March 13, 2020

Dear Parents,

Today was a hectic day, but your children should be all set for our first day of remote learning beginning Monday. This is another reminder that there is a COVID-19 UPDATE CENTER on our webpage as well as a REMOTE LEARNING CENTER for Little Silver Parents.

Besides this letter, a new document was posted to the COVID-19 UPDATE CENTER today. The letter is from the Monmouth County Regional Health Commission (Updated 3/12/20). This letter speaks to the RBR case. That letter includes a link to the [COVID-19 Exposure Risk Category Chart](#) (also linked here). If you have not seen this chart before, PLEASE take a look at it.

Although there are no confirmed cases of COVID-19 in our schools, the Board thought it was appropriate to take the proactive measure of closing the schools for the safety of the district and the community at large. In the coming days many school districts will be following suit. These precautionary measures are defeated if the students continue to gather in groups outside of school. Please keep in mind that best and most effective means of preventing the spread of the virus is through social distancing.

Sincerely,

Carolyn M. Kossack
Superintendent of Schools
