I. Principal clients and users of each program and the specific service or benefit derived by such persons or organizations:

Nunez Community College has one campus located on Paris Road in Chalmette, Louisiana. Nunez has facilities and/or programs servicing St. Bernard, Plaquemines, Orleans, Jefferson, and St. Tammany Parishes to ensure the citizens of our service area access to postsecondary education. The college delivers services to students enrolled in a variety of programs of study in the areas of (general education, health occupations, business occupations, industrial maintenance, culinary, human services, public services and others. Additionally, the college’s customers extend beyond students to all citizens who benefit from a healthy economy. Nunez contributes to workforce development, job training and retraining.

II. An identification of potential external factors that are beyond the control of the entity and that could significantly affect the achievement of its goals or objectives:

Economy
At present, Louisiana's economy is relatively stable and becoming more diverse. However, even though the state’s economy is not as vulnerable to downturns as it was in past decades, postsecondary education's financial position will always be precarious as long as its funding is not guaranteed. An economic recession or depression would hit postsecondary education particularly hard, since its funding is not protected by either constitution or statute.

Federal Government
A significant amount of revenue flows from federal programs into Louisiana public postsecondary education. A change in federal level policy could have dramatic effects on postsecondary education, including student financial aid, research and experimentation, telecommunications (distance learning), and related programs.

III. The statutory requirement or other authority for each goal of the plan.

Goal I: Expand access to and success in completing postsecondary education.
1. Constitution (Article VIII, Section 5 (D) 4) - To formulate and make timely revision of a master plan. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes.

Goal II: Eliminate persistent and damaging equity gaps.
1. Constitution (Article VIII, Section 5 (D) 4) - To formulate and make timely revision of a master plan. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes.
2. Constitution (Article VIII, Section 5 (D) 1,2) - To revise or eliminate existing academic programs and to approve or disapprove new program proposals. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes.
3. Constitution (Article VIII, Section 5 (D) 3) - To study the need for new institutions or change in mission of existing institutions. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes.

IV. A description of any program evaluation used to develop objectives and strategies. The goals and objectives in this *Five-year Strategic Plan* were derived in part from the Nunez Community College and LCTCS System 2030 *Our Promise Strategic Plan*. Several existing external and internal strategic plans were reviewed. These plans include: The Board of Regents’ Master Plan for Higher Education, the current LCTCS Strategic Plan as well as the plans of the system colleges. In addition, the System identified strategic directions for its future, which would allow for efficiency and effectiveness in addressing our roles as workforce training provider and the developer of human capital. Input was incorporated from staff, faculty, and college advisory committee members.

V. Identification of the primary persons who will benefit from or be significantly affected by each objective within the plan.

See Performance Indicator Documentation attached for each objective.

VI. An explanation of how duplication of effort will be avoided when the operations of more than one program are directed at achieving a single goal, objective, or strategy.

For the purposes of Act 1465 of 1997, the LCTC System is a single program. Duplication of effort of more than one program is thus not applicable.

VII. Documentation as to the validity, reliability, and appropriateness of each performance indicator, as well as the method used to verify and validate the performance indicators as relevant measures of each program's performance.

See Performance Indicator Documentation attached for each performance indicator.

VIII. A description of how each performance indicator is used in management decision making and other agency processes.

See Performance Indicator Documentation attached for each performance indicator.

Indicator Name: Number of students enrolled (throughout the fall semester) in public postsecondary education

Indicator LaPAS PI Code: 15050

1. **Type:** Output  
   **Level:** Key

2. **Rationale, Relevance, Reliability:** Recognition of importance of Louisiana having educated citizens.

3. **Use:** Nunez Community College remains committed to retaining and graduating students. The importance of retaining students can cause many decisions to change on campus, from recruitment strategies to student services, from hiring strategies to course scheduling.

4. **Clarity (Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.):** No

5. **Data Source, Collection and Reporting:** Data is submitted by Nunez to the LCTCS and Board of Regents’ Statewide Student Profile System (SSPS) and Statewide Completer System (SCS). The BOR system has been in existence for over 30 years.

   **SSPS:** The data is submitted twice annually, at the end of the fall semester and at the end of the spring semester. For this indicator, fall data (the national standard) will be used. The indicator will be reported at the end of the third quarter. This will allow time for collection, aggregation, and editing of the data. The change will be measured from the baseline year to the year being examined.

   **SCS:** The data is submitted once annually. For this indicator, annual completers will be used. The indicator will be reported in July each year for the previous academic year. This will allow time for collection, aggregation, and editing of the data.

6. **Calculation Methodology:** The standard method practiced nationwide for reporting headcount enrollment is the fall semester. The Regents’ Statewide Student Profile System (SSPS) is a unit record system in which each enrolled student, regardless of course load, is counted.

7. **Scope:** This indicator is a count of all students enrolled in Nunez Community College as of the end of the fall semesters.
8. **Caveats:** No real weaknesses. The reader must understand that this indicator reflects retention at the same campus and does not include students who transfer to other institutions.

9. **Accuracy, Maintenance, Support:** No real weaknesses. The System Office (LCTCS) uses Banner, a student data base system and frequently experiences software product updates on at the system level and corrected accordingly.

10. **Responsible Person:**
    SSPS: The Institutional Researcher at Nunez submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/systems to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file for SSPS.
