Box Tops Contest!

Contest time is finally here! We are ready to collect all those Box Tops. Our goal is 8,000 Box Tops and if each student brings in 20 Box Tops throughout the collection period (October 1st - October 18th), we will meet our goal. This equals \$800 for new playground/recess equipment.

Each entry form requires 10 Box Tops. Students will be able to enter as many times as they like for a chance to win 1 of 3, \$10 gift cards. Completed entry forms can be deposited into the collection boxes in the main hallway by the office as well as the preschool entrance.

If the school meets the 8,000 Box Tops goal, Mr. Weber has agreed to dress up in a silly costume for a day!

Volunteer Wanted

Mr. Weber is looking for a volunteer that would be willing to help with some data entry on the computer. Anyone high school age or older is welcome to assist. This could be a great way to earn service hours. If you are able to help, please contact Mr. Weber directly at jweber@cluth.org. Thank you!

A Note From the Nurse - Sleep Habits

According to the American Association of Pediatrics, the following amounts of sleep are recommended to promote optimal health:

- 3 -5 year olds should sleep 10-13 hours per 24 hours (including naps)
- 6-12 year olds should sleep 9-12 hours per 24 hours
- 13-18 year olds should sleep 8-10 hours per 24 hours

Adequate sleep durations for age on a regular basis leads to improved attention, behavior, learning, memory, emotional regulation, quality of life, and mental and physical health. Not getting enough sleep each night is associated with an increase in injuries, hypertension, obesity and depression, especially for teens who may experience increased risk of self-harm or suicidal thoughts.
