your own Pokémon cards, puppets, bookmarks, and more! Game station – Learn how to play the card game using ready made decks or play a fun board game with new friends! No experience needed. Just bring your energy, kindness, and sense of adventure! At Pokémon Camp, everyone is a winner! (*there will be no trading, please leave your cards at home*)	Ruth Arroyo
July 20-23	12:00-3:00	2, 3, 4	Recess Games for Everyone	Get ready for a week full of classic elementary recess fun! Students will play favorite playground games like wall ball, four square, nitroball, switch, tag, jackpot, single and long jump rope, Chinese jump rope, hula hoops, kickball, and hopscotch. This active and energetic class is perfect for making new friends, staying active, and reliving the best games from recess—fun, laughter, and movement are guaranteed!	Amy Smith and Ally Boone
July 20-23	12:00-3:00	4, 5, 6	Roblox Comes to Life	Join us for a hands-on experience without screens! Through collaborative world-building inspired by games like Roblox and Minecraft, students learn creative planning, design thinking, teamwork, problem solving, and iteration. Each group develops a playable experience that then all students can enjoy! (please note, no video games will be played in this class)	David Munoz Juarez
July 20-23	12:00-3:00	4, 5, 6	Sculpting 101	Come and explore the fascinating world of sculpting. Students of all skill levels are welcome to experiment with various materials such as different types of clay, wire, paper and other objects, while making fun and exciting creations. Learn how these materials can be used to create anything you can imagine. As another form of creative expression, sculpting is a more hands-on art form, so dress accordingly as it can get messy. Come join us and prepare to get your hands dirty.	Donna Crowley

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 20-23	12:00-3:00	1, 2, 3, 4	Snack Galore	Come spend your day mixing, measuring, and creating delicious treats while learning basic kitchen skills and teamwork. Each session is filled with hands-on fun as we try new recipes, explore flavors, and practice safe food preparation in a supportive, energetic environment. From sweet to savory snacks, everyone gets a chance to be creative, build confidence, and enjoy the satisfaction of making something tasty to share with friends. This class has an additional \$10 materials fee to cover the cost of food.	Robin Arena
July 20-23	12:00-3:00	3, 4, 5, 6	STEAM Explorers: Science You Can Touch PM	Does your child love hands-on, messy, and exciting science experiments? This class is perfect for curious kids who enjoy exploring, discovering, and experimenting! Students will create fun and fascinating experiments while practicing the skills real scientists use—observation, problem-solving, and critical thinking. Get ready for a week full of curiosity, creativity, and scientific adventure!	Zach Duval, Heather Fontana
July 20-23	12:00-3:00	3, 4, 5	Summer Olympics	Go for the gold in this fun, active, and engaging session! Your athletes will run, jump, and throw as they practice cooperation, teamwork, and have lots of fun! We'll learn about the history of the Olympic Games and play both classic Olympic sports and newer additions as we prepare for our own Summer Enrichment Olympics! Students should wear sneakers and sunscreen and should be sure to bring water.	Erin Burtnyk
July 20-23	12:00-3:00	1, 2	Summer Stories & Crafts	Welcome to Summer Stories & Crafts, a fun and creative camp for young learners! Each day, students will dive into exciting stories full of adventure, imagination, and friendship, then bring those tales to life with hands-on arts and crafts. Campers will enjoy interactive read-alouds and group discussions, creative craft projects, and activities that build fine motor skills, imagination, and confidence. This camp encourages listening, creativity, and teamwork, all while having fun and making new friends. Every day brings a new story and a new craft to take home!	Breana Hogan
July 20-23	12:00-3:00	2, 3, 4	Summer Time Games	Looking for a summer full of fun, friendship, and activity? This is the place to be! In this energetic class, students will enjoy a variety of hands-on activities including flying kites, shadow art, scavenger hunts, obstacle courses, water games, and more. We'll even design and play our very own fitness game! Come ready with your positive energy, big smiles, and sneakers	Anmarie Brackett
July 20-23	12:00-3:00	1, 2, 3, 4	Summer Time Stress Relief	Welcome to Summer Time Stress Relief, a fun and relaxing camp where students will discover healthy ways to manage stress while enjoying exciting activities! Each day will include nature walks, exercise, arts and crafts, board and card games, and more. Campers will learn practical strategies and healthy habits for stress relief that they can use every day—all while having fun, making friends, and staying active. Join us for a week of relaxation, creativity, and summer fun!	Lauren Silbor
July 20-23	12:00-3:00	4, 5, 6	This is why	Do you ever wonder how things work, why things happen, or how everyday objects are made? In this hands-on class, students will explore the science behind the world around them, from everyday items to natural phenomena. Through interactive activities and fun experiments, campers will uncover the "why" behind how things work, sparking curiosity and a deeper understanding of science in daily life.	Jayalakshmi Pichai
July 20-23	12:00-3:00	5, 6, 7, 8	Water World	In Water World, students will spend the week making water-inspired crafts and trying hands-on activities like ocean slime, jellyfish sensory bottles, and colorful water art. They will also head outside to enjoy fun water games such as Sponge Relays, Water Balloon challenges and Squirt Tag. This class is a playful way for kids to get creative, be active, and cool off in the summer sun. By the end of the week, they'll have had a mix of crafts, games, and unforgettable water-filled fun. Please note that students should bring a change of clothes, a towel and water shoes (if they have them, though these are not a necessity for the class).	Gillian Hohne and Lucinda Orne
July 20-23	12:00-3:00	4, 5, 6, 7, 8	Watercolors 101: Beautiful Blooms	This beginner-friendly class is the perfect introduction to watercolor painting! Students will learn essential skills like mixing colors, blending shades, layering, and basic brush techniques—all while creating beautiful floral artwork. Each session is hands-on, fun, and full of guidance, giving students the confidence to explore their creativity and try new techniques. By the end of the class, students will have developed their painting skills, discovered the joy of working with watercolors, and taken home colorful masterpieces they can be proud of!	Michelle Anderson
July 20-23	12:00-3:00	4, 5, 6, 7, 8	Yarn-tastic Creations!	In this hands-on summer class, young crafters will explore the colorful and creative world of yarn! Using simple techniques like wrapping, weaving, finger knitting, tying, and looping, students will transform colorful yarn into fun and imaginative projects such as yarn snakes, pom-poms, woven bowls, yarn mandalas, and more!	Jennifer Bolt
July 27-30	8:30-11:30	3, 4, 5	3D Canvas Art	Unleash your creativity in three dimensions! In this exciting enrichment class, young artists will move beyond flat paper to explore art with height, width, and depth, learning to create amazing sculptures and 3D paintings. We'll use various materials like paint, clay, paper, cardboard, and even recycled items to build unique creations, inspired by artists who worked in 3D. We will show our Artistic creations in an art show at the end of the week.	Christine Morris Charlene Campbell

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 27-30	8:30-11:30	5, 6, 7, 8	Beginner Archery	National Archery in the Schools Program (NASP) integrates archery skills in a curriculum designed for grades 5-7, teaching discipline, focus, and self-control through standardized instruction and safe age appropriate equipment intended to benefit students' academic performance and confidence while promoting a lifelong sport. Students will learn about the history of archery, archery safety procedures, and participate in games and activities related to safe archery range target and scoring. No prior experience is necessary to be successful in learning archery skills.	Jeffrey Lane
July 27-30	8:30-11:30	1, 2, 3	Birds of a feather	Let's flock together for an exciting journey into the amazing world of birds! In this interactive class, students will explore the origins of birds—including the surprising connection between modern birds and the mighty T-Rex. We'll discover powerful raptors, colorful songbirds, and some of the most unusual birds on the planet. Which birds have wings but can't fly? Do all birds build nests? Which are the biggest and smallest? Do all birds sing? Through fun discussions and hands-on activities, students will uncover the answers to these questions and more while gaining a deeper appreciation for our fabulous, feathered friends.	Donna Crowley
