TRIGGERED PROGRAMS REQUIRING ACTION

One or more programs on the Annual Completion, Placement, and Licensure Form are highlighted which indicates they have been triggered as not meeting minimum benchmarks for completion, placement, and/or licensure. The minimum benchmarks for all programs are:

60% Total Completion Rate (Column 27 on the Form)

70% Total Placement Rate (Column 29 on the Form)

70% Licensure Exam Pass Rate (Column 30 on the Form)

(There are some exemptions to the minimum benchmarks given to institutions that offer special programs and serve special populations. Institutions that are given exemptions should have a letter on file from the Commission which specifies their minimum benchmarks.)

A plan of improvement for each triggered program must be submitted with this annual report. Plans must address all steps to be taken to address the specific area of concern (completion, placement, and/or licensure). Please refer to 'Suggested Procedures for Development of an Improvement Plan for Programs' in the Help Menu of the software. Plans for improvement must be uploaded into the software using the 'Uploads' feature in the blue task bar.

The timeline for compliance with minimum required benchmarks is as follows: Institutions whose longest program is less than one year in length will have 12 months to bring triggered programs into compliance; institutions whose longest program is one year, but less than two years, will have 18 months for compliance; and institutions whose longest program is two years in length will have two years for compliance.

Compliance with all minimum benchmarks must be accomplished within the specified timeframe. Institutions that fail to bring all triggered programs into compliance will face loss of accreditation or candidate status. Extensions for compliance may be granted by the Commission with good cause. Good cause is defined in the Handbook of Accreditation.

After submission of the annual report, the Commission will send an official notice to the institution regarding the next steps required to demonstrate compliance with the minimum benchmarks. The Commission takes action on annual reports at its winter meeting in February each year. The timeline for compliance described above will start with the date of the Commission's letter.
