I. PURPOSE

The purpose of this Crisis Management Policy is to act as a guide for school district and site administrators, school employees, students, school board members, and community members to address a wide range of potential crisis situations in the school district. The step-by-step procedures suggested by this Policy will provide guidance to each school site in drafting crisis management plans to coordinate protective actions prior to, during, and after any type of emergency or potential crisis situation. Each school district should develop tailored site-specific crisis management plans for each school site in the school district, and sections or procedures may be added or deleted in those crisis management plans based on site needs.

The school district will engage in ongoing emergency planning within the school district and with emergency responders and other relevant community organizations. The school district will ensure that relevant emergency responders in the community have access to their site-specific crisis management plans and will provide training to school district staff to enable them to act appropriately in the event of a crisis.

II. GENERAL INFORMATION

A. The Policy and Plans

The school district’s Crisis Management Policy has been created in consultation with local community response agencies and other appropriate individuals and groups that would likely be involved in the event of a school emergency. It is designed so that each site administrator can tailor a site-specific crisis management plan to meet that site’s specific situation and needs.

The school district’s administration and/or the administration of each site shall present tailored site-specific crisis management plans to the school board for review and approval. The site-specific crisis management plans will include general crisis procedures and crisis-specific procedures. Upon approval by the school board, such crisis management plans shall be an addendum to this Crisis Management Policy. This Policy and the plans will be maintained and updated on an annual basis.

B. District Crisis Management Policy

1. Stay Safe or Leave Safe
   a. Duck and Cover
   b. Lockdown
   c. Shelter-In-Place
   d. Evacuate the Site
   e. Evacuate Off-Site
   f. All Clear

2. Emergency Procedures
   a. Accidents at School
b. Aircraft Crash
c. Allergic Reaction
d. Animal Disturbance
e. Assault and/or Battery
f. Armed Assault on Campus
g. Biological or Chemical Release
h. Bomb Threat
i. Bus Disaster
j. Death/Serious Injury
k. Disorderly Conduct
l. Explosion/Risk of Explosion

3. Procedures for Reuniting Students and Parents/Guardian(s) in the Event of an Emergency
   a. Fire in Surrounding Area
   b. Fire on School Grounds
   c. Flooding
   d. Gun or Weapon on Campus
   e. Loss or Failure of Utilities
   f. Medical Emergencies
   g. Missing or Lost Child/Child Abduction
   h. Motor Vehicle Crash
   i. Psychological Trauma
   j. Searches
   k. Severe Weather
   l. Sexual Assault/Harassment
   m. Suicide/Mental Health Emergency
   n. Suspected Contamination of Food or Water
   o. Suspicious Behavior/Packages
   p. Threat of Violence
   q. Unlawful Demonstration/Walkout

A communication system will be in place to enable the designated individual to be contacted at all times in the event of a potential crisis, setting forth the method to contact the designated individual, the provision of the designee when the contact person is unavailable, and the method to convey contact information to the appropriate staff persons. Each site in the school district will have access to a copy of the district’s Emergency Response Crisis Management Manual to assist in the development of site-specific crisis management plans. Finally, all site-specific procedures will address specific procedures for children with special needs such as physical, sensory, motor, developmental, and mental health challenges.

4. School Emergency Response Crisis Management Teams
   a. Composition. The site administrator in each school site will select a school emergency response team that will be trained to respond to emergency situations. All school emergency response crisis management team members will receive ongoing training to carry out the site’s emergency response crisis management plans and will have knowledge of procedures,
evacuation routes, and safe areas. For purposes of student safety and accountability school emergency response crisis management team members will not have direct responsibility for the supervision of students. Team members must be willing to be actively involved in the resolution of crises and be available to assist in any crisis situation as deemed necessary by the site administrator. Each site will maintain a current list of school emergency response crisis management team members which will be updated annually. The site administrator, and his or her alternative designees, will know the location of that list in the event of a school emergency. A copy of the list will be kept on file in the school district office, or in a secondary location in single site school districts.

b. **Leaders.** The site administrator or his or her designee will serve as the leader of the school emergency response crisis management team and will be the primary contact for emergency response officials. In the event the primary designee is unavailable, the designee list should include more than one alternative designee and may include members of the emergency response team. When emergency response officials are present, they may elect to take command and control of the crisis. It is critical in this situation that school officials assume a resource role and be available as necessary to emergency response officials.

### III. PREPARATION BEFORE AN EMERGENCY

**A. Communication**

1. **District Employees.** Teachers generally have the most direct contact with students on a day-to-day basis. As a result, they must be aware of their role in responding to crisis situations. This also applies to non-teaching school personnel who have direct contact with students. All staff shall be aware of the school district’s Crisis Management Policy and their own site’s crisis management plan. Each school’s site-specific crisis management plan shall include the method and dates of dissemination of the plan to its staff. Employees will receive a copy of the relevant site-specific crisis management plans and shall receive periodic training on plan implementation.

