

Given the nature of school right now and the restrictions placed upon schools with regards to large groups assembling, and uncertainty moving into the winter, the District 99 English Departments will not be offering/requiring the Honors English placement essay like in previous years. We will continue to rely upon any/all data we receive from the sender school as well as the teacher recommendation. We appreciate your understanding given the constraints placed upon us this year. If you/your student is interested in honors, they should be sure to communicate that with their current 8th-grade teacher.
