## Online Individual Student Progress Report

(Text Format)

Displays student scores as compared to district average and NWEA norm group average in text format.

- 1 Student Score Range:** The middle number is the student's RIT Score. The numbers on either side define the RIT Range. If a student took the test again relatively soon, the score would fall within this range about 68% of the time.
- 2 District Average RIT:** The average RIT score for all students in the school district in the same grade who were tested at the same time as this student.
- 3 Norm Group Average:** The average score of students who were in the same grade and tested in the same term as observed in the latest NWEA norming study.
- 4 Student Growth:** The actual growth in RIT points made between the two terms in the growth comparison period.
- 5 Typical Growth:** The average growth of students who were in the same grade and began the growth comparison period at a similar achievement level as observed in the latest NWEA norming study.
- 6 Goal Performance:** Each goal area included in the test is listed along with a goal strand RIT range or descriptive adjective of the students score.
- 7 Lexile® Range:** A score (displayed as a 150-point range) resulting from a correlation between NWEA's RIT score and the MetaMetrics® Lexile® scale that helps identify reading material that is at an appropriate difficulty level for an individual student.

**NWEA Sample District 2**  
**Student Progress Report for Aunspaug, Darwin N.**  
**Three Sisters Elementary School**  
Growth is measured from Fall to Spring

Student ID: SFO6000052

**Explanatory Notes:**

**Season/Year:** The season (Fall, Spring, Winter, Summer) and the year the test was administered.

**Student Score Range:** The middle number is the RIT score your child received. The numbers on either side of the RIT score define the score range. If needed, your child would score within this range most of the time.

**District Average RIT:** The average score for all students in the school district in the grade who were tested at the same time as your child.

**Norm Group Avg.:** The average score is based for students in the most recent NWEA RIT Scale Norms study, who were in the same grade and tested in the same portion of the institutional year (e.g., fall or spring).

**Student Growth:** Presents the growth in RITs your child made from the previous fall to the spring of the year in which growth is reported.

**Typical Growth:** The average growth of students in the most recent NWEA RIT Scale Norms study who were in the same grade and began the growth comparison period at a similar achievement level.

**Student Scale Range:** The number in the middle is your child's percentile rank - the percentage of students in the most recent NWEA RIT Scale Norms study that had a RIT score less than or equal to your child's score. The numbers on either side of the percentile rank define the percentile range. If needed, your child's percentile rank would be within this range most of the time.

**Goal Performance:** Each goal area included in the test is listed along with a descriptive adjective of your child's score. The possible descriptors are Low (<25 percentile), LowAvg (21-40 percentile), Avg (41-60 percentile), HiAvg (61-80 percentile), and High (>80 percentile).

**Lexile® Range:** A score (displayed as a 150-point range) resulting from a correlation between NWEA's RIT score and the MetaMetrics® Lexile® scale that helps identify reading material that is at an appropriate difficulty level for an individual student.

## Online Individual Student Progress Report (Graphic Format)

Displays student scores as compared to district average and NWEA norm group average in graphical format.

- 1** Gx: The text above each vertical line on the graph represents the student's grade at the same time the test occurred.
- 2** Student RIT Score Line: The RIT score the student received on each growth test. This line may contain a dashed portion following the most recent test event to represent projected growth over the next instructional year. Projected growth is the average fall-to-fall or spring-to-spring RIT growth of students who were in the same grade and began the growth comparison period at a similar achievement level as observed in the most recent NWEA norming study.
- 3** District Average RIT Line: This line represents the average score for all students in the school district in the grade who were tested at the same time.
- 4** Norm Group Average Line: This line represents the average score for students who were in the same grade and tested in the same term as observed in the most recent NWEA norming study.
- 5** Goal Performance: Each goal area included in the test is listed along with a goal strand RIT range or descriptive adjective of the students score.
- 6** Lexile® Range: A score (displayed as a 150-point range) resulting from a correlation between NWEA's RIT score and the MetaMetrics® Lexile® scale that helps identify reading material that is at an appropriate difficulty level for an individual student.
