

Dissecting the IEP

When: Tuesday, November 19, 2019 from 6:30pm-8:30pm

Where: Savage Center, 275 Prospect Street, Room 219, Norwood

Individualized Education Plans (IEPs) aren't exactly easy reading. They can be full of strange terms, confusing acronyms, and technical language. Have you ever found yourself asking one of the following questions?

- What is a "measurable goal"?
- What does "FBA" stand for? Or "BCBA"? Or "SLP"? Or "ELA"? Etc.
- What's with these odd time periods that describe my child's special education services?
- What are the differences in the service delivery grid sections (i.e. consult, direct, indirect)?
- Oh boy – I have so many questions but there isn't enough time during our IEP meeting to ask all of them! Who can answer my questions outside of an IEP meeting?

The Norwood Special Education Parent Advisory Council (SEPAC) wants to help make sense of your child's IEP. Come to our next meeting for a presentation by Lori Cimeno, Norwood Public School's Director of Student Services. She'll give us an informative overview of each part of an IEP and will answer your questions – so come prepared with them! Please note that Lori *cannot* answer any questions about your IEP team's decision-making.
