Adjourn

Occupational Advisory Committee Meeting

Air Conditioning and Refrigeration

November 17, 2021

Present: Charles Heinsz ,Harry Baurd ,Justin Oleman, Kevin corken

Absent: Donald Dawson

The AIR conditioning and Refrigeration program Advisory Committee members for NTCC met at the NTCC -Sullivam campus to hold the semiannual review of the program. Charles Heinsz welcomed the committee and called the meeting to order. Charles distributed forms for the areas to be reviewed. The minutes from the Spring 2020 were read and approved.

Old Business:

We need to go ahead and remove the old freezer and cooler equipment and start putting in the new. And we talked about going ahead and getting a new 90% furnace and to start to look into new equipment that will have a new refrigerant coming into the market with a low gwp.

New Business:

The committee members received a packet containing the following forms ;Admissions requirements, Review of program Content, Review of Program Length, and Review of Program Objectives the group reviewed the Admissions Requirements, with no suggestions made. The group then reviewed the PROGRAM content Length and objectives, and no suggestions were made. The last thing we talked about was getting some updated equipment for the lab, like a new 90 percent furnace and ac system. to replace

With no other business to discuss, the meeting was adjourned.

Respectfully submitted,

Charles Heinsz

Occupational Advisory Committee Meeting

Air Conditioning and Refrigeration

May 4, 2022

Present: Charles Heinsz ,Harry Baurd ,Justin Oleman, Kevin corken

The AIR conditioning and Refrigeration program Advisory Committee members for NTCC met at the NTCC -Sullivan campus to hold the semiannual review of the program. Charles Heinsz welcomed the committee and called the meeting to order. Charles distributed forms for the areas to be reviewed. The minutes from the Spring 2022 were read and approved.

Old Business:

We are in the process of removing the cooler and freezer units and getting new the new equipment put in. We are getting new pricing on 90% furnace.

New Business:

The committee members received a packet containing the following: Admissions Requirements, Review of program Content, Review of Program Length, and Review of the Program Objectives the group reviewed the Admissions Requirements, with no suggestions made. The last thing we talked about was getting 2 new explosion proof recovery machines and looking into getting some of the new equipment with the new refrigerant that will be coming out. Looking into getting different pieces of equipment that is involved handling the new refrigerant. Removing all the old R-22 equipment and getting holes bored through the wall for venting the furnaces to the outside as per HVAC excellence recommendation to show the furnace must be vented to outside.

With no other business to discuss, the meeting was adjourned.

Respectfully submitted,

Charles Heinsz
