

SUMMER COVID-19 POOL TESTING

Pool testing will continue to be available to Norwood Public Schools students and staff through August 31st. This testing remains a valuable tool to keep your children and families safe as we resume some of our summer activities like camp, sports and vacations.

Our test day will continue to be on Thursdays with specimen drop off by 9:30 a.m. We will have 3 drop off sites: the Balch School, the Little Mustangs Preschool Academy and the Coakley Middle School. You may drop your specimen at whichever collection site is most convenient for you.

If you wish to continue to participate please notify your school nurse, her contact information is below. Testing kits for all the summer weeks will be sent home with your student during the last week of school.
