Approved List of Non-Profit Service Agencies

The following list of approved non-profit agencies does not require students who volunteer at any of these organizations to receive pre-approval of their volunteer hours by the Service Learning Coach. These service agencies have already had their non-profit status verified by the Service Learning Coach due to the high volume of students who had volunteered at these organizations within the past few years.

NOTE: Students will still need to independently contact these organizations if interested in volunteering for them.
