### **Donation makes a big difference for children with disabilities**

To the editor:

The Downers Grove North High School Special Services Multi-needs Program would like to publicly thank the Bonfield Express Foundation for their generous donation to support our community-based learning program. Through this donation, students with moderate to severe disabilities will be able to practice important life skills in the Downers Grove North community instead of in isolation in a classroom.

We appreciate the foundation for being inclusive of all students and recognizing the importance of community-based instruction and learning for students with disabilities. Also, we are thrilled the Bonfield Express Foundation is looking at our whole school community to find ways to provide opportunities for students.

The Downers Grove North High School

Special Services Multi-needs Program is honored to be a part of the wonderful work the Bonfield Express Foundation does for so many students in District 99 and thanks them for their generosity in providing learning opportunities for our students.