July 27-30	8:30-11:30	2, 3, 4	Bucket Drumming	Using 5-gallon buckets as drums, we will create music using rhythmic patterns, coordination, and teamwork. Through solo playing and drum circles we will learn different bucket sounds, and play along to music, building confidence and musical skills. Participants learn basic stick techniques, rhythms, and improvisation, fostering creativity, listening, and group collaboration.	Jillian Falvo
July 27-30	8:30-11:30	2, 3, 4	Build-it Bonanza	Let your imagination go wild! Build-it Bonanza offers a wide variety of building materials such as Lincoln Logs, Keva Planks, Knex, Magna tiles and more for creative designs and construction. We will have daily build challenges including a maze, the tallest structure, a marble run, a log cabin, and so much more! There will also be creative time for individual and team builds. Join us as we build, snack, run outside and build some more!	Maria Rydelek and Jessica Goldsmith
July 27-30	8:30-11:30	2, 3, 4	Calling All K-Pop Demon Hunters	KPop Demon Hunter fans, we need you! Spend the week with us as we learn about the characters, music, and movie that became a global sensation. Campers will be given demon-hunting missions including hide-and-seek, music bingo, and scavenger hunts. We will make Demon Hunter crafts, choreograph dances and sing along to our favorite songs. If you are a Demon Hunter fan, this class is for you!	Amy Smith and Ally Boone
July 27-30	8:30-11:30	2, 3, 4	Can you Solve It?	Are you a team player? In this class we will collaborate with other students to solve puzzles, answer trivia questions, and figure out how to work together. Students will participate in activities individually and as part of a team both inside and outside. Are you good at 20 questions? Can you keep a secret? Do you have a good memory? We will be playing some old school games such as Clue, Battleship, and Ker Plunk. Please join us for a week of giggles, imagination, and most of all having fun! Please bring your positive energy, smiles and sneakers.	Annmare Brackett
July 27-30	8:30-11:30	3, 4, 5, 6, 7, 8	Chess Carnival: Fun and Variations Galore	Chess Carnival: Fun & Variations Galore is an exciting and engaging camp designed for students to explore the world of chess in a fun and creative way! Perfect for beginners and experienced players alike, this camp combines traditional chess with exciting variations like Atomic Chess, Life-Size Chess, Dice Chess, and Zombie Chess. Through dynamic activities, team challenges, and puzzles, kids will sharpen their critical thinking, strategy, and teamwork skills—all while having a blast! Led by experienced instructors, including a USCF Certified Chess Coach, this camp promises a week of fun, learning, and unforgettable memories. Let the chess adventures begin!	kavita Bhatia
July 27-30	8:30-11:30	2, 3, 4	Clay Beads and Jewelry making	Join us for a fun and creative summer jewelry-making class! Students will work hands-on with a variety of materials including colorful beads, thread, and clay to design personalized, unique bracelets, rings, necklaces, and more. Basic techniques will be taught step by step, making this class perfect for beginners and experienced makers. Come explore your creativity and create one-of-a-kind wearable art to take home.	Bingjie Ding
July 27-30	8:30-11:30	4, 5, 6	Crafts for All Seasons	Who doesn't love all the changes in the seasons? From the changes in weather, activities, nature, traditions, and more. The students will be crafting a different season daily, using a variety of materials. We will be using paint, canvas, clay, and some natural and recycled objects.	Gretchen Cotton
July 27-30	8:30-11:30	3, 4, 5	Dare to Dream	Learn about the history behind dream catchers. Put your imagination and creativity into the beautiful art behind dream catchers and the magic of dreaming.	Laura odonnell
July 27-30	8:30-11:30	1, 2, 3	Disney Week	Welcome to Disney week! During this week of camp we will have various activities centered all around Disney. We will learn who Walt Disney was and how he created some of the most memorable cartoons and movies of all time. We will make themed crafts, play games, read books, test our Disney music knowledge, sing karaoke and more! We will be making some Disney themed tasty treats in this class as well. We will watch Rataouille over the course of the week as well and learn some behind the scenes footage of how the movie was made.	Stephanie Fox

