COMMUNITY RESOURCES

The Board of Education shall encourage the use of all applicable community agencies, organizations, resources, and citizens to assist the schools in making available diverse educational opportunities.

One of the greatest community cultural resources available to the school may be found in the elders of the community who have special knowledge and particular talents to contribute to the educational program.

Teachers are encouraged to use these community resources in their instruction.

The Board encourages the development of a file of the community resources according to subject and presenter's name, making certain the files are updated yearly.