2. **Students and Parents.** Students and parents shall be made aware of the school district’s Crisis Management Policy and relevant tailored crisis management plans for each school site. Each school district’s site-specific crisis management plan shall set forth how students and families are made aware of the district and school-specific plans. Students shall receive specific instruction on plan implementation and shall participate in a required number of drills and practice sessions throughout the school year.

**B. Training and Preparation for Emergencies**

1. The district administration will ensure proper training and response
preparation for emergencies on an annual basis. Administration is responsible for training employees and students on emergency procedures at each site.

2. Required safety drills will be coordinated and documented at each site by the school administrator.

3. The school district has prearranged sites for emergency sheltering and transportation as needed. The emergency sheltering locations are identified in the school’s emergency response crisis management classroom guide.

C. Facility Diagrams and Site Plans

All school sites will have a facility diagram and site plan that includes the location of primary and secondary evacuation routes, exits, designated safe areas inside and outside of the site, and the location of fire alarm control panel, fire alarms, fire extinguishers, hoses, water spigots, and utility shut offs. All facility diagrams and site plans will be updated regularly and whenever a major change is made to a site. Facility diagrams and site plans will be maintained by the site administrator and will be easily accessible and on file in the school district office. Facility diagrams and site plans will be provided to first responders, such as fire and law enforcement personnel.

D. Emergency Telephone Numbers

Each site will maintain a current list of emergency telephone numbers and the names and addresses of local, county, and state personnel who may be involved in a crisis situation. The list will include telephone numbers for local police, fire, ambulance, hospital, the Poison Control Center, county and state emergency management agencies, local public works departments, local utility companies, the public health nurse, mental health/suicide hotlines, and the county welfare agency. A copy of this list will be kept on file in the school district office, or at a secondary location for single site school districts, and updated annually.

School district employees will receive training on how to make emergency contacts, including 911 calls, when the school district's main telephone number and location is electronically conveyed to emergency personnel instead of the specific site in need of emergency services.

School district plans will set forth a process to internally communicate an emergency, using telephones in classrooms, intercom systems, or two-way radios, as well as the procedure to enable the staff to rapidly convey emergency information to a site designee. Each plan will identify a primary and secondary method of communication for both internal and secondary use. It is recommended that the plan include several methods of communication because computers, intercoms, telephones, and cell phones may not be operational or may be dangerous to use during an emergency.

E. Warning and Notification Systems

The school district shall maintain a warning system designed to inform
students, staff, and visitors of a crisis or emergency. This system shall be maintained on a regular basis under the maintenance plan for all school sites. The school district should consider an alternate notification system to address the needs of staff and students with special needs, such as vision or hearing.

The site administrator shall be responsible for informing students and employees of the warning system and the means by which the system is used to identify a specific crisis or emergency situation. Each school’s site-specific crisis management plan will include the method and frequency of dissemination of the warning system information to students and employees.

F. Early School Closure Procedures

The Superintendent or designee will make decisions about closing school or sites as early in the day as possible. The early school closure procedures will set forth the criteria for early school closure (e.g., weather-related, utility failure, or a crisis situation), will specify how closure decisions will be communicated to staff, students, families, and the school community (designated broadcast media, local authorities, e-mail, or district or school site web sites), and will discuss the factors to be considered in closing and reopening a school or site.

Early school closure procedures also will include a reminder to parents and guardians to listen to designated local radio and TV stations for school closing announcements, where possible.

G. Media Procedures

The Superintendent or designee has the authority and discretion to notify parents or guardians and the school community in the event of a crisis or early school closure. The Superintendent or designee will designate a spokesperson who will notify the media in the event of a crisis or early school closure. The spokesperson shall receive training to ensure that the district is in strict compliance with federal and state law relative to the release of private data when conveying information to the media.

H. District and School Crisis Recovery Teams

The District and/or School Crisis Recovery Team procedures will set forth the procedure for initiating crisis recovery plans. The procedures will utilize available resources including the social workers, counselor, community crisis recovery teams, or others in the community. The District and/or School Crisis Recovery Team procedures will be used whenever the Superintendent or the site administrator determines it to be necessary, such as after an assault, a hostage situation, shooting, or death by suicide.

V. MISCELLANEOUS PROCEDURES

A. Chemical Accidents

Procedures for reporting chemical accidents shall be posted at key locations such as chemistry labs, art rooms, swimming pool areas, and janitorial closets.
B. **Visitors**

The school district shall implement procedures mandating visitor sign in and visitors in school sites.

The school district shall implement procedures to minimize outside entry into school sites except at designated check-in points and assure that all doors are locked prior to and after regular site hours.

C. **Student Victims of Criminal Offenses at or on School Property**

The school district shall establish procedures allowing student victims of criminal offenses on school property the opportunity to transfer to another school within the school district.
