

Policy 7:180 Prevention of and Response to Bullying, Intimidation, and Harassment

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender-related identity or expression, ancestry, age, religion, physical or mental disability, marital status, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic **is prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the School District or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require the School District or school to staff or monitor any non-school-related activity, function, or program.

Definitions from Section 27-23.7 of the School Code (105 ILCS 5/27-23.7)

Bullying includes *cyberbullying* and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. *Cyberbullying* includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of *bullying* in this Policy. *Cyberbullying* also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of *bullying* in this Policy.

Restorative measures means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the

likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

School personnel means persons employed by, on contract with, or who volunteer in the school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. The plan must be consistent with this Policy and the requirements listed below; each numbered requirement, 1-12, corresponds with the same number in the list of required policy components in 105 ILCS 5/27-23.7(b) 1-12.

1. The District uses the definition of *bullying* as provided in this policy.
2. Bullying is contrary to State law and the policy of this District. However, nothing in this Policy or the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution. This Policy or the District's bullying prevention and response plan shall not be interpreted to prevent a victim of bullying from seeking redress under any other District policy or available law.
3. Students are encouraged to immediately report bullying to school personnel. A report may be made orally or in writing to the District Complaint Manager or any staff member with whom the student is comfortable. Anyone, including staff members and parents/guardians, who has information about actual, suspected or threatened bullying is encouraged to report it to the District Complaint Manager or any staff member. Anonymous reports are also accepted by telephone or submitting a written statement to the District Complaint Manager.

5. The Superintendent or designee shall promptly investigate and address reports of bullying, including, but not necessarily limited to, completing the following:
 - a. Making all reasonable efforts to complete the investigation within ten (10) school days after the date the report of a bullying incident was received and taking into consideration additional relevant information received during the course of the investigation about the reported bullying incident.

- b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
 - c. Notifying the Building Principal or school administrator or designee of the reported incident of bullying as soon as possible after the report is received.

6. The Superintendent or designee shall develop and implement a process to investigate whether a reported incident of bullying is within the permissible scope of the District's jurisdiction and to provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

 8. A reprisal or retaliation against any person who reports an act of bullying is **prohibited**. A student's act of reprisal or retaliation will be treated as an act of *bullying* for purposes of determining any disciplinary action or other appropriate remedial actions. Disciplinary and/or remedial actions for reprisal or retaliation may include, but are not limited to, participation in restorative measures, loss of privileges, suspension, or expulsion.
 9. A student will not be punished for reporting bullying or supplying information related to an alleged incident of bullying, even if the District's investigation concludes that no bullying occurred. However, making an accusation or providing information that a student knows or reasonably should know is false will be treated as an act of *bullying* for purposes of determining any disciplinary action or other appropriate remedial actions. Disciplinary and/or remedial actions for falsely accusing another person of bullying and/or providing false information about bullying may include, but are not limited to, participation in restorative measures, loss of privileges, suspension, or expulsion.
 10. The District's bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.
 11. The Superintendent or designee shall post this policy on the District's Internet website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must also be distributed annually to parents/guardians, students, and school personnel, including new employees when hired.
 12. The District will conduct a review and re-evaluation of this Policy, and make any necessary and appropriate revisions, every two years. This Policy must be filed with the State Board of Education after being updated. As part of the review and re-evaluation, the Superintendent or designee shall assess this Policy's outcomes and effectiveness. The Superintendent or designee must post the information developed as a result of the evaluation on the District's Internet website, or if a website is not available, provide the information through other means to school administrators, Board members, school personnel, parents/guardians, and students.
 14. The bullying prevention and response plan must be consistent with Board policies, such as the following:
