

SYLLABUS FOR ADVANCED 7th GRADE MATH

Welcome to Advanced 7th Grade Math. The supply list required for HOPE Charter School covers those supplies which will be needed for this class. **EVERYONE** needs a scientific calculator – there will be no sharing of calculators during the tests. In addition, you will need a spiral notebook specifically for this class. You will use this notebook for your daily warm-up, I will check it each day.

Your grades will be determined as follows:

Warm-Up Notebook	20%
Homework	20%
Quizzes	20%
Tests	40%

Homework will be assigned nightly, and you will email me a picture of it. The book has been scanned, so the homework pages as well as the content will be posted on the class page. The grade for the homework in skyward will be based on work shown for the problems specifically requiring work as well as completion for the others. The grade IS NOT based on correctness. After we are finished with the daily warm-up, we will go over the answers and work them out for any problems that have given you difficulty.

I will not answer questions on a quiz or test day. I do not want you only preparing the night before the assessment. In order to help you with that, I will be available for extra help specifically for this class on Thursday after school.

If you are absent, you are still responsible for any work that you have missed. This includes homework as well as understanding the material that you have missed. My class website lists the lessons and homework for each day. Refer to this whenever you are out and then get with me if you have any questions. Concerning late work, you will lose 10% for every day that it is late. You may not take make-up assessments during class. You must make arrangements to take it after school.

Let's have a great year!