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 27-30	8:30-11:30	1, 2, 3	Earth explorers	Campers will explore the wonders of our world as they learn about land, water, habitats, and how people live in different places around the globe. Through hands-on, interactive activities, students will build a deeper understanding of Earth while having fun with engaging games, creative crafts, and meaningful exploration. It's an exciting way to learn about our planet and the people who call it home!	Melissa Bentley
July 27-30	8:30-11:30	1, 2, 3	Exploring light	Light travels through objects in fascinating ways! In this hands-on camp, students will explore the science of light through creative art projects and engaging experiments. We'll investigate reflection, refraction, shadows, and color both indoors and outdoors, discovering how light shapes the world around us.	Allison O'Neill
July 27-30	8:30-11:30	1, 2	Happy Feet	Get ready to dance all week long! In this energetic class, students will learn and practice a new popular line dance each day. They'll also have the chance to create and perform their own line dances with friends, building confidence, rhythm, and teamwork while having a blast on the dance floor!	Kara Pacheco
July 27-30	8:30-11:30	3, 4, 5	Junior Innovators Lab	Welcome to the Junior Innovators Lab. Step into a place where your ideas can come to life and curiosity leads the way! In the Junior Innovators Lab, kids become inventors, builders, and problem-solvers as they design, create, and test amazing things. Each day is a new mission- maybe building the tallest tower, creating a machine that helps people, or solving a tricky challenge using everyday materials. There is no right answer here- just big thinking, teamwork, and lots of experimenting.	Molly Bates and Kasey Cooney
July 27-30	8:30-11:30	2, 3, 4	Kindness Project	The Kindness Project helps children explore empathy, generosity, and teamwork through fun, creative, and hands-on activities. Students will complete small acts of kindness, create gifts and cards, and reflect on the power of positive actions. Each day combines movement, collaborative projects, and take-home crafts to inspire kids to spread kindness in their communities.	LeAnn Condon
July 27-30	8:30-11:30	5, 6, 7, 8	Lawn Games League: Cornhole, Kubb, and CanJam	In this active summer enrichment class, middle school students will learn, practice, and compete in three popular lawn games: Cornhole (Bean Bag Toss), Kubb (a Scandinavian strategy game), and CanJam (a fast-paced frisbee target game). Students will explore game rules, scoring systems, throwing techniques, teamwork, and strategy. Throughout the week, students will rotate through games, analyze tactics, practice sportsmanship, and build confidence in a fun, low-pressure environment. The class culminates in a friendly tournament where students apply their skills and strategies while emphasizing teamwork, respect, and fair play. No prior experience is required—just enthusiasm and a willingness to play.	Stuart Grimes
July 27-30	8:30-11:30	3, 4, 5, 6	Maker Madness: Build, Design & Create AM	Get ready to imagine, build, and create! Maker Madness is a hands-on adventure where kids become inventors, designers, and builders using everyday materials and big ideas. Over four exciting days, students will tackle creative challenges, experiment with designs, and turn simple supplies into amazing creations. From fast-paced build challenges to inventing clever solutions to real-world problems, kids will learn that it's okay to test, fail, fix, and try again. Every project encourages creativity, teamwork, and problem-solving—no two creations will ever be the same!	Zach Duval, Heather Fontana
July 27-30	8:30-11:30	4, 5, 6	Making Magic	Step into the world of wonder! In this engaging class, students will explore the art of magic by watching exciting tricks and then learning how to perform them themselves. From sleight-of-hand card tricks to fun illusions, students will practice skills that build confidence, creativity, and showmanship. Throughout the week, students will rehearse, refine, and master their tricks—and on the final day, they'll take center stage in a Tabletop Magic Showcase, performing for visiting peers and teachers as guests move from table to table to experience the magic up close. Get ready to amaze, surprise, and have a magical time!	Gillian Hohne and Lucinda Orne
