Project overview:

A comprehensive facilities assessment in 2010 noted that many of Ferndale School District's schools need either renovation or replacement. The District has been listening to citizens and considering various scenarios to address the district's school facilities based on their feedback. In April 2017, the School Board decided to develop a bond package, primarily focused on renovating Ferndale High School to put before voters in November 2018. A Bond Task Force has been convened to provide community input into development of the total bond package.
