The Tukwila School District is working diligently to ensure that procedures are in place to keep our students, staff, families and community as safe as possible based on the most current available guidance.

**Where Do We Get Our Guidance?**

The CDC provides guidance for the country. Washington State Department of Health and King County Public Health then adds to that guidance to better meet our local needs. Tukwila School District then takes all of that information and develops procedures to meet the health and safety needs of our students, staff and families within the TSD.

**How Are We Keeping Things Clean?**

We follow all current guidelines set forth by L&I and DOH. We have a dedicated Infection Control Lead that will continue to ensure that we are up to date on all current guidance.

**What About Masks???**

Everyone wears a mask while they’re in a Tukwila School District Building unless there is proof of medical exemption.

**Will There Be Screening At The Door?**

Yes! Everyone entering a Tukwila School District building will be screened. Your temperature will be taken and you will be asked a few questions about how you’re feeling. This information will be written on a form along with your name and phone number.

**What Happens if Someone in the School Tests Positive?**

We will determine who came into contact with the individual that tested positive and contact them. We will coordinate with DOH to provide instructions for testing, isolation and/or quarantine.

**What If A Student Comes To School Sick or Becomes sick at school?**

Anyone with a fever or who is feeling sick will be monitored in a designated isolation room, away from others, until they can be picked up. We will provide instructions at that time about what to do next.

**What Else Should We Do?**

- Stay Home If you are Sick
- Wash your hands frequently
- Wear your mask in public
- Stay at least 6 feet apart
- Stay in touch with your teachers
- Do your schoolwork
