Accelerated Degree Program
Student Health Forms
Required by New York State Public Health Law

Return completed forms in enclosed envelope to:
Concordia College New York
Attn: Student Health Center
171 White Plains Rd
Bronxville, NY 10708
Or scan forms and email to:
Susan.Crane@concordia-ny.edu

IMPORTANT

NO student will be permitted to attend class until forms are returned.
ALL students must complete the Personal Health Form and Meningitis Disclosure.
If you were born before January 1, 1957, immunization records are NOT required.

Revised: NOVEMBER 2019
IMPORTANT INSTRUCTIONS

SECTION 1
Personal Health History and Emergency Contact Information

SECTION 2
Measles, Mumps, & Rubella Immunizations: PROOF OF IMMUNIZATION MUST BE ATTACHED
New York State Vaccination Law 2165 and Concordia College require verification of vaccination or immunity for every registered Concordia student born after Jan. 1, 1957 documenting proof of immunity to Measles, Mumps, and Rubella.

MMR: Two (2) doses are required for entry into Concordia College. The first dose must have been received on or after the 1st birthday.

OR
Immunity may be proven by a blood test for antibodies. Lab reports must be submitted and the provider must sign and stamp lab reports.

OR
Measles (Rubeola): Two (2) doses are required. The first dose must have been received on or after the 1st birthday.
Mumps: One (1) dose is required and must have been received on or after the 1st birthday.
Rubella (German measles): One (1) dose is required and must have been received on or after the 1st birthday. A previous history of having Rubella is not acceptable proof of immunity.

If you have attended another college, community college or university within the last 5-7 years, you provided the previous college with the same immunization records we require. Your former college’s Health Office may fax your records (even if they are on your previous college’s form) to our office at (914) 395-4521.

SECTION 3
Meningococcal Vaccine PLEASE READ CAREFULLY
As per New York State Public Health Law 2167, all students residing in campus housing must have the vaccine. If you are a commuting student and have not had the vaccine, you must sign a waiver stating you have read about the disease and decline the vaccine. It is highly recommended that all students have the meningitis vaccine.
SEC I: Personal Health History (TO BE COMPLETED BY STUDENT)

This is a confidential record. Information you provide will be used solely as an aid to providing health care while you are a student.

Last Name: ___________________________ First Name: ___________________________

Medical and Surgical Authorization In case of illness and/or injury, authority and consent is given to Concordia College for examination and treatment of named student either at the Health Center, Concordia College, or by outside physicians and medical facilities as are available. Consent is further given for admission to a hospital for necessary medical or surgical treatments as ordered by a physician. It is agreed that all medical and/or hospital expenses incurred beyond those covered by any applicable student insurance policy will be paid directly and promptly by the undersigned student and parents or guardians and the College will not be held responsible.

Date ____________ Student’s Signature ______________________________________________________________________ Age ___________
Dear Adult Student:

Under New York State Public Health Law 2165, every student born after January 1, 1957, and registered for six (6) or more credits per semester must provide proof of having been immunized with two (2) doses of the MMR (measles, mumps, rubella) vaccine.

We understand that you may not have your childhood immunization records easily accessible, so we have prepared this list of options to help you to prove immunization or immunity. ONLY ONE OPTION IS REQUIRED.

1. Provide evidence that a health care provider has administered two (2) doses of MMR vaccine, signed and stamped by the provider.
2. Provide evidence that a health care provider has administered one (1) dose of measles vaccine and one (1) dose of MMR vaccine, signed and stamped by the provider.
3. Show positive immunity through blood titers for all 3 diseases. *NOTE: A negative titer on any of the 3 diseases requires a follow-up vaccine or vaccines! Do not submit a negative titer without proof of a follow-up vaccine. A negative measles requires two (2) MMR vaccines; a negative mumps or rubella requires one (1) MMR vaccine.
4. Honorable Discharge from the Military: Provide a copy of your honorable discharge from any branch of The United States Armed Forces within 10 years from the date of application to Concordia while you wait for pending and definitive evidence of having received the required vaccines.
5. Religious Waiver: Provide, in writing, your genuine and sincere religious beliefs of why you do not wish to receive the vaccine(s).
6. Previous College Records: Request copies of your medical records from the college you previously attended. Depending on the college’s policy, records may only be kept for 5-7 years.