July 27-30	8:30-11:30	3, 4	Map Masters	Ever wondered how explorers always knew where they were going? Students in this class will learn the secrets of maps, practice following directions, and master the trusty compass. With each activity, they'll turn confusion into adventure and every "lost" moment into a chance to discover something new.	Cynthia Belanger
July 27-30	8:30-11:30	1, 2, 3	Messi vs. Ronaldo	Are you a fan of Messi or Ronaldo? Students will dive into the world of their favorite soccer stars through coloring, watching highlights, and—most importantly—playing soccer themselves! They'll practice their skills, show off their best moves, and learn the value of teamwork while making new friends on and off the field.	David Munoz Juarez
July 27-30	8:30-11:30	1, 2, 3	Messy Masterpieces	Kids will have the opportunity to participate in fun hands-on art experiences such as bubble painting, shaving cream rainbow art, ooblek creations, truck track color splats, and more! This camp is perfect for young artists who enjoy experimenting with colors and textures. Each day encourages creativity while building fine motor skills in a joyful, supportive environment.	Ruth Arroyo

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 27-30	8:30-11:30	3, 4, 5, 6	Mindful Makers Camp! Yoga and crafts	Taking care of our bodies and minds is the key to feeling our best! In this calming and creative class, students will explore simple, healthy habits through hands-on crafts, gentle yoga, and peaceful nature walks. Each day will feature relaxing and mindful activities such as creating a mini "zen garden," designing peacefulness jars, making dream catchers, and coloring intricate mandalas. Through movement, creativity, and time outdoors, students will build self-awareness, reduce stress, and learn fun strategies to support their overall well-being.	Emma Keeley
July 27-30	8:30-11:30	5, 6	Minecraft Makers	Join us for a creative adventure in Minecraft Education Edition! Each day, students will tackle exciting build challenges while learning powerful in-game tools. Along the way, they'll sharpen problem-solving skills, collaborate with teammates, and bring their imaginations to life—one block at a time. No experience needed—just curiosity and a love of building!	Karen Goudreau, Ariel Sloan
July 27-30	8:30-11:30	6, 7, 8	Ocean Frontiers	Dive deep into the fascinating world of ocean ecology! In this hands-on science camp, students will explore a variety of marine ecosystems and discover how different organisms are uniquely adapted to survive and thrive in their environments. Each day will highlight a new marine habitat as students investigate the physical features and behaviors that help ocean animals succeed. Through guided dissections of clams, squid, and fish, students will examine how form fits function and gain a deeper understanding of marine biology. Perfect for ocean enthusiasts and curious scientists alike, this week is packed with engaging labs, meaningful exploration, and unforgettable underwater discoveries!	Jennifer Girardi
July 27-30	8:30-11:30	2, 3, 4	Pottery Tales	Watch it. Imagine it. Create it! Get ready to get your hands messy and your imagination soaring! Each day, kids will watch a short story on the SmartBoard to spark creativity from their favorite tales, then bring their characters, scenes, and magical objects to life with clay and paint. Students will explore texture, shape, and techniques by experimenting and discovering their own artistic style along the way. The week will end with a fun mini gallery walk where students share their creations and take home their unique treasures.	Michelle Anderson
July 27-30	8:30-11:30	1, 2, 3, 4	Rainbow Kitchen	Rainbow Kitchen is a joyful, hands-on cooking and food exploration class designed especially for young learners. Children will explore fruits, vegetables, and simple ingredients through color, taste, and texture while learning foundational kitchen skills in a safe and supportive environment. Each day focuses on a different color group, helping children understand nutrition, practice following directions, and build confidence in the kitchen. Through tasting, sorting, counting, and creating, students strengthen fine motor skills, early math concepts, and healthy eating habits—all while having fun. Rainbow Kitchen is a perfect blend of learning, creativity, and delicious discovery.	Karen Jose
