

MENOMINEE INDIAN SCHOOL DISTRICT

751.4

Student Transportation in Private Vehicles

The Menominee Indian School District offers students extensive opportunities to participate in curricular and extracurricular educational, athletic and social activities and events. While the district is able to provide district transportation for most of the activities there may be times when the district cannot provide transportation through the use of its own vehicles. The district also recognizes that some children may need transportation to or from home when district transportation is not available.

When district transportation is not available, a staff member or a parent may volunteer for and be authorized to transport a student or group of students in his/her own car for school-related purposes only if he/she has authorization to do so or with special permission covering the specific trip from the building administrator or designee.

Authorization is granted by the MISD Board of Education to school administrators and other school staff designated by the Superintendent to provide student transportation in their own vehicles when district transportation is not available. Permission for providing student transportation may be granted by the building administrator and athletic director to coaches and advisors.

Persons with authorization or permission to use their own vehicles for transporting students must provide the MISD Business Office with a copy insurance coverage, valid driver's license, the Use of Private Vehicle for School Business Form. The MISD Business Office will maintain all pertinent documentation.
