

**MENOMINEE INDIAN SCHOOL DISTRICT**

343.45 RULE

PROCEDURES FOR HANDLING COURSE APPLICATIONS THROUGH THE  
TECHNICAL COLLEGE COURSE PROGRAM

**A. Student Eligibility to Attend Individual Courses at  
Technical Colleges**

1. In addition to meeting any other applicable eligibility requirements, a student who wishes to enroll in a course through a technical college under the Technical College Course Program must:
  - a. Submit all required notices, parent permissions (if under 18), and college applications on a timely basis.
  - b. Have completed 10<sup>th</sup> grade (all requirements met, including a minimum of 14 of high school credits completed toward graduation by the end of the high school semester in which the student gives notice of his/her intent to take a technical college course);
  - c. Not be a child at risk of not graduating from high school, as defined by state law; and
  - d. Be in good academic standing within the District. For purposes of this requirement, "good academic standing" in the District means consist of maintaining a GPA of 2.0 and no recent major discipline incidents resulting in suspension.
2. A technical college district board may deny a high school student admission to the technical college, or registration in a specific course, for any of the reasons provided in state law, including the technical college's determination that the student has an unacceptable record of disciplinary problems. To the extent consistent with student records laws and with the District's student records policies and procedures, the District will certify student disciplinary information that is necessary for completing and processing a student's application to

enroll in and take a course at a technical college under the Technical College Course Program.

3. A student participating in the Technical College Course Program may attend only one technical college in any semester.
4. A student who is participating in the Technical College Course Program in any semester may not simultaneously participate in the Early College Credit Program.
5. The District may refuse to allow a student with a disability to attend a technical college through the Technical College Course Program if the costs related to any special services required for the student would impose an undue financial burden on the District.
6. Students in home-based private educational programs, residents of the District who are private school students, and nonresident students who are participating in the part-time open enrollment program are not eligible to participate in the Technical College Course Program through the District, even if they are taking or have taken individual courses in a District high school.
7. Students attending classes at a technical college under this program shall be responsible for their own transportation, except as otherwise required by law.

**B. Course Application Process**

1. Students interested in attending individual courses at a technical college under the Technical College Course Program must do all of the following to start the application process:
  - a. Submit a timely and complete application directly to the applicable technical college, under any procedures and deadlines established by the technical college; and

- b. Submit a timely and complete written notice to the District that identifies the student's intent to take one or more technical college courses under the Technical College Course Program. A separate notification form must be completed and processed for each semester that a student applies to participate in the Technical College Course Program.
  - Upon request, the District will provide a student or parent or guardian with a copy of a form that is appropriate for providing the required notice.
  - The initial notification form shall be submitted in writing to the High School Principal or high school guidance counselor.
  - The initial notification form must be submitted by March 1 if the student intends to enroll at the technical college in the subsequent summer or fall semester, and by October 1 if the student intends to enroll in the subsequent spring semester.
  - In addition to any other information required on the form, the initial notice must identify the name of the specific technical college the student plans to attend: the title of and the number of technical college credits available for each course that the student intends to take; and whether each course will be taken for high school or post-secondary credit, or both.
  - If the student who intends to take a technical college course is a minor, the student's parent or guardian must provide signed permission for the student to participate in the program. Parent permission shall be submitted on, or attached to, the student's initial notification form.
2. As soon as such information is available, the student shall further notify the High School Principal or high school guidance counselor if the student has been:

- a. Admitted to technical college to which the student applied;
  - b. Successfully enrolled in and registered to attend individual courses; and
  - c. If any of the course information provided on the initial notification has changed.
3. Students are required to cooperate with the District in providing any information that may be necessary to determine their eligibility for the program and process individual course requests.
4. Upon receiving a student's written notification of intent to participate in the Technical College Course Program, an authorized local program administrator for the District shall process the student's request, including determining the following:
  - a. Whether a student meets the minimum eligibility criteria for participation in the program;
  - b. Whether the student will be eligible to receive high school credit for the successful completion of a proposed course and, if so, how much high school credit
  - c. Whether a proposed course is comparable to a course already offered in the District; and
  - d. Whether the proposed course and any resulting credit meets any of the District's high school graduation requirements
5. An authorized local program administrator for the District shall notify the student, in writing, of the District's determinations regarding awarding of high school credit (including the amount of credit), course comparability, and satisfaction of high school graduation requirements. The District shall also notify the student of his/her right to appeal any negative determinations on these issues to the State Superintendent of Public Instruction.

