SPECIAL USE OF SCHOOL BUSES

The District may use or allow the use of school busses owned and operated by the District to transport person who are not District students. School busses may be used by persons who are not District students during school hours if such use does not interfere with the transportation of District students.

The Board of Education shall charge a fee for such use of school busses. The fee shall be an amount equal to the actual cost of transportation, including but not limited to costs for depreciation, maintenance, insurance, fuel and compensation of vehicle operators.

If the District denies a written request for the use of the school busses, the Board shall provide the requester a written statement of the basis for the denial within 14 days after the denial.