July 27-30	8:30-11:30	2, 3, 4	Stitch & Style creations	Stitch Your Style is a hands-on sewing class where students will learn both basic and intermediate skills while creating fun, functional projects. Using felt, fabrics, threads, needles, buttons, velcro, and simple patterns, students will follow step-by-step directions to make items like headbands, bracelets, purses, and more. This class encourages creativity, builds focus and confidence, and results in beautiful handmade creations that students can proudly use or share.	Sueli Machado Gibbs
July 27-30	8:30-11:30	3, 4, 5	Summer Olympics	Go for the gold in this fun, active, and engaging session! Your athletes will run, jump, and throw as they practice cooperation, teamwork, and have lots of fun! We'll learn about the history of the Olympic Games and play both classic Olympic sports and newer additions as we prepare for our own Summer Enrichment Olympics! Students should wear sneakers and sunscreen and should be sure to bring water.	Erin Burntyk
July 27-30	8:30-11:30	5, 6, 7, 8	Whose Class is it Anyway?	Improv skills are valuable—and practicing them can be a ton of fun! In this lively class, students will play a variety of classic improvisation games that teach quick thinking, creativity, and confidence. Through laughter, teamwork, and playful challenges, they'll learn to think on their feet while having a blast!	Robert Martin
July 27-30	12:00-3:00	3, 4, 5	3D Canvas Art	Unleash your creativity in three dimensions! In this exciting enrichment class, young artists will move beyond flat paper to explore art with height, width, and depth, learning to create amazing sculptures and 3D paintings. We'll use various materials like paint, clay, paper, cardboard, and even recycled items to build unique creations, inspired by artists who worked in 3D. We will show our Artistic creations in an art show at the end of the week.	Christine Morris Charlene Campbell
July 27-30	12:00-3:00	5, 6, 7, 8	Beginner Archery	National Archery in the Schools Program (NASP) integrates archery skills in a curriculum designed for grades 5-7, teaching discipline, focus, and self-control through standardized instruction and safe age appropriate equipment intended to benefit students' academic performance and confidence while promoting a lifelong sport. Students will learn about the history of archery, archery safety procedures, and participate in games and activities related to safe archery range target and scoring. No prior experience is necessary to be successful in learning archery skills.	Jeffrey Lane

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 27-30	12:00-3:00	3, 4, 5	Birds of a Feather	Let's flock together for an exciting journey into the amazing world of birds! In this interactive class, students will explore the origins of birds—including the surprising connection between modern birds and the mighty T-Rex. We'll discover powerful raptors, colorful songbirds, and some of the most unusual birds on the planet. Which birds have wings but can't fly? Do all birds build nests? Which are the biggest and smallest? Do all birds sing? Through fun discussions and hands-on activities, students will uncover the answers to these questions and more while gaining a deeper appreciation for our fabulous, feathered friends.	Donna Crowley
July 27-30	12:00-3:00	2, 3, 4	Board Game Designers!	Get ready to become a game designer! In this creative, hands-on class, students will brainstorm original ideas, design game boards and rules, build prototypes, and test their creations through play. Along the way, they'll refine their strategies and make improvements to ensure their game is as fun as possible. By the end of the week, each student will take home a fully playable board game to share with friends and family!	Emma keeley
July 27-30	12:00-3:00	2, 3, 4	Bucket Drumming	Using 5-gallon buckets as drums, we will create music using rhythmic patterns, coordination, and teamwork. Through solo playing and drum circles we will learn different bucket sounds, and play along to music, building confidence and musical skills. Participants learn basic stick techniques, rhythms, and improvisation, fostering creativity, listening, and group collaboration.	Jillian Falvo
July 27-30	12:00-3:00	2, 3, 4	Calling All KPop Demon Hunters	KPop Demon Hunter fans, we need you! Spend the week with us as we learn about the characters, music, and movie that became a global sensation. Campers will be given demon-hunting missions including hide-and-seek, music bingo, and scavenger hunts. We will make Demon Hunter crafts, choreograph dances and sing along to our favorite songs. If you are a Demon Hunter fan, this class is for you!	Amy Smith and Ally Boone
