

## Asbestos Policy

In compliance with the Division of Occupational Safety Asbestos & Lead Program

The Auburn Public Schools would like to notify you of asbestos-containing building materials in our buildings.

For your information, we have on file a management plan, giving the names and addresses of all school buildings, whether the school building contains friable ACBM, Nonfriable ACBM, assumed friable or ACBM, or assumed Nonfriable ACBM as well as written descriptions.

Should you need to review the management plan, please call our office at (508) 832-7755 to schedule an appointment, our LEA person is available Monday through Friday.

Thank you,

Joseph F. Fahey

Director of Facilities & Maintenance
