STUDENT POLICIES GOALS

The Board of Education intends to protect the rights of each student and promote the welfare of all students.

Policies in this series are enacted to aid in providing quality experiences for students in all activities related to the educational programs. The purpose of the Board is to provide opportunities for all students to become more efficient, effective, and productive citizens.

The focus of the school system is on the student. His/her educational development is the central concern of the Board's policies and administrative regulations.

Each student shall be given equal opportunity. Individual differences must be taken into account if the fullest development of each student is to be achieved, because each student varies in capacities, interests, social, and economic background.

The Board shall provide the staff, equipment, materials and facilities necessary to provide equal opportunity for each student.

CROSS REF.: 411, Equal Educational Opportunity

APPROVED: March 22, 1982

REVISED: March 1996