July 27-30	12:00-3:00	2, 3, 4	Can You Solve It?	Are you a team player? In this class we will collaborate with other students to solve puzzles, answer trivia questions, and figure out how to work together. Students will participate in activities individually and as part of a team both inside and outside. Are you good at 20 questions? Can you keep a secret? Do you have a good memory? We will be playing some old school games such as Clue, Battleship, and Ker Plunk. Please join us for a week of giggles, imagination, and most of all having fun! Please bring your positive energy, smiles and sneakers.	Anmarie Brackett
July 27-30	12:00-3:00	2, 3, 4	Clay Beads and Jewelry making	Join us for a fun and creative summer jewelry-making class! Students will work hands-on with a variety of materials including colorful beads, thread, and clay to design personalized, unique bracelets, rings, necklaces, and more. Basic techniques will be taught step by step, making this class perfect for beginners and experienced makers. Come explore your creativity and create one-of-a-kind wearable art to take home.	Bingjie Ding
July 27-30	12:00-3:00	3, 4, 5	Dare to Dream	Learn about the history behind dream catchers. Put your imagination and creativity into the beautiful art behind dream catchers and the magic of dreaming.	Laura Odonnell
July 27-30	12:00-3:00	1, 2, 3	Disney Week	Welcome to Disney week! During this week of camp we will have various activities centered all around Disney. We will learn who Walt Disney was and how he created some of the most memorable cartoons and movies of all time. We will make themed crafts, play games, read books, test our Disney music knowledge, sing karaoke and more! We will be making some Disney themed tasty treats in this class as well. We will watch Rataouille over the course of the week as well and learn some behind the scenes footage of how the movie was made.	Stephanie Fox
July 27-30	12:00-3:00	1, 2, 3	Earth explorers	Campers will explore the wonders of our world as they learn about land, water, habitats, and how people live in different places around the globe. Through hands-on, interactive activities, students will build a deeper understanding of Earth while having fun with engaging games, creative crafts, and meaningful exploration. It's an exciting way to learn about our planet and the people who call it home!	Melissa Bentley
July 27-30	12:00-3:00	3, 4, 5	Ecosystem Explorers	Get ready to step outside the classroom and into the wild! This isn't just a science class—it's an outdoor adventure. Every day is a new expedition where we'll dive into the mysteries of our local environment. We'll hunt for 'micro-monsters' in the dirt, splash into water ecology, and climb into the secrets of the forest. We spend half of our time exploring the great outdoors and the other half using our hands to create wild art! If you love getting your hands dirty and your imagination fired up, this is the trek for you!	Jennifer Girardi
July 27-30	12:00-3:00	1, 2, 3	Exploring light	Light travels through objects in fascinating ways! In this hands-on camp, students will explore the science of light through creative art projects and engaging experiments. We'll investigate reflection, refraction, shadows, and color both indoors and outdoors, discovering how light shapes the world around us.	Allison O'Neill

Dates	Time	Grade in September	Class Name	Class Description	Teachers
July 27-30	12:00-3:00	5, 6, 7	Express Yourself	In this group, rising 5th, 6th, and 7th graders will embark on a journey of self-reflection, expression, and emotional growth through a blend of art forms and therapeutic practices. Participants will explore their thoughts, feelings, and experiences using visual arts, performing arts, and creative writing, while learning healthy, effective ways to process and express challenging emotions. At the end of the week, group members will have the opportunity to share their creations with one another, offering a chance to learn from each other and create a supportive space for both personal growth and connection with each other.	Rebekah Rano
July 27-30	12:00-3:00	3, 4	Fort Building	In this hands-on, creativity-filled class, kids will work together to design and build their own forts using safe, kid-friendly materials like cardboard, blankets, cushions, and connectors. Students explore basic engineering and problem-solving skills as they plan structures that can stand, stretch, and shelter. Each session ends with time to enjoy the completed forts—reading, storytelling, or imaginative play inside their creations. No prior experience is needed—just curiosity, creativity, and a willingness to build!	Maria Rydelek and Jessica Goldsmith
