

The Child Development Center follows these health policies.....

- ◆ If your child doesn't feel well enough to participate in routine activities and in the program, they need to be home resting and recovering.
- ◆ In addition, if they shows signs and symptoms of a rash, temperature, diarrhea, vomiting, infection, runny nose with mucous-like secretions, body rashes, eye infections or colds and sore throats that seem infectious, you will need to keep your child home. If they show up at school and these symptoms appear, you will be contacted to take your child home. Please keep your child home the next day (24 hours) so they can rest and fully recover.
- ◆ Please notify the Center if your child has an infectious or communicable disease (measles, mumps, pinkeye, etc.). Your child will not be able to return to the Center without a doctor's clearance.
- ◆ Thank you for your cooperation and understanding in helping us reduce the spread of illness at our preschool.

We understand it is hard to leave work and school,
but please ask yourself....
Would I want to be at a preschool sick?

Would I want other
families to come to school
and expose my child?

For further information on our school health policies, please refer to your Parent Handbook or call the CDC at 283-0521

Thank you!!
