Admissions Policy for High School Students

Policy

The Louisiana Community and Technical College System Policy #1.004, *General Admissions Policy Statement*, requires each institution to have an admissions policy for dual-enrolled high school students. This policy applies to all students who will be attending South Louisiana Community College while enrolled in high school.

I. Early College Programs

Applicants to early college programs that provide a planned program for completion of a college credential with high school completion must meet the requirements of the individual program.

II. Dual Enrollment

An eligible high school student can be admitted to SLCC as a non-degree seeking student to earn college credit and Carnegie units. It is the responsibility of the student to verify that SLCC courses apply toward high school graduation. Enrollment is limited to seven (7) credit hours per semester, unless all courses are taken at the high school or at their school district's college and career center site.

Dual enrolled students must meet the following eligibility requirements:

- Must be a junior or senior in high school when courses are taken, except for students taking all of their courses at their high school or at their school district's college and career center site;
- Satisfy all SLCC general admission requirements, including providing immunization records/waiver as well as proof of registration with Selective Service, if applicable;
- Provide a current copy of their high school transcript, if not available through the Louisiana Student Transcript System;
- Have maintained a 2.0 or higher GPA on all work pursued in high school for students registering in only courses that apply toward a technical studies credential; have maintained a 2.75 or higher GPA on all work pursued in high school for students registering in general education courses;
- Satisfy all prerequisite requirements for SLCC courses.

To continue enrollment as a dual enrolled student in subsequent semesters, a student must earn an SLCC grade of A, B, C, CR, or P in all SLCC courses. Dual enrolled students are subject to all policies and provisions in place at the time of enrollment.

III. Concurrent Enrollment

A high school junior or senior can be admitted to South Louisiana Community College (SLCC) as a non-degree seeking student to earn college credit while not earning Carnegie units. Enrollment is limited to seven (7) credit hours per semester.

Concurrent enrollment students must meet the following eligibility requirements:

- Satisfy all admission requirements, including providing immunization records/waiver as well as proof of registration with Selective Service, if applicable;
- Provide a current copy of their high school transcript, if not available through the Louisiana Student Transcript System
- Have maintained a 2.0 or higher GPA on all work pursued in high school for students registering in only courses that apply toward a technical studies credential; have maintained a 2.75 or higher GPA on all work pursued in high school for students registering in general education courses
- Satisfy all prerequisite requirements for SLCC courses.

To continue enrollment as a concurrent enrollment student in subsequent semesters, a student must earn an SLCC grade of A, B, C, CR, or P in all SLCC courses. Concurrent enrollment students are subject to all policies and provisions in place at the time of enrollment.

High school students must follow the same withdrawal deadlines as any other undergraduate student in the college.
