

MENOMINEE INDIAN SCHOOL DISTRICT

871

RECONSIDERATION OF MATERIAL

A parent/guardian always has the option to object to specific educational resources being used with his/her child. However, a parent/guardian does not have a unilateral right to abridge the rights of other parents/guardians or students to have access to resources which are part of the school district's educational program.

If an adult resident or parent/guardian objects to the continued use of resources in the district's educational program, the following procedures shall be used. The intent of these procedures is to amicably resolve the complaint at the earliest possible level of review.
