KIRBY SCHOOL DISTRICT 140

Dr. Shawn M. Olson
Superintendent

Electronic, Remote Learning Platforms

As Kirby School District 140 continues to provide teaching and support services using electronic, remote learning platforms, please remember that the information in these transmissions may be confidential and/or privileged. The District is electing to deploy these platforms, relying on the representations of these companies regarding the security of their resource and confidentiality of any information and proposes these tools as the best available resources which can be employed promptly for these purposes.

While these platforms represent their uses are secure and private, these companies have their own data and record collection maintenance, use and security practices. As the District does not have complete control over any and all access to the instruction provided by these means, particularly when being provided to a group of students, information could be inadvertently accessed by other persons, including parents or student siblings. Any of these electronic transmissions are however intended only for use by the intended recipient(s).

We ask that parents limit any access to these educational transmissions to only the intended student. If you are not an intended recipient you should not view, disclose, audio or video record, copy, circulate or in any other way use the information contained in this transmission. If you received a transmission in an error, please notify the sender immediately and delete this transmission including any attachments. By participating in these electronic learning opportunities, you acknowledge and agree to the above and waive any claims against the District related to your child's participation in these electronic methods for delivery of education services.

Please note, however, the District prohibits parents/guardians and students from recording on a video, audio, electronic, digital, photographic, or any other recording medium, any student's or employee's likeness and/or voice during a live stream lesson or school activity held on a remote meeting platform. Furthermore, any recorded lessons provided to students are private and for use by the students for educational purposes only and shall not be distributed, posted or published in a private or public venue such as, but not limited to, on social media or any online video sharing platform. Students who do not adhere to these prohibitions will be subject to the District's discipline policies and appropriate legal action may be taken against parents/guardians who fail to abide by these prohibitions.

If your student is participating in remote learning, please ensure your student is in a quiet location with minimal distraction, and that his or her device is not visible to the public. We note that no virtual classroom, group, or individual session should be recorded, downloaded, or shared in any manner by students or parents. Your student remains subject to the District's Acceptable Use Policy.

If you have any questions or need support, please contact your child's Principal or Kristine Roth, Assistant Superintendent of Curriculum and Instruction.

Sincerely,

A handwritten signature in cursive script that reads "Kristine L. Roth".

Dr. Kristine L. Roth
Assistant Superintendent of Curriculum and Instruction
