

## NHS ADVISORY

Date: April 30, 2015

|                                   |   |
|-----------------------------------|---|
| <b>Grade</b>                      | 12  |
| <b>Topic</b>                      | Senior Wrap-Up  |
| <b>Goal</b>                       | To have share students talk about their high school experience and share some questions or concerns they may have for life after high school.   |
| <b>Activities/<br/>Procedures</b> | <ol style="list-style-type: none"><li>1. Distribute the "Senior Interview" handout to all students. Give them a few minutes to complete the sheet.</li><li>2. Discuss the answers out loud. Hopefully students will be able to share some of their answers.</li></ol> <p><i>This is the last time you will be meeting with your group together. During next month's Advisory students will attend an assembly on distracted driving. So this is a wrap-up session. You can simply talk about their experiences and share whatever you'd like about your initial experience during "life after high school". If you have extra time you may want to suggest that students write a 'thank you' note to a staff member who positively impacted them.</i></p> |
