

Respondus LockDown Browser - Student Instructions

If you encounter any issues with Respondus,:

- [Make sure LockDown Browser is available to students in the course navigation menu \(Links to an external site.\)](#)
- Double check your advanced settings in Lockdown

If those steps don't resolve your issue, send an email to maia.smith@solacc.edu.

Feel free to copy and paste this info into your course as a part of a module, or announcement, etc.

Students:

South Louisiana Community College has obtained Respondus LockDown Browser®. LockDown Browser is a custom browser that locks down the testing environment within our learning system. When you use LockDown Browser to access an exam, you are unable to print, copy, visit other websites, or access other applications. Once an assessment is started, you are locked into it until it's submitted for grading.

The Student Quick Start Guides for LockDown Browser are available [here \(Links to an external site.\)](#).

Our institution's link to the Lockdown Browser is: <https://download.respondus.com/lockdown/download.php?id=274640216> (Links to an external site.)

Follow the instructions to install Respondus LockDown Browser below

Respondus®
Assessment Tools for Learning Systems

LockDown Browser

Version: 2.0.2.09
Your system: Windows 10
System requirements
Do you need the Mac version?
Are you a computer lab manager?

Respondus LockDown Browser

The screenshot shows the Respondus LockDown Browser download page. A red box at the top right contains the text: "After you click the 'Install Now' button, you will be brought to this page." Below this, the page content includes the Respondus logo, the product name "LockDown Browser", a version number "2.0.2.09", and system requirements for Windows 10. A red arrow points from the top-left download icon to a second red box at the bottom left, which contains the text: "Click the LockDownBrowser.exe file to begin the installation. This file should also be in the 'downloads' folder of your computer." This second box points to a download icon in the browser's address bar.

After you click the "Install Now" button, you will be brought to this page.

Your browser will begin the download momentarily. If the download does not start, [click this link](#) to start the download manually.

The downloaded file will have the name LockDownBrowser-2.0.2.09.exe. Locate and double-click the file to start the setup process. Follow the onscreen instructions.

Once installed, locate the LockDown Browser icon on your desktop and start the application.

Click the LockDownBrowser.exe file to begin the installation. This file should also be in the "downloads" folder of your computer.