- a. provided that none of the course information provided on the student's initial notice of intent has changed, such notice shall normally be issued by May 15 for initial notices that were received by March 1 for fall courses, and by November 15 for initial notices that were received by October 1 for spring course.
  - b. If the District determines that it is impractical to provide notice of the District's course-related determinations in the regular time-frame identified immediately above, such notice shall, at a minimum, be issued at least 30 days before the beginning of the technical college semester in which the student will be enrolled for the course(s).
6. Appeals of District Decisions. If an applicant for the program disagrees with a District decision regarding course comparability or the satisfaction of high school graduation requirements, state law provides that the applicant may appeal the District's decision to the state Superintendent of Public Instruction within 30 days after the District's decision.

**C. Satisfaction of Graduation Requirements: Awarding High School Credit for Technical College Courses**

1. The determination of whether a course satisfies a high school graduation requirement shall be made with reference to District policies that set forth such requirements and by applying the standards and guidelines that the District applies to its own course offerings and to courses that are submitted for a similar assessment by students who are transferring into the District.
2. Pending the development of any new state regulations applicable to the Technical College course Program that address the granting of high school credit for a course taken at a technical college under this policy, or the adoption of other specific local standards for such credit determinations, the District shall apply the mandatory and discretionary standards for granting

credit that are found in PI 49.07(1) for the Wisconsin Administrative Code, as such standards were in effect as of December 31, 2017.

a. The District may deny high school credit for a technical college course if any of the following apply:

- The District offers a comparable course.
- The course repeats the course content for which a student has already received a passing grade and high school credit.
- The course repeats the content of a postsecondary course that the student has already taken and failed.

b. If credit is not denied for any of the reasons identified above, the District will grant high school credit for a technical college course if the course meets any of the District's high school graduation requirements, as identified in the Board-approved high school graduation credit policies, and if any of the following conditions apply:

- The course is complementary to, consistent with, or expands on a course of study or sequence of courses offered by District.
- The course expands an opportunity for the student to move to another level of an academic or vocational course of study.
- The course curriculum meets or exceeds the same standards for rigor and content as other courses approved by but not offered by the District for credit toward graduation.
- The postsecondary course supports rather than prevents a student from completing high school graduation requirements.

3. In order for a student to receive high school credit for a course taken at a technical college under the Technical College Course Program, the student must complete the course and receive a passing grade, as determined by the technical college.
4. To the extent required by state regulations, or to the extent the District does not adopt a different rule for any course-credit conversions that are not addressed by state regulations, a student shall be granted  $\frac{1}{4}$  high school credit per 1 semester of conversion-eligible postsecondary credit for a course taken under the Technical College Course Program.
5. Students will receive the equivalent grade on their high school transcripts upon completion of a college course. The course will be listed as close as possible to the college course title.

**D. Course Comparability**

1. For purposes of determining whether a course that a student wishes to take through the Technical College Course Program is comparable to a course offered by the District, and pending the development of any new state regulations applicable to the Technical college course Program or the adoption of other specific local standards for determining course comparability, the District shall apply the standards found in PI 40.07(1m) of the Wisconsin Administrative Code, as such standards were in effect as of December 31, 2017.
2. Although a student may still elect to take a technical college course that the District has determined is comparable to a District course, the District is not responsible for paying any portions of the costs related to such a course.

Adoption Date: February 9, 2018