If none of these scenarios are available to you, we can administer the MMR vaccine in the Student Health Center. The vaccine is administered subcutaneously (under the skin) and each dose, a total of two (2), are administered no less than 30 days apart. We can also draw blood titers and have arranged a price with our lab for those whose insurance does not cover titers or those who do not have insurance at this time.

Please call the Health Center at (914) 337-9300, x2243 with any questions you may have or to schedule an appointment.

Sincerely,

Susan Crane, RN Director of Student Health Services
MANDATORY MEASLES, MUMPS, RUBELLA VACCINE REQUIREMENTS
(TO BE COMPLETED BY HEALTH CARE PROVIDER)

I. REQUIRED IMMUNIZATIONS for ALL students born after 1/01/57

Section A. MMR (Measles, Mumps, Rubella; was not available in the U.S. before 1/1/72)
Month/Day/Year
   ____ 1st MMR Dose (Administered after 1st birthday AND after 1/1/1972)
       _____/_____/
   AND
   ____ 2nd MMR Dose (Administered after 15 months of age and at least 28 days after 1st dose)
       _____/_____/

Section B1. Measles
Month/Day/Year
   ____ 1st Live Virus Dose (Administered after 1st birthday & 1/1/69)
       _____/_____/
   AND
   ____ 2nd Live Virus Dose (Administered after 15 months of age and at least 28 days after 1st dose)
       _____/_____/
   OR
   ____ Immunity (Proven by Serologic Testing)
       _____/_____/

Section B2. Mumps
Month/Day/Year
   _____ Live Virus Dose (Administered after 1st birthday & 1/1/69)
       _____/_____/_____ OR _____ Immunity (Proven by Serologic Testing)
       _____/_____/

Section B3. Rubella (German Measles)
Month/Day/Year
   _____ Live Virus Dose (Administered after 1st birthday & 1/1/69)
       _____/_____/_____ OR _____ Immunity (Proven by Serologic Testing)
       _____/_____/

Note: History of Illness is NOT acceptable

Continued ➡
Sec. III. Meningococcal Meningitis Vaccination Response Form
(To be completed by Health Care Provider or by student if waived.)

Note*: Only students who DO NOT reside on campus may waive the vaccine.

A. Meningococcal Meningitis Vaccine (Menactra™/Menomune™Menveo™): Please consider this vaccine. Students wishing to decline this vaccine must read the information in the box below. **Signing the waiver indicates that you understand the possible risk involved in not receiving this immunization.**

Disclosure Statement-Meningococcal Meningitis: College students, especially first-year students living in residence halls, are at a slightly increased risk for contacting meningococcal disease. The bacterial form of this disease can lead to serious complications such as swelling of the brain, coma, and even death within a short period of time. A vaccine is currently available that will decrease, but not completely eliminate, a person’s risk of acquiring meningococcal meningitis. This element of uncertainty remains because there are five (5) different serotypes (A, B, C, Y, & W-135) and the current vaccine does not offer any protection from serotype B. The vaccine, Menactra™/Menomune™ probably protects for 3-5 years, and is extremely safe for use. Menactra™ vaccine is available at the Concordia Student Health Center. For more specific information about meningococcal meningitis and college student risks, please visit the NYS DOH website at: www.health.state.ny.us/nysdoh/immun/meningococcal/index.htm

**Mandatory -Read Carefully:** As per New York State Public Health Law 2167, you must either have the vaccine or sign a waiver stating you have read about the disease and decline the vaccine.

(circle one:) Menomune / Menactra

A. Meningococcal Meningitis Vaccine (Menomune™ or Menactra™ ) given within the past 10 years:

B. Date: _____/_____/______
   Month Day Year

An official stamp from a doctor’s office, clinic, or health department AND an authorized signature must be provided below.

________________________________________________________
Name/License#/Office Stamp

*Read the information provided above and sign the waiver below.

______ I have read, or have had explained to me, the information regarding meningococcal meningitis disease. I understand the risks of not receiving the vaccine. I have decided that I will not obtain immunization against meningococcal meningitis disease.
