

CONNECTIONS DAY SCHOOL

LIFE SKILLS PROGRAM INFORMATION

In 2011, Connections Day School added a new Life Skills Program to our milieu. This program works with students who are Cognitively Delayed (CD) in preparation for independent or semi-independent living and employment by developing the necessary functional skills (through class work, practice and community experiences).

Some of the targeted objectives for this program are: understanding social cues and body language; developing and maintaining relationships; money management; utilizing resources effectively; transportation within the community; time management; safety within the home and community; maintaining proper hygiene; cleaning and maintaining a household; and preparing simple meals.
