Details:
11/14/18 at 6:30 PM
Norwood SEPAC
Savage Center
275 Prospect Street, Room 203

Child and Family Psychological Services is a private behavioral health care practice providing the highest quality, comprehensive, evidence-based evaluation, treatment, and consulting services.

We provide lectures and keynote addresses on issues specific to children and adolescents. The topics are aimed at increasing awareness of developmental issues and assisting children, and the adults who work with them, in implementing necessary supports or interventions.

Please visit our website for a full list of services and information about our practice.
