## **Norwood Public Schools 5-Year Strategic Plan Input Needed**

As you may know, the Norwood Public Schools is beginning the process to develop a new 5-Year Strategic Plan. This process includes a survey to the community related to the needs that you see for Norwood in future years. Please use the QR pictured on the top right of this section, [or this link to access the survey.](#) Please complete this survey no later than this coming Wednesday, February 4th if you would like to participate.

Additionally, recent focus groups with the community, staff, students, and town constituents provided an early opportunity to provide input on the district's strengths and opportunities for growth. Yesterday, a Strategic Planning Committee consisting of twenty-five administrators, staff members, counselors, community members, and family members began work with our vendor, Teaching Learning Alliance, to guide the work. The final strategic plan will be presented to the School Committee in May.

If you have any questions about the strategic planning process, please send an email to me at [tluff@norwood.k12.ma.us](mailto:tluff@norwood.k12.ma.us).
