Background: The Board of Regents Support Fund is funded through the interest earnings from a Trust Fund dedicated in the Louisiana State Constitution. Each year, funds are allocated to endow program chairs, professorships, and scholarships. Colleges are responsible for contributing private funds that matched with public funds according to Board of Regents policies. One of the policy requirements is approval of the endowments by the respective management board prior to submission to the Board of Regents.

History of Prior Actions: There is a history of approving the establishment of endowments at LCTCS colleges to comply with Board of Regents match requirements.

Fiscal Impact: The Endowments are the result of **\$6,240,000** in private donations. If the matches are approved by the Board of Regents, these endowments will secure an additional **\$6,160,000** in state funding, for a total increase in net assets of **\$12,400,000**.

Benefits to System: This will help our colleges take steps towards increasing asset goals by expanding student scholarships and professorship funding.
