

POST-GRADUATE PLANNING ACTIVITY

Answer the following questions. Use your advisor as a resource if you have any questions about a potential major or career path.

What is your intended plan for life after high school (college, military, employment, trade school, etc.)?

What is your intended major or career (if you don't know for sure then name one you might lean towards at this point)?

Why do you want to pursue this major or career? How does it match with your strengths and/or interests?

Do you know anyone you can ask about this major/career to gain more information? And if so, who?

What classes have you taken or are currently taking that have something to do with your intended major/career? Did/do you like those classes?

What do you think are the average potential earnings for your intended career (i.e. how much Monday can you make?)?

What are the pros to your intended career? (e.g. flexible hours, high income, good work environment, rewarding, opportunity to travel, etc.)

What are the cons of your career (e.g. long hours, limited opportunity to advance, etc.)?

Does this intended major/career provide you with the means necessary to have a nice quality of life (will you want to go to work every day?)?
