

Technology Donations

The Auburn Public School district graciously accepts donations of usable technology equipment. However, before we can accept any donations we must ensure that the equipment is functional and will integrate into our current infrastructure. In some instances equipment may be too old to be of value to us, or simply incompatible with our current systems. Also, due to limited space, we have to ensure that we have adequate storage for the equipment. Sometimes we simply have more monitors and keyboards than we can ever use. We appreciate all efforts to support the technology program at the Auburn Public School District.

If you are interested in donating computer equipment please contact [Eric Bouvier](#) at (508) 832-7711 prior to bringing the equipment to the schools.