July 27-30	12:00-3:00	1, 2, 3	Friendship Factory	Join us for a fun, hands-on 4-day adventure where kids discover the magic of friendship! Through creative art, cooperative games, movement challenges, and imaginative storytelling, children will learn to share, cooperate, show kindness, and build strong friendships. Each day is packed with exciting activities, teamwork challenges, and opportunities to celebrate friendship in a safe, supportive, and playful environment.	LeAnn Condon
July 27-30	12:00-3:00	3, 4	Happy Feet	Get ready to dance all week long! In this energetic class, students will learn and practice a new popular line dance each day. They'll also have the chance to create and perform their own line dances with friends, building confidence, rhythm, and teamwork while having a blast on the dance floor!	Kara Pacheco
July 27-30	12:00-3:00	5, 6, 7, 8	Jr. Toastmasters - Advanced level.	The objective of Jr. Toastmasters is to help you build the confidence you need to give presentations and speak in public so that you can become a better leader and communicator. By participating in Jr. Toastmasters, you will be able to practice these skills with others and get the feedback you need to improve. (Advanced) learning will included. Speech writing, introductions and conclusions.	Robert Koenig
July 27-30	12:00-3:00	3, 4, 5	Junior Innovators Lab	Welcome to the Junior Innovators Lab. Step into a place where your ideas can come to life and curiosity leads the way! In the Junior Innovators Lab, kids become inventors, builders, and problem-solvers as they design, create, and test amazing things. Each day is a new mission- maybe building the tallest tower, creating a machine that helps people, or solving a tricky challenge using everyday materials. There is no right answer here- just big thinking, teamwork, and lots of experimenting.	Molly Bates and Kasey Cooney
July 27-30	12:00-3:00	3, 4, 5, 6	Maker Madness: Build, Design & Create PM	Get ready to imagine, build, and create! Maker Madness is a hands-on adventure where kids become inventors, designers, and builders using everyday materials and big ideas. Over four exciting days, students will tackle creative challenges, experiment with designs, and turn simple supplies into amazing creations. From fast-paced build challenges to inventing clever solutions to real-world problems, kids will learn that it's okay to test, fail, fix, and try again. Every project encourages creativity, teamwork, and problem-solving—no two creations will ever be the same!	Zach Duval, Heather Fontana
July 27-30	12:00-3:00	5, 6	Map Masters	Ever wondered how explorers always knew where they were going? Students in this class will learn the secrets of maps, practice following directions, and master the trusty compass. With each activity, they'll turn confusion into adventure and every "lost" moment into a chance to discover something new.	Cynthia Belanger
July 27-30	12:00-3:00	3, 4, 5, 6, 7, 8	Math Mania	Math Mania is a fun and interactive camp where students build confidence and strengthen math skills through games, challenges, and hands-on activities. Campers learn useful math shortcuts and mental math strategies, compete in Math Jeopardy and trivia-style games, and solve engaging puzzles that reinforce problem-solving and number sense. With a lively, game-based approach, this camp makes math exciting, approachable, and enjoyable while helping students think faster and smarter—no pressure, just learning through play.	Kavita Bhatia
July 27-30	12:00-3:00	4, 5, 6	Messi vs. Ronaldo	Are you a fan of Messi or Ronaldo? Students will dive into the world of their favorite soccer stars through coloring, watching highlights, and—most importantly—playing soccer themselves! They'll practice their skills, show off their best moves, and learn the value of teamwork while making new friends on and off the field.	David Munoz Juarez
July 27-30	12:00-3:00	1, 2, 3	Messy Masterpieces	Kids will have the opportunity to participate in fun hands-on art experiences such as bubble painting, shaving cream rainbow art, ooblek creations, truck track color splats, and more! This camp is perfect for young artists who enjoy experimenting with colors and textures. Each day encourages creativity while building fine motor skills in a joyful, supportive environment.	Ruth Arroyo
